SUPPLEMENTARY INFORMATION: The Electronic Records Working Group was established by the Interagency Committee on Government Information (ICGI), to fulfill the requirements of subsection 207(e) of the Act, "Public Access to Electronic Information." The Working Group's members are drawn from a number of Federal agencies, with NARA as the chair. The Working Group has held several focus groups with interested stakeholders from Federal agencies, public interest groups, and professional organizations to address the following three issues:

- The definition to be used for "Government information on the Internet and other electronic records".

The operating definitions currently used by the Working Group are as follows:

Government information on the Internet—

- Information posted on Government Web sites,
- Information exchanged between Federal agencies,
- Information exchanged between Federal agencies and the public,
- Information exchanged between Federal agencies and other governments,
- Government-enabled Web services,
- Standard government forms,
- E-government business transactions.

*Other electronic records—*Electronic information meeting the definition of a Federal record per 44 U.S.C. 3301.

Records include:

- All books, papers, maps, photographs, machine readable materials, or other documentary materials,
- Regardless of physical form or characteristics,
- Made or received by an agency of the United States government:
 - Under Federal law, or
 - In connection with the transaction of public business;
 - And preserved or appropriate for preservation by that agency or its legitimate successor:
 - As evidence of the organization, functions, policies, decisions, procedures, operations or other activities of the government, or
 - Because of the informational value of the data in them (44 U.S.C. 3301).
 - Perceived barriers to effective management of "Government information on the Internet and other electronic records".

The operating definition of *effective management* currently used by the Working Group includes:

- Managing through the life cycle,
- Providing for accessibility and retrieval,

- Providing sufficient security,
- Ensuring consistency (ability to reproduce record),
 - Providing for the integrity of records over time,
 - Ensuring no loss of records,
 - Ensuring compatibility with standard formats,
 - Managing format changes over time,
 - Providing for long-term record storage and migration of formats,
 - Managing the location of records over time,
 - Cost effective,
 - Appropriate long-term custodianship.
 - What guidance tools would assist in overcoming the identified barriers.

At this public meeting, the Working Group will highlight findings from the focus groups and seek additional comments from the attendees on the three issues.

Dated: February 25, 2004.

Assistant Archivist for Records Services—Washington, DC.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-395]

South Carolina Electric and Gas Company, Virgil C. Summer Nuclear Station; Notice of Availability of the Final Supplement 15 to the Generic Environmental Impact Statement Regarding License Renewal for the Virgil C. Summer Nuclear Station

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has published a final plant-specific supplement to the "Generic Environmental Impact Statement (GEIS)", NUREG-1437, regarding the renewal of operating license NPF-12 for Virgil C. Summer

Nuclear Station (V.C. Summer), for an additional 20 years of operation. V.C. Summer is owned by South Carolina Electric and Gas Company (SCE&G), and is located in Fairfield County, South Carolina, approximately 26 miles northwest of Columbia, South Carolina. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative methods of power generation.

It is stated in Section 9.3 of the report:

Based on (1) The analysis and findings in the GEIS (NRC 1996; 1999); (2) the Environmental Report submitted by SCE&G (SCE&G 2002b); (3) consultation with Federal, State, and local agencies; (4) the staff's own independent review; and (5) the staff's consideration of public comments, the staff recommends that the Commission determine that the adverse environmental impacts of license renewal for V.C. Summer are not so great that preserving the option of license renewal for energy planning decisionmakers would be unreasonable.

The final Supplement 15 to the GEIS is available for public inspection in the NRC Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm.html> (the Public Electronic Reading Room). Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the PDR reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov. The final supplement to the GEIS is also available for public inspection at the Thomas Cooper Library, 1322 Greene Street, Columbia, South Carolina 29208, and at the Fairfield County Library, 300 Washington Street, Winnsboro, South Carolina 29180.
