### Centers for Disease Control and Prevention

#### HIV Prevention With National Medical and Nursing Associations

*Announcement Type:* New.  
*Funding Opportunity Number:* 04152.  
*Catalog of Federal Domestic Assistance Number:* 93.118.

*Key Dates:* Letter of Intent Deadline: June 18, 2004.

*Application Deadline:* July 19, 2004.  
*Executive Summary:* The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2004 funds for a cooperative agreement program with national medical and nursing associations or societies to promote and assist with the implementation of CDC's Initiative Advancing HIV Prevention: New Strategies for a Changing Epidemic. The initiative aims to reduce barriers to early diagnosis of HIV infection and increase access to quality medical care, treatment, and ongoing prevention services. It emphasizes the use of proven public health approaches to reducing the incidence and spread of disease. As with other sexually transmitted diseases (STDs) or any other public health problem, principles commonly applied to prevent disease and its spread will be used, including appropriate routine screening, identification of new cases, partner notification, and increased availability of sustained treatment and prevention services for those infected.

The initiative consists of four key strategies:

- Make HIV testing a routine part of medical care.
- Implement new models for diagnosing HIV infections outside medical settings.
- Prevent new infections by working with persons diagnosed with HIV and their partners.
- Further decrease perinatal HIV transmission.

#### I. Funding Opportunity Description

**Authority:** This program is authorized under sections 301(a) and 317(k)(2) of the Public Health Service Act, (42 U.S.C. 241(a) and 274b(k)(2)), as amended.

**Purpose:** The purpose of this program is to: (1) Develop and disseminate provider educational and training materials to members; (2) promote HIV testing as part of routine medical care; (3) promote the incorporation of HIV prevention into the medical care of HIV-infected persons; (4) foster the exchange

of information, ideas and experiences of health care providers on what works for preventing HIV; and (5) stimulate involvement and participation of regional, state and local chapters. This program addresses the "Healthy People 2010" focus area of HIV.

Measurable outcomes of the program will be in alignment with one or more of the following performance goals for the National Center for HIV, STD and TB Prevention (NCHSTP): (1) Decrease the number of persons at high risk for acquiring or transmitting HIV infection; (2) increase the proportion of HIV-infected persons who know they are infected; (3) increase the proportion of HIV-infected persons who are linked to appropriate prevention, care, and treatment services; (4) strengthen the capacity nationwide to monitor the epidemic, develop and implement effective HIV prevention interventions and evaluate prevention programs.

**Activities:** Awardee activities for this program are as follows:

- a. Evaluate members for (1) knowledge, attitudes and perceptions regarding the role of clinicians in HIV prevention; (2) adherence to practice standards and federal or state clinical guidelines for the prevention and treatment of HIV/AIDS and other STDs; (3) knowledge, attitudes and barriers to the incorporation of the CDC/HRSA/NIH/IDSA Recommendations to Incorporate HIV Prevention into the Medical Care of Persons Living with HIV, into their clinical practice.

- b. Assess capacity of regional, State and local chapters to support the dissemination of educational and training materials.

- c. Develop and disseminate provider training and educational materials to promote HIV testing as part of routine medical care; promote the incorporation of HIV prevention into the medical care of persons living with HIV; and develop educational materials that providers can use with their patients. Dissemination can be done directly to members or through regional, State and local chapters.

- d. Sponsor a variety of forums for presentation of information on HIV testing as part of routine medical care; use of rapid testing in medical settings, including acute care clinics and emergency departments; and incorporation of HIV prevention into the medical care of HIV-infected persons.

- e. Conduct an evaluation of the intervention to measure changes in attitudes, clinical behaviors and practices.

- f. Collaborate with other funded national organizations and the Division of HIV/AIDS Prevention, CDC, in the

development of training and educational materials for health care providers and consumers.

g. Participate in two grantee meetings per year as defined by the project officer.

d. Work with each awardee to facilitate and support collaboration among funded national organizations as well as CDC-funded HIV prevention and surveillance programs.

e. Provide a synthesis of known best practices and interventions regarding HIV risk assessment and testing, HIV prevention in medical settings, rapid HIV testing, and prevention for HIV-infected persons.

f. Collaborate in the development of forums that focus on HIV testing as part of routine medical care; use of rapid testing in medical settings, including acute care clinics and emergency departments; and incorporating HIV prevention into the medical care of HIV-infected persons.

### V. Application Review Information

#### V.1. Criteria

You are required to provide measures of effectiveness that will demonstrate the accomplishment of the various identified objectives of the cooperative agreement. Measures of effectiveness must relate to the performance goals stated in the "Purpose" section of this announcement. Measures must be objective and quantitative, and must measure the intended outcome. These measures of effectiveness must be

submitted with the application and will be an element of evaluation. Your application will be evaluated against the following criteria:

1. *Scope of Plan (30 points):* The plan delineates your steps to implement and evaluate your program. It must be written for your entire two-year project period and include a succinct statement of the intent, desired outcome(s) of the project and clearly stated and measurable outcome objectives to be achieved by the project. These objectives must be quantifiable in terms of outputs and time frame for achievement. The statement of intent and outcome objectives should address the purpose of the cooperative agreement, which is to: (1) Develop and disseminate provider educational and training materials to members; (2) promote HIV testing as part of routine medical care; (3) promote the incorporation of HIV prevention into the medical care of HIV-infected persons; (4) foster the exchange of information, ideas and experiences of health care providers on what works for preventing HIV; (5) stimulate involvement and participation of regional, state and local chapters.

2. *Methods (30 points):* Clear statement of approach and activities required to achieve the stated HIV prevention outcome objectives. The relationship between activities and objectives must be explicitly demonstrated. Description of activities must include a delineation of resources required, identification of the personnel who will perform the work and a management plan with description of the systems and procedures which will be used to manage the progress, budget and operations of the project.

3. *Personnel and Staffing (25 points):* The qualifications and experience of key personnel, other professional staff and support staff available to carry out HIV prevention activities.

4. *Evaluation (15 points):* Detailed plans for evaluating the degree to which the program achieves the purpose of the cooperative agreement (as listed in the purpose section, and above in the description of the scope of plan). Measures must be objective and quantitative and must measure the intended outcome.

5. *Budget (reviewed, but not scored):* There is an upper limit of \$175,000. An application submitted with a budget over \$175,000, will be reviewed and, if awarded, only partially funded. The budget will be reviewed to determine the extent to which it is reasonable, clearly justified, consistent with the intended use of the funds, and

allowable. All budget categories should be itemized.

### V.2. Review and Selection Process

Applications will be reviewed for completeness by the Procurement and Grants Office (PGO) staff and for responsiveness by the NCHSTP. Incomplete applications and applications that are non-responsive to the eligibility criteria will not advance through the review process. Applicants will be notified that their application did not meet submission requirements.

An objective review panel will evaluate complete and responsive applications according to the criteria listed in the "V.1. Criteria" section above.

In addition, the following factors may affect the funding decision:

This program is limited to national professional medical and nursing associations or societies that have the capability to reach a broad constituency to assure the dissemination of consistent HIV prevention messages nationwide. These associations or societies must represent practicing clinicians.

Funding preference will be given to national organizations with prior experience in developing and disseminating provider educational and training materials to promote prevention services.
