 BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-315 and 50-316]

Indiana Michigan Power Company, Donald C. Cook Nuclear Plant; Notice of Intent To Prepare an Environmental Impact Statement and Conduct Scoping Process

Indiana Michigan Power Company (I&M) has submitted an application for renewal of Facility Operating Licenses, DPR-58 and DPR-74 for an additional 20 years of operation at the Donald C. Cook Nuclear Plant (Cook), Units 1 and 2 (CNP). CNP is located in Berrien County, Michigan, about 55 miles east of Chicago, Illinois. The operating licenses for Cook Nuclear Plant, Units 1 and 2, expire on October 25, 2014, and December 23, 2017, respectively. The application for renewal was received on November 3, 2003, pursuant to 10 CFR part 54. A notice of receipt and availability of the application, which included the environmental report (ER), was published in the **Federal Register** on November 10, 2003 (68 FR 63824). A notice of acceptance for docketing of the application for renewal of the facility operating license was published in the **Federal Register** on December 10, 2003 (68 FR 68956). The purpose of this notice is to inform the public that the U.S. Nuclear Regulatory Commission (NRC) will be preparing an environmental impact statement (EIS) in support of the review of the license renewal application and to provide the public an opportunity to participate in the environmental scoping process, as defined in 10 CFR 51.29. In addition, as outlined in 36 CFR 800.8, "Coordination with the National Environmental Policy Act," the NRC plans to coordinate compliance with section 106 of the National Historic Preservation Act in meeting the requirements of the National Environmental Policy Act of 1969 (NEPA).

In accordance with 10 CFR 51.53(c) and 10 CFR 54.23, I&M submitted the ER as part of the application. The ER was prepared pursuant to 10 CFR part 51 and is available for public inspection at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the

Publicly Available Records component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible at <http://www.nrc.gov/reading-rm/adams.html>, which provides access through the NRC's Electronic Reading Room link. Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the NRC's PDR Reference staff at 1-800-397-4209, or 301-415-4737, or by e-mail to pdr@nrc.gov. The application may also be viewed on the Internet at <http://www.nrc.gov/reactors/operating/licensing/renewal/applications/cook.html>. In addition, the Bridgman Public Library, 4460 Lake Street, Bridgman, Michigan and the Maud Preston Palenske Memorial Library, 500 Market Street, St. Joseph, Michigan have agreed to make the ER available for public inspection.

This notice advises the public that the NRC intends to gather the information necessary to prepare a plant-specific supplement to the Commission's "Generic Environmental Impact Statement (GEIS) for License Renewal of Nuclear Plants," (NUREG-1437) in support of the review of the application for renewal of the CNP operating licenses for an additional 20 years. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative energy sources. The NRC is required by 10 CFR 51.95 to prepare a supplement to the GEIS in connection with the renewal of an operating license. This notice is being published in accordance with the National Environmental Policy Act of 1969 (NEPA) and the NRC's regulations found in 10 CFR part 51.

The NRC will first conduct a scoping process for the supplement to the GEIS and, as soon as practicable thereafter, will prepare a draft supplement to the GEIS for public comment. Participation in the scoping process by members of the public and local, State, tribal, and Federal government agencies is encouraged. The scoping process for the supplement to the GEIS will be used to accomplish the following:

- a. Define the proposed action which is to be the subject of the supplement to the GEIS.
- b. Determine the scope of the supplement to the GEIS and identify the significant issues to be analyzed in depth.
- c. Identify and eliminate from detailed study those issues that are peripheral or that are not significant.
- d. Identify any environmental assessments and other EISs that are being or will be prepared that are

related to, but are not part of the scope of the supplement to the GEIS being considered.

e. Identify other environmental review and consultation requirements related to the proposed action.

f. Indicate the relationship between the timing of the preparation of the environmental analyses and the Commission's tentative planning and decision-making schedule.

g. Identify any cooperating agencies and, as appropriate, allocate assignments for preparation and schedules for completing the supplement to the GEIS to the NRC and any cooperating agencies.

h. Describe how the supplement to the GEIS will be prepared, and include any contractor assistance to be used.

The NRC invites the following entities to participate in scoping:

- a. The applicant, Indiana Michigan Power Company.
- b. Any Federal agency that has jurisdiction by law or special expertise with respect to any environmental impact involved, or that is authorized to develop and enforce relevant environmental standards.
- c. Affected State and local government agencies, including those authorized to develop and enforce relevant environmental standards.
- d. Any affected Indian tribe.
- e. Any person who requests or has requested an opportunity to participate in the scoping process.
- f. Any person who has petitioned or intends to petition for leave to intervene.

In accordance with 10 CFR 51.26, the scoping process for an EIS may include a public scoping meeting to help identify significant issues related to a proposed activity and to determine the scope of issues to be addressed in an EIS. The NRC has decided to hold public meetings for the CNP license renewal supplement to the GEIS. The scoping meetings will be held at the Lake Charter Township Hall, 3220 Shawnee Road, Bridgman, Michigan, on Monday, March 8, 2004. There will be two sessions to accommodate interested parties. The first session will convene at 1:30 p.m. and will continue until 4:30 p.m., as necessary. The second session will convene at 7 p.m. with a repeat of the overview portions of the meeting and will continue until 10 p.m., as necessary. Both meetings will be transcribed and will include (1) an overview by the NRC staff of the NEPA environmental review process, the proposed scope of the supplement to the GEIS, and the proposed review schedule; and (2) the opportunity for interested government agencies,

organizations, and individuals to submit comments or suggestions on the environmental issues or the proposed scope of the supplement to the GEIS. Additionally, the NRC staff will host informal discussions one hour before the start of each session at the Lake Charter Township Hall. No formal comments on the proposed scope of the supplement to the GEIS will be accepted during the informal discussions. To be considered, comments must be provided either at the transcribed public meetings or in writing, as discussed below. Persons may register to attend or present oral comments at the meetings on the scope of the NEPA review by contacting Mr. Robert Schaaf, by telephone at 1-800-368-5642, extension 1312, or by Internet to the NRC at CookEIS@nrc.gov no later than March 3, 2004. Members of the public may also register to speak at the meeting within 15 minutes of the start of each session. Individual oral comments may be limited by the time available, depending on the number of persons who register. Members of the public who have not registered may also have an opportunity to speak, if time permits. Public comments will be considered in the scoping process for the supplement to the GEIS. Mr. Schaaf will need to be contacted no later than March 1, 2004, if special equipment or accommodations are needed to attend or present information at the public meeting, so that the NRC staff can determine whether the request can be accommodated.

Members of the public may send written comments on the environmental scope of the CNP license renewal review to the Chief, Rules and Directives Branch, Division of Administrative Services, Office of Administration, Mailstop T-6D59, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and should cite the publication date and page number of this **Federal Register** notice. Comments may also be delivered to the NRC, Room T-6D59, Two White Flint North, 11545 Rockville Pike, Rockville, Maryland, from 7:30 a.m. to 4:15 p.m. during Federal workdays. To be considered in the scoping process, written comments should be postmarked by April 6, 2004. Electronic comments may be sent by the Internet to the NRC at CookEIS@nrc.gov and should be sent no later than April 6, 2004, to be considered in the scoping process. Comments will be available electronically and accessible through ADAMS at <http://www.nrc.gov/reading-rm/adams.html>.

Participation in the scoping process for the supplement to the GEIS does not entitle participants to become parties to the proceeding to which the supplement

to the GEIS relates. Notice of opportunity for a hearing regarding the renewal application was the subject of the aforementioned **Federal Register** notice (68 FR 62640). Matters related to participation in any hearing are outside the scope of matters to be discussed at this public meeting.

At the conclusion of the scoping process, the NRC will prepare a concise summary of the determination and conclusions reached, including the significant issues identified, and will send a copy of the summary to each participant in the scoping process. The summary will also be available for inspection in ADAMS at <http://www.nrc.gov/reading-rm/adams.html>. The staff will then prepare and issue for comment the draft supplement to the GEIS, which will be the subject of separate notices and separate public meetings. Copies will be available for public inspection at the above-mentioned addresses, and one copy per request will be provided free of charge. After receipt and consideration of the comments, the NRC will prepare a final supplement to the GEIS, which will also be available for public inspection.

Information about the proposed action, the supplement to the GEIS, and the scoping process may be obtained from Mr. Schaaf at the aforementioned telephone number or e-mail address.

Dated in Rockville, Maryland, this 29th day of January, 2004.

For the Nuclear Regulatory Commission.

Pao-Tsin Kuo,

Program Director, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, Office of Nuclear Reactor Regulation.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-49156; File No. SR-MBSCC-2001-06]

Self-Regulatory Organizations; MBS Clearing Corporation; Order Granting Approval of a Proposed Rule Change Regarding the Monitoring of MBSCC Participants' Financial Condition and Activities

January 30, 2004.

I. Introduction

On November 27, 2001, MBS Clearing Corporation ("MBSCC")¹ filed with the

¹ On January 1, 2003, MBSCC was merged into the Government Securities Clearing Corporation ("GSCC") and GSCC was renamed the Fixed Income Clearing Corporation. Securities Exchange Act

Securities and Exchange Commission ("Commission") proposed rule change SR-MBSCC-2001-06 pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act").² On December 26, 2001, MBSCC filed an amendment to the proposed rule change. Notice of the proposal was published in the **Federal Register** on March 27, 2002.³ On August 21, 2002,⁴ October 22, 2002,⁵ February 25, 2003,⁶ April 10, 2003,⁷ and October 10, 2003,⁸ MBSCC filed amendments to the proposed rule change.⁹ No comment letters were received. For the reasons discussed below, the Commission is granting approval of the proposed rule change.

II. Description

To strengthen MBSCC's monitoring of participants' financial condition and activities, as well as to conform its rules to its standard practices, MBSCC is amending its rules to (i) add a requirement that registered brokers and dealers submit copies to MBSCC of supplemental reports filed with the Commission pursuant to Rule 17a-11 and that all participants submit to MBSCC copies of any similar types of regulatory notifications and (ii) expand the financial criteria used by MBSCC for

Release No. 47015 (December 17, 2002), 67 FR 78531 (December 24, 2002) (File Nos. SR-GSCC-2002-10 and MBSCC-2002-01).

² 15 U.S.C. 78s(b)(1).

³ Securities Exchange Act Release No. 45604 (March 20, 2002), 67 FR 14755.

⁴ The August 21, 2002, amendment modified the proposed rule change with respect to MBSCC's acceptance of financial statements prepared in accordance with a non-domestic participant's home country generally accepted accounting principles. This portion of the proposed rule change was subsequently withdrawn. See *supra* note 7.

⁵ The October 22, 2002, amendment made it clear that the requirement for participants to submit regulatory notices relating to declines in capital applies to all MBSCC members.

⁶ The proposed rule change as originally filed established a formal surveillance status mechanism. The amendment filed on February 25, 2003, withdrew that portion of the proposed rule change.

⁷ The amendment filed on April 10, 2003, withdrew the portion of the proposed rule change that would have allowed non-domestic participants to submit financial statements prepared in accordance with their home country generally accepted accounting principles.

⁸ In the amendment filed on October 10, 2003, MBSCC corrected the date the proposed rule change was approved by MBSCC's board of directors and changed the person to contact regarding questions and comments about the proposed rule change.

⁹ Republication of the notice is not necessary because the August 21, 2002, amendment made a change to the proposed rule change that was later withdrawn, the February 25, 2003, and April 10, 2003, amendments withdrew portions of the proposed rule change, the October 22, 2003, amendment made a change to clarify a portion of the proposed rule change, and the October 10, 2003, amendment made technical changes to the proposed rule change.
