

Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Clean Water Act State Revolving Fund Program (Renewal).

Abstract: The Clean Water Act, as amended by "The Water Quality Act of 1987" (U.S.C. 1381-1387 *et. seq.*), created a Title VI which authorizes grants to States for the establishment of State Water Pollution Control Revolving Funds (SRFs). The information collection activities will occur primarily at the program level through the State "Intended Use Plan" and "Annual Report." The information is needed annually to implement section 606 of the Clean Water Act (CWA).

The 1987 Act declares that water pollution control revolving funds shall be administered by an instrumentality of the State subject to the requirements of the act. This means that each State has a general responsibility for administering its revolving fund and must take on certain specific responsibilities in carrying out its administrative duties. The information collection activities will occur primarily at the program level through the State Intended Use Plan and Annual Report. The information is needed annually to implement section 606 of the Clean Water Act (CWA). The Act requires the information to ensure national accountability, adequate public comment and review, fiscal integrity and consistent management directed to achieve environmental benefits and

results. The individual information collections are: (1) Capitalization Grant Application and Agreement/State Intended Use Plan, (2) Annual Report, (3) State Annual Audit, and (4) Application for SRF Financial Assistance.

(1) *Capitalization Grant Application and Agreement/State Intended Use Plan:* The State will prepare a Capitalization Grant application that includes an Intended Use Plan (IUP) outlining in detail how it will use all the funds available to the fund. The grant agreement contains or incorporates by reference the IUP, application materials, payment schedule, and required assurances. The bulk of the information is provided in the IUP, the legal agreement which commits the State and EPA to execute their responsibilities under the Act.

(2) *Annual Report:* The State must agree to complete and submit an Annual Report that indicates how the State has met the goals and objectives of the previous fiscal year as stated in the IUP and grant agreement. The report provides information on loan recipients, loan amounts, loan terms, project categories, and similar data on other forms of assistance. The report describes the extent to which the existing SRF financial operating policies, alone or in combination with other State financial assistance programs, will provide for the long term fiscal health of the Fund and carry out other provisions specified in the grant operating agreement.

(3) *Annual Audit:* Most States have agreed to conduct or have conducted a separate financial audit of the Capitalization Grant which will provide opinions on the financial statements, and a report on the internal controls and compliance with program requirements. The remaining States will be covered by audits conducted under the requirements of the Single Audit Act and by EPA's Office of Inspector General.

(4) *Application for SRF Financial Assistance:* Local communities and other eligible entities have to prepare and submit applications for SRF assistance to their respective State Agency which manages the SRF program. The State reviews the completed loan applications, and verifies that the proposed projects will comply with applicable Federal and State requirements.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are

identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 111 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: 3,009.

Estimated Number of Respondents: 3,060.

Frequency of Response: Annually.

Estimated Total Annual Hour Burden: 339,405.

Estimated Total Annual Cost: \$6,155,700, includes \$0 annual capital/startup and O&M costs and \$6,155,700 annual labor costs.

Changes in the Estimates: There is an increase of 76,500 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to the increase in the number of participants in the program, the individual burden still remains the same.

Dated: November 17, 2004.

Oscar Morales,

Director, Collection Strategies Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[OAR-2004-0228; FRL-7841-6]

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Reporting and Recordkeeping Requirements Under the Perfluorocompound (PFC) Reduction/Climate Partnership for the Semiconductor Industry (Renewal), EPA ICR Number 1823.03, OMB Control Number 2060-0382

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on 11/30/04. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before December 27, 2004.

ADDRESSES: Submit your comments, referencing docket ID number OAR-2004-0228, to (1) EPA online using EDOCKET (our preferred method), by E-mail to a-and-r-Docket@epa.gov, or by mail to: Environmental Protection Agency, EPA Docket Center (EPA/DC), Air and Radiation Docket and Information Center, MC 6102T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Scott Bartos, Office of Atmospheric Programs, 6207J, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 343-9167; fax number: (202) 343-2202; e-mail address: bartos.scott@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On August 23, 2004 (69 FR 51831), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OAR-2004-0228, which is available for public viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket and Information

Center is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, confidential business information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Reporting and Record Keeping Requirements Under the Perfluorocompound (PFC) Reduction/Climate Partnership for the Semiconductor Industry (Renewal).

Abstract: The U.S. EPA's Office of Atmospheric Programs launched the PFC Reduction/Climate Partnership for the Semiconductor Industry in 1996. Perfluorinated compounds (PFCs) are the most potent greenhouse gases known with atmospheric lifetimes of up to 50,000 years. These unique chemical compounds are required during two critical semiconductor manufacturing steps, plasma etching and CVD chamber cleaning. This important voluntary program contributes to the country's overall reduction in greenhouse gas emissions. The program uses a pollution prevention approach to reduce emissions and tracks progress by annually collecting PFC emissions estimates from partners.

In 2003, EPA's semiconductor industry partners were recognized for

their commitment and ongoing efforts to protect the climate as participants in the White House's Climate VISION initiative. All semiconductor manufacturers operating in the U.S. are invited to join this voluntary partnership. Participation in the program begins by completing a Memorandum of Understanding that defines a voluntary agreement between the company and EPA. By joining the partnership, a company agrees to track and report an estimate of its PFC emissions to EPA annually. A designated third party assembles the reported data and protects any confidential or sensitive information prior to EPA review. The partner companies' annual reports will provide an estimate of total PFC emissions and a description of the estimating method. The partnership will track progress as a group using the aggregate annual PFC emissions estimate.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 533 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Semiconductor manufacturers.

Estimated Number of Respondents: 24.

Frequency of Response: Once annually.

Estimated Total Annual Hour Burden: 13,050.

Estimated Total Annual Cost: \$1,253,982, which includes \$0 annualized capital/startup costs,

\$132,936 annual O&M costs, and \$1,121,046 annual labor costs.

Changes in the Estimates: There is a decrease of 1,900 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This decrease is because the partnership has stabilized at 24 partner companies representing 80 percent of the U.S. industry and no new partners are expected to join over the next three years. Therefore, activities related to reviewing and signing a memorandum of understanding were removed from the burden estimate.

Dated: November 17, 2004.

When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in

the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.epa.gov/edocket>.

Title: Reporting and Recordkeeping Requirements Under EPA's Natural Gas STAR Program (Renewal).

Abstract: Natural Gas STAR is an EPA-sponsored, voluntary program that encourages natural gas companies to adopt cost effective methods for reducing methane emissions. Natural Gas STAR Partners agree to implement cost-effective Best Management Practices, which will save participants money and improve environmental quality. EPA needs to collect information to establish program participation and to obtain general information on new Natural Gas STAR Partners. EPA also uses the information collection to evaluate a Partner's progress and performance, assess overall program results, and develop technical guidance documents for the benefit of the industry. Information collection is accomplished through the use of an annual reporting process that allows companies to report their accomplishments in either a traditional hard-copy format or electronically. Participation in Natural Gas STAR is voluntary. Natural Gas STAR Partners may designate information submitted under this ICR as confidential business information. EPA will treat all such information as confidential business information and will not make the company or agency-specific information collected under this ICR available to the general public.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

OMB has requested that EPA determine the extent to which reductions reported to the Natural Gas STAR Program would have occurred in the absence of the program. EPA has performed a sensitivity analysis in order to address this issue. Details are provided in the Supporting Statement for this notice.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 44 hours per response. Burden means the total time, effort, or financial resources expended
