provides that all stations must be placed in operation within twelve (12) months from the date of grant or the authorization cancels automatically and must be returned to the Commission. Application for extension of time to commence service may be made on FCC Form 601. Extensions of time must be filed prior to the expiration of the construction period. Extensions may be granted only if the licensee shows that the failure to commence service is due to causes beyond its control. No extensions will be granted for delays cause by lack of financing, lack of site availability, for the assignment or transfer of control of an authorization, or for failure to timely order equipment.
