[Docket No. RP04-585-000]

Northern Natural Gas Company; Notice of Limited Waiver

September 14, 2004.

Take notice that on August 31, 2004, Northern Natural Gas Company (Northern) tendered for filing a petition for limited waiver of Northern's FERC Gas Tariff in order to allow FDD shippers to use the imbalance-to-storage option for resolving imbalances during the period of August 25, 2004 through September 30, 2004.

Northern states that the purpose of the storage allocation provision is to prevent shippers from injecting or withdrawing from their FDD or IDD storage accounts when there is insufficient daily storage capacity to accommodate all daily storage nominations. On storage allocation days imbalance-to-storage shippers still have the option to resolve their imbalances using the Monthly Imbalance Trading or Monthly Cash-in/out provisions.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies

of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail *FERCOnlineSupport@ferc.gov*, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Intervention and Protest Date: 5 p.m. eastern standard time September 21, 2004.

OkTex Pipeline Company; Notice of Technical Conference

September 14, 2004.

Take notice that a technical conference will be held on October 5, 2004, from 10 a.m. to 5 p.m. (e.s.t.), in a room to be designated at the offices of the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The purpose of the conference is to address OkTex Pipeline Company's (OkTex) proposal to increase its Fuel Retention Percentage (FRP) for its Midstream System and establish a tracking mechanism to annually adjust its FRP. The Commission ordered staff to convene this technical conference in a September 10, 2004 order¹ directing the parties to meet to discuss the issue, and if possible, to settle this matter.

All interested persons are permitted to attend. For further information please contact: John Robinson at (202) 502-6808 or e-mail *JohnRobinson@ferc.gov*.

[Docket No. CP04-13-002]

Saltville Gas Storage Company L.L.C.; Notice of Application To Amend Certificate

September 14, 2004.

On August 2, 2004, Saltville Gas Storage Company L.L.C. (Saltville) submitted a compliance filing pursuant to the Commission's June 14, 2004 "Order Issuing Certificates" in Docket Nos. CP04-13-000, CP04-14-000, and CP04-15-000. *Saltville Gas Storage Company L.L.C.*, 107 FERC ¶ 61,267 (2004). On August 5, 2004 the Commission issued a "Notice of Compliance Filing" in Docket No. CP04-14-002 taking notice of Saltville's August 2, 2004 submittal of a compliance filing. The notice established August 20, 2004 as the deadline for submitting protests to Saltville's compliance filing.

An application to amend the certificate of public convenience and necessity issued in Docket No. CP04-13-000 was also included in Saltville's August 2, 2004 compliance filing. The August 5, 2004 notice did not address the amendment application. Accordingly, Saltville's amendment application is the subject of the instant notice.

Specifically, Saltville's August 2, 2004 compliance filing contains rates designed on the *Equitable* method as required in the June 14, 2004 Order, as well as rates based on an alternately proposed rate design method. The filing also reflects a lowering of the originally proposed capacity of Saltville's salt storage caverns. Therefore, the Commission is considering Saltville's compliance filing to be, in part, a request in Docket No. CP04-13-002 to amend the certificate of public convenience and necessity issued in Docket No. CP04-13-000. The filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at *FERCOnlineSupport@ferc.gov* or call toll free at (866)208-3676, or for TTY contact (202) 502-8659.

Any person who filed a motion to intervene in response to Saltville's applications filed on November 10, 2003 does not need to refile a motion to intervene in response to this request for

an amendment, but may file additional comments by the comment date below. Otherwise there are two ways to become involved in the Commission's review of the amendment in Docket No. CP04-13-002. First, any person who is not already a party to these proceedings wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date indicated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene to have comments considered. The second way to participate is by filing with the Secretary of the Commission by the date indicated below an original and two copies of their comments in support of or in opposition to this amendment. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the amendment provide copies of their protests only to the applicant and any party directly involved in the protest. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests, and interventions via the Internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site (<http://www.ferc.gov>) under the "e-Filing" link.

Comment Date: September 21, 2004.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

Duke Power, A Division of Duke Energy Corporation, South Carolina; Project No. 2503-080; Notice of Availability of Environmental Assessment

September 13, 2004.

In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Energy Regulatory Commission's (Commission) regulations (18 CFR Part 380), the Commission's staff have reviewed an application for non-project use of project lands and waters at the Keowee-Jocassee Hydroelectric Project (FERC No. 2503) and have prepared an Environmental Assessment (EA) on the application. The project consists of two reservoirs, Lake Jocassee and Lake Keowee. The proposed site for non-project use is in Oconee County, South Carolina, located on Lake Keowee. Lake Keowee is located on the Keowee River.

Specifically, the project licensee (Duke Power) has requested Commission approval to permit Keowee Town Houses, LLC, to construct and operate a commercial/residential marina on Lake Keowee. The marina will include 10 cluster docks with a total of 56 boat slips, and will be used privately by the residents of The Towne Homes at Keowee subdivision. In the EA, Commission staff analyzed probable environmental effects of the proposed marina improvements and have concluded that approval of the proposal, with appropriate environmental measures, would not constitute a major Federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Approving Non-project Use of Project Lands and Waters," which was issued August 25, 2004 and is available for review in Public Reference Room 2-A of the Commission's offices at 888 First Street, NE., Washington, DC. The EA also may be viewed on the Commission's Web site <http://www.ferc.gov> using the "e-library" link.
