Title: 49 CFR 571.213, Child Restraint Systems.

OMB Number: 2127-0511.

Type of Request: Extension of a currently approved collection.

Abstract: Manufacturers are required to provide owner registration cards and to label each child restraint system with a message informing users of the importance of registering the restraint with the manufacturer. The owner registration information is then retained in the event that owners need to be contacted for recall or replacement campaigns. The manufacturer is also required to provide a printed instructions brochure with step-by-step information on how the restraint is to be used. Without proper use, the effectiveness of these systems is greatly diminished. Each child restraint system must also have a permanent label. A permanently attached label gives quick-look information on whether the restraint meets the safety requirements, recommended installation and use, and warnings against misuse.

Affected Public: Business.

Estimated Total Annual Burden: 90,000 hours.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.
