[C-122-839]

Certain Softwood Lumber Products from Canada: Extension of Time Limit for Preliminary Results of Countervailing Duty Administrative Review

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Extension of Time Limit for Preliminary Results of Countervailing Duty Administrative Review.

EFFECTIVE DATE: January 16, 2004.

FOR FURTHER INFORMATION CONTACT: Stephanie Moore at (202) 482-3692, AD/CVD Enforcement, Office VI, Group II, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230.

SUPPLEMENTARY INFORMATION:

Time Limits

Section 751(a)(3)(A) of the Tariff Act of 1930, as amended (the Act), requires the Department to issue the preliminary results of a review within 245 days after the last day of the anniversary month of an order/finding for which a review is requested and the final results within 120 days after the date on which the preliminary results are published. However, if it is not practicable to complete the review within that time period, section 751(a)(3)(A) of the Act allows the Department to extend the time limit for the preliminary results to a maximum of 365 days and for the final results to 180 days (or 300 days if the Department does not extend the time limit for the preliminary results) from the date of the publication of the preliminary results.

Background

On June 26, 2003, the Department initiated an administrative review of the countervailing duty order on certain softwood lumber products from Canada. See *Initiation of Antidumping and Countervailing Duty Administrative*

Reviews and Request for Revocation in Part, 68 FR 39055 (July 1, 2003). The preliminary results are currently due no later than February 2, 2004.

Extension of Time Limit for Preliminary Results of Review

The subsidy programs covered by this review are extraordinarily complicated. Further, petitioners have made several new subsidy allegations in this review. In addition, because this administrative review is being conducted on an aggregate level, the Department must analyze large amounts of data from each of the Canadian Provinces as well as data from the Canadian Federal Government. Furthermore, the Department intends to conduct a limited number of reviews of individual companies who claimed to have received zero or *de minimis* subsidies. Therefore, the Department is extending the time limits for completion of the preliminary results to June 1, 2004. See the Decision Memorandum from Melissa G. Skinner, Director, Office of AD/CVD Enforcement VI, to Holly A. Kuga, Acting Deputy Assistant Secretary for AD/CVD Enforcement Group II, dated concurrent with this notice, which is on file in the Central Records Unit.

This extension is in accordance with section 751(a)(3)(A) of the Act.

Dated: January 8, 2004.

Holly A. Kuga,

Acting Deputy Assistant Secretary for AD/CVD Enforcement Group II.

Summer Undergraduate Research Fellowships (SURF) Gaithersburg and Boulder Programs; Availability of Funds

AGENCY: National Institute of Standards and Technology, Commerce.

ACTION: Notice.

SUMMARY: The National Institute of Standards and Technology (NIST) announces that the 2004 Summer Undergraduate Research Fellowships (SURF) Gaithersburg and Boulder programs are soliciting applications for financial assistance for FY 2004. The SURF Gaithersburg program is soliciting applications in the areas of Electronics

and Electrical Engineering, Manufacturing Engineering, Chemical Science and Technology, Physics, Materials Science and Engineering, Building and Fire Research, and Information Technology. The SURF Boulder program is soliciting applications in the areas of Electronics and Electrical Engineering, Chemical Science and Technology, Physics, Materials Science and Engineering, and Information Technology. Applications for the Gaithersburg and Boulder programs are separate. Application to one program does not constitute application to the other, and applications will not be exchanged between the Gaithersburg and Boulder programs. If applicants wish to be considered at both sites, two separate applications must be submitted.

In Gaithersburg, Maryland, the programs "SURFing the Electronics and Electrical Engineering Laboratory," "SURFing the Manufacturing Engineering Laboratory," "SURFing the Chemical Science and Technology Laboratory," "SURFing the Physics Laboratory," "SURFing the Materials Science and Engineering Laboratory," "SURFing the Building and Fire Research Laboratory," and "SURFing the Information Technology Laboratory," will provide an opportunity for the NIST Electronics and Electrical Engineering Laboratory (EEEL), Manufacturing Engineering Laboratory (MEL), Chemical Science and Technology Laboratory (CSTL) Physics Laboratory (PL), Materials Science and Engineering Laboratory (MSEL), Building and Fire Research Laboratory (BFRL), Information Technology Laboratory (ITL), and the National Science Foundation (NSF) to join in a partnership to encourage outstanding undergraduate students to pursue careers in science and engineering. The program will provide research opportunities for students to work with internationally known NIST scientists, to expose them to cutting-edge research and promote the pursuit of graduate degrees in science and engineering.

The SURF NIST Boulder program will provide an opportunity for five NIST laboratories (in Boulder, Colorado)—Electronics and Electrical Engineering Laboratory (EEEL), Physics Laboratory (PL), Chemical Science and Technology Laboratory (CSTL), Materials Science and Engineering Laboratory (MSEL) and Information Technology Laboratory (ITL)—and the National Science Foundation (NSF) to join in a partnership to encourage outstanding undergraduate students to pursue careers in science and engineering. The
