SUPPLEMENTARY INFORMATION:

Title: Food Stamp Program Regulations, Part 275—Quality Control.

OMB Number: 0584-0303.

Expiration Date: August 31, 2004.

Type of Request: Extension of a currently approved collection of information.

Abstract: There are three components of the QC system that are covered in this proposed information collection. They are: (1) The sampling plan and (2) the arbitration and (3) good cause processes. Each State is required to develop a sampling plan which demonstrates the integrity of its case selection procedures. The QC system is designed to measure each State agency's payment error rate based on a statistically valid sample of food stamp cases. A State's payment error rate represents the proportion of cases that were reported through a QC review as being ineligible, overissued and underissued food stamp benefits. The QC system contains

procedures for resolving differences in review findings between State agencies and FNS. This is referred to as the arbitration process. The QC system also contains procedures which provide relief for State agencies from all or a part of a QC liability when a State agency can demonstrate that a part or all of an excessive error rate was due to an unusual event which had an uncontrollable impact on the State agency's payment error rate. This is referred to as the good cause process.

The approved burden for the QC system includes the burden for the QC sampling plan and the arbitration and good cause processes. The annual reporting burden associated with the QC sampling plan is 265 hours per year. There was a minor increase in the burden due to an increase in the number of responses associated with the good cause process. The annual reporting burdens associated with arbitration and good cause processes are estimated to total 1643 and 8480 respectively. The reporting burden for good cause increased from 1917 to 8480 hours. This is a result of a re-determination in the number of responses from 0.226 to 1 per year. The annual recordkeeping burden associated with the QC sampling plan is 1.25 hours per year. The annual recordkeeping burdens associated with arbitration and good cause processes are estimated to total 3.89 and 1.25 respectively. The recordkeeping burden for good cause increased from .28 to 1.25 hours due a re-determination in the number of records from .226 to 1 per year. The total annual burden for the QC system, as proposed by this notice, increased from 3830 to 10,394 hours.
