SUPPLEMENTARY INFORMATION: The information collected under the requirements of FERC Form No. -538 "Gas Pipeline Certificates: Initial Service (OMB No. 1902-0061) is used by the Commission to implement the statutory provisions of sections 7(a), 10(a), and 16 of the Natural Gas Act

(NGA) (Pub. L. 75-688) (15 U.S.C. 717-717w). The reporting requirements contained in this collection of information are used by the Commission to determine whether a distributor applicant can economically construct and manage its facilities. Requests are made to the Commission by individuals or entities to have the Commission, by order, direct a natural gas pipeline to extend or improve its transportation facilities, and sell gas to an individual, entity or municipality for the specific purpose indicated in the order, and to extend the pipeline's transportation facilities to communities immediately adjacent to the municipality's facilities or to territories served by the natural gas company. In addition, the Commission reviews the supply data to determine if the pipeline company can provide the service without curtailing certain of its existing customers. The flow data and market data are also used to evaluate existing and future customer requirements on the system to find if sufficient capacity will be available. Likewise, the cost of facilities and the rate data are used to evaluate the financial impact of the cost of the project to both the pipeline company and its customers. The Commission implements these filing requirements in the Code of Federal Regulations (CFR) under 18 CFR part 156.

Action: The Commission is requesting a three-year extension of the current expiration date, with no changes to the existing collection of data.

Burden Statement: Public reporting burden for this collection is estimated as:

Number of respondents annually (1)	Number of responses per respondent (2)	Average burden hours per response (3)	Total annual burden hours (1)x(2)x(3)
1	1	240	240

The estimated total cost to respondents is \$12,368 (240 hours divided by 2,080 hours per employee per year times \$107,185 per year average salary (including overhead) per employee = \$12,368 (rounded off)).

The reporting burden includes the total time, effort, or financial resources expended to generate, maintain, retain, disclose, or provide the information including: (1) Reviewing instructions; (2) developing, acquiring, installing, and utilizing technology and systems for the purposes of collecting, validating, verifying, processing, maintaining, disclosing and providing information; (3) adjusting the existing ways to

comply with any previously applicable instructions and requirements; (4) training personnel to respond to a collection of information; (5) searching data sources; (6) completing and reviewing the collection of information; and (7) transmitting, or otherwise disclosing the information.

The estimate of cost for respondents is based upon salaries for professional and clerical support, as well as direct and indirect overhead costs. Direct costs include all costs directly attributable to providing this information, such as administrative costs and the cost for information technology. Indirect or overhead costs are costs incurred by an

organization in support of its mission. These costs apply to activities which benefit the whole organization rather than any one particular function or activity.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be

collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Acting Secretary.
