

Dated: March 29, 2004.

William J. Walker,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

[FR Doc. 04-9657 Filed 4-28-04; 8:45 am]

BILLING CODE 4410-09-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Withdrawal of Application

By notice dated February 4, 2004, and published in the **Federal Register** on February 18, 2004 (68 FR 7656), IRIX Pharmaceuticals, Inc., 101 Technology Place, Florence, South Carolina 29501, made application by renewal to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of methylphenidate (1724), a basic class of controlled substance listed in Schedule II.

The firm planned to manufacture methylphenidate for sale to its customers.

By letter dated February 18, 2004, IRIX Pharmaceuticals, Inc., requested that its registration as a Schedule II bulk manufacturer be retired. Therefore, IRIX Pharmaceuticals, Inc.'s renewal application to import the above listed controlled substance is hereby withdrawn.

Dated: March 29, 2004.

William J. Walker,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

[FR Doc. 04-9660 Filed 4-28-04; 8:45 am]

BILLING CODE 4410-09-M

DEPARTMENT OF JUSTICE

Drug Enforcement Administration

Manufacturer of Controlled Substances; Notice of Application.

Pursuant to Section 1301.33(a) of Title 21 of the Code of Federal Regulations (CFR), this is notice that on November 30, 2003, Lonza Riverside, 900 River Road, Conshohocken, Pennsylvania 19428, made application by renewal to the Drug Enforcement Administration (DEA) for registration as a bulk manufacturer of the basic classes of controlled substances listed below:

Drug	Schedule
Gamma hydroxybutyric acid (2010).	I

Drug	Schedule
Amphetamine (1100)	II
Methylphenidate (1724)	II

The firm plans to produce bulk products for finished dosage units for distribution to its customers.

Any other such applicant and any person who is presently registered with DEA to manufacture such substances may file comments or objections to the issuance of the proposed registration.

Any such comments or objections may be addressed, in quintuplicate, to the Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration, United States Department of Justice, Washington, DC 20537, Attention: Federal Register Representative, Office of Chief Counsel (CCD) and must be filed no later than June 28, 2004.

Dated: March 29, 2004.

William J. Walker,

Deputy Assistant Administrator, Office of Diversion Control, Drug Enforcement Administration.

BILLING CODE 4410-09-M

DEPARTMENT OF LABOR

Office of the Secretary

Submission for OMB Review: Comment Request

March 4, 2004.

The Department of Labor (DOL) has submitted the following public information collection request (ICR) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. chapter 35). A copy of this ICR, with applicable supporting documentation, may be obtained by contacting the Department of Labor (DOL). To obtain documentation, contact Darrin King on (202) 693-4129 (this is not a toll-free number) or e-mail: king.darrin@dol.gov.

Comments should be sent to Office of Information and Regulatory Affairs, Attn: OMB Desk Officer for the Mine Safety and Health Administration (MSHA), Office of Management and Budget, Room 10235, Washington, DC 20503, (202) 395-7316 (this is not a toll-free number), within 30 days from the date of this publication in the **Federal Register**.

The OMB is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary

for the proper performance of the functions of the agency, including whether the information will have practical utility;

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Agency: Mine Safety and Health Administration.

Type of Review: Extension of currently approved collection.

Title: Certificate of Electrical Training.

OMB Number: 1219-0001.

Frequency: On occasion.

Type of Response: Reporting.

Affected Public: Business or other for-profit.

Number of Respondents: 450.

Number of Annual Responses: 1,626.

Estimated Time Per Response: 8 hours to conduct training and 25 minutes to complete the MSHA Form 5000-1.

Total Burden Hours: 3,829.

Total Annualized capital/startup costs: \$0.

Total Annual Costs (operating/

maintaining systems or purchasing

services): \$221,508.

Description: Title 30 CFR 75.153(a)(2) and 77.103(a)(2) require that a program be provided for the qualification of certain experienced personnel as mine electricians. MSHA Form 5000-1 provides the coal mining industry with a standardized reporting format that expedites the certification process while ensuring compliance with the regulations. The information provided on the form is used to determine if applicants satisfy the requirements to obtain the certification or qualification.

Ira L. Mills,

Departmental Clearance Officer.

[FR Doc. 04-9700 Filed 4-28-04; 8:45 am]

BILLING CODE 4510-43-P

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Proposed Collection; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) (44 U.S.C. 3506(c)(2)(A)). This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the "National Longitudinal Survey of Youth 1997." A copy of the proposed information collection request (ICR) can be obtained by contacting the individual listed in the Addresses section of this notice.

DATES: Written comments must be submitted to the office listed in the Addresses section below on or before June 28, 2004.

ADDRESSES: Send comments to Amy A. Hobby, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue, NE., Washington, DC 20212, telephone number 202-691-7628 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT: Amy A. Hobby, BLS Clearance Officer, telephone number 202-691-7628. (See ADDRESSES section.)

SUPPLEMENTARY INFORMATION:

I. Background

The National Longitudinal Survey of Youth 1997 (NLSY97) is a nationally representative sample of persons who were born in the years 1980 to 1984. These respondents were ages 12-17 when the first round of annual interviews began in 1997; the eighth round of annual interviews is being conducted from November 2004 to May

2005. The Bureau of Labor Statistics (BLS) contracts with the Center for Human Resource Research (CHRR) of the Ohio State University to implement the NLSY97 survey. The National Opinion Research Center (NORC) of the University of Chicago is responsible for interviewing these youths on a yearly basis to study how young people make the transition from full-time schooling to the establishment of their families and careers. The longitudinal focus of this survey requires information to be collected from the same individuals over many years in order to trace their education, training, work experience, fertility, income, and program participation. One of the goals of the Department of Labor (DOL) is to produce and disseminate timely, accurate, and relevant information about the U.S. labor force. The BLS contributes to this goal by gathering information about the labor force and labor market and disseminating it to policy makers and the public so that participants in those markets can make more informed, and thus more efficient, choices. Research based on the NLSY97 contributes to the formation of national policy in the areas of education, training, employment programs, and school-to-work transitions. In addition to the reports that the BLS produces based on data from the NLSY97, members of the academic community publish articles and reports based on NLSY97 data for the DOL and other funding agencies. The survey design provides data gathered from the same respondents over time to form the only data set that contains this type of information for this important population group. Without the collection of these data, an accurate longitudinal data set could not be provided to researchers and policymakers, thus adversely affecting the DOL's ability to perform its policy- and report-making activities.

II. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Action

The Bureau of Labor Statistics seeks approval to conduct rounds eight, nine, and ten of annual interviews of the NLSY97. Respondents to the NLSY97 will undergo an interview of approximately one hour during which they will answer questions about schooling and labor market experiences, family relationships, and community background.

During the fielding period for the main youth interviews, about 900 respondents will be asked to participate in a brief second interview to ascertain whether the initial interview took place as the interviewer reported and to assess the data quality of selected questionnaire items.

Type of Review: Revision of a currently approved collection.

Agency: Bureau of Labor Statistics.

Title: National Longitudinal Survey of Youth 1997.

OMB Number: 1220-0157.

Affected Public: Individuals or households and not-for-profit institutions (public and private high schools).

Form	Total respondents	Frequency	Total responses	Average time per response (minutes)	Estimated total burden (hours)
Youth Interview	7,900	Annually	7,900	60	7,900
Youth Validation Reinterview	900	Annually	900	6	90
Totals	7,900		8,800		7,990

The difference between the total number of respondents and the total number of responses reflects the fact that 900 respondents will be interviewed twice, once in the main survey and a second time in the validation reinterview.

Total Burden Cost (capital/startup): \$0.

Total Burden Cost (operating/maintenance): \$0.

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 15th day of April, 2004.

Cathy Kazanowski,

Chief, Division of Management Systems,
Bureau of Labor Statistics.

BILLING CODE 4510-24-P

DEPARTMENT OF LABOR

Mine Safety and Health Administration

Petitions for Modification

The following parties have filed petitions to modify the application of existing safety standards under section 101(c) of the Federal Mine Safety and Health Act of 1977.

1. Goodin Creek Mining Company, Inc.

[Docket No. M-2004-014-C]

Goodin Creek Mining Company, Inc., 340 South Broadway, Suite 200, Lexington, Kentucky 40508 has filed a petition to modify the application of 30 CFR 75.342 (Methane monitors) to its Mine #1 (MSHA I.D. No. 15-18176) located in Knox County, Kentucky. The petitioner proposes to use a hand-held continuous-duty methane and oxygen detector on each coal hauling three-wheel tractor with drag bottom buckets in lieu of using machine mounted methane monitors. The petitioner states that the tractor operator will be trained in the proper use of the oxygen detector. The petitioner has listed in this petition specific terms and conditions that would be implemented when using its proposed alternative method at the Goodin Creek Mining Company, Inc., Mine #1. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

2. Oxbow Mining, LLC

[Docket No. M-2004-015-C]

Oxbow Mining, LLC, P.O. Box 535, 3737 Highway 133, Somerset, Colorado 81434 has filed a petition to modify the application of 30 CFR 75.1100-2(b) (Quantity and location of firefighting equipment) to its Elk Creek Mine (MSHA I.D. No. 05-04674) located in Gunnison County, Colorado. The petitioner requests a modification of the

existing standard to permit an alternative method for installing water lines for the entire length of the belt conveyors, in lieu of keeping the water line charged with water at all times, because in February 2003, the Oxbow Mining, LLC was granted a petition for modification to allow the use of intake air coursed through conveyor belt entries and the belt entry portal sits at approximately 6300 feet elevation, which causes freezing conditions of the existing water line in the conveyor entry during the winter. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

3. Dolet Hills Lignite Company

[Docket No. M-2004-016-C]

Dolet Hills Lignite Company, 377 Highway 522, Mansfield, Louisiana 71052 has filed a petition to modify the application of 30 CFR 77.803 (Fail safe ground check circuits on high-voltage resistance grounded systems) to its Dolet Hills Lignite Mine (MSHA I.D. No. 16-01031) located in De Soto County, Louisiana. The petitioner requests a modification of the existing standard to allow an alternative method of compliance when raising or lowering the boom/mast at construction sites during initial Dragline assembly. The petitioner states that this method would only be used during the boom/mast raising/lowering process, and when raising and lowering the boom for construction/maintenance, the machine will not be performing mining operations. The procedure would also be applicable in instances of disassembly or major maintenance which require the boom to be raised or lowered. The petitioner has listed specific guidelines in this petition that would be followed to minimize the potential for electrical power loss during this critical boom procedure. The petitioner asserts that this procedure does not replace other mechanical precautions or the requirements 30 CFR 77.405(b) that are necessary to safely secure boom/masts during construction or maintenance procedures and that its proposed alternative method would not result in a diminution of safety to the miners, but would provide the same measure of protection to the miners as the existing standard.

4. Meadow Branch Mining Corporation

[Docket No. M-2004-017-C]

Meadow Branch Mining Corporation, P.O. Box 2560, Wise, Virginia 24293 has filed a petition to modify the application of 30 CFR 75.350 (Air

courses and belt haulage entries) to its Low Splint No. 1 Mine (MSHA I.D. No. 44-06883) located in Wise County, Virginia. The petitioner requests a modification of the existing standard to permit the use of belt air to ventilate active working places. The petitioner proposes to install a carbon monoxide monitoring system as an early warning fire detection system in all belt entries used to course intake air to a working place. The petitioner asserts that the proposed alternative method would provide at least the same measure of protection as the existing standard.

Request for Comments

Persons interested in these petitions are encouraged to submit comments via e-mail to comments@msha.gov, or on a computer disk along with an original hard copy to the Office of Standards, Regulations, and Variances, Mine Safety and Health Administration, 1100 Wilson Boulevard, Room 2350, Arlington, Virginia 22209. All comments must be postmarked or received in that office on or before June 1, 2004. Copies of these petitions are available for inspection at that address.

Dated in Arlington, Virginia this 23rd day of April, 2004.

Marvin W. Nichols, Jr.,

Director, Office of Standards, Regulations,
and Variances.

BILLING CODE 4510-43-P

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-346; License No. NPF-03]

FirstEnergy Nuclear Operating Company; Notice of Issuance of Director's Decision Under 10 CFR 2.206

Notice is hereby given that the Director, Office of Nuclear Reactor Regulation, has issued a Director's Decision with regard to a letter dated August 25, 2003, filed by Greenpeace pursuant to section 2.206 of title 10 of the Code of Federal Regulations (10 CFR) on behalf of the Nuclear Information & Resource Service and the Union of Concerned Scientists (collectively, the Petitioners). The Petitioners requested that the Nuclear Regulatory Commission (NRC) take enforcement actions against FirstEnergy Nuclear Operating Company (FirstEnergy), the licensee for Davis-Besse Nuclear Power Station in Oak Harbor, Ohio, and also requested that NRC suspend the Davis-Besse license and prohibit plant restart until certain
