The nature and objectives of the venture are (1) to conduct research and development activities in the area of small arms weapons systems technology; (2) to enter into a Section 845 "Other Transactions" Agreement (the "OT Agreement") with the US Army (the "Government") for the funding of certain research and development to be conducted, in

partnership with the Government and other NSATC Members, for the US Army National Small Arms Center (NSAC) in the area of small arms weapons systems; (3) to develop, maintain, and execute a flexible multi-year master research plan in the area of small arms weapons systems technology that clearly defines performance goals and maximizes the collective capabilities of Government, industry and academia and focus those capabilities toward attainment of sound technical solutions consistent with these goals; (4) to provide a unified and coordinated message to the US Government's legislative branch and the Department of Defense (DOD) community as to the strategically important role small arms weapons and munitions technologies will play in current and future weapons system development; and (5) to define programs and obtain program funding that is focused on the development, demonstration and transition of key technologies that will result in current weapons system improvements or the fielding of new systems. Production of field worthy products based on the R&D activities of the NSATC or technologies developed by the NSATC is limited to prototypes and, in certain cases, early production. All other production will be done outside the consortium.
