BILLING CODE 9110-12-P

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-P-7923]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency (FEMA), Department of Homeland Security, Mitigation Division.

ACTION: Proposed rule.

SUMMARY: Technical information or comments are requested on the proposed Base (1% annual chance) Flood Elevations (BFEs) and proposed BFEs modifications for the communities listed below. The BFEs are the basis for the floodplain management measures that the community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: The comment period is ninety (90) days following the second publication of this proposed rule in a newspaper of local circulation in each community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT:

William R. Blanton, Jr., Engineering Management Section, Mitigation Division, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: FEMA proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with Section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State or regional entities. These proposed elevations are used to meet the floodplain management

requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR Part 10, Environmental Consideration. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of Section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, flood insurance, reporting and recordkeeping requirements.

Accordingly, 44 CFR Part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for Part 67 continues to read as follows:

Authority: 42 U.S.C. 4001 *et seq.*; Reorganization Plan No. 3 of 1978, 3 CFR, 1978 Comp., p. 329; E.O. 12127, 44 FR 19367, 3 CFR, 1979 Comp., p. 376.

§ 67.4 [Amended]

2. The tables published under the authority of § 67.4 are proposed to be amended as follows:

Flooding source(s)	Location of referenced elevation	*Elevation in feet (NGVD) +Elevation in feet (NAVD) #Depth in feet above ground		Communities affected
		Effective	Modified	
Fairfield County, Ohio and Incorporated Areas				
Blacklick Creek	Just upstream of Tussing Road	*827	*826	Fairfield County (Unincorporated Areas).
	Approximately 190 feet Downstream of U.S. Interstate 70 Eastbound.	*829	*828	
Georges Creek	Approximately 350 feet downstream of Long Road	*793	*791	City of Pickerington.
	Approximately 150 feet upstream of Pickerington Ridge Drive.	None	*816	
Georges Creek Overflow	Approximately 2,690 feet downstream of the divergence from Georges Creek.	None	*800	City of Pickerington.
	At the divergence from Georges Creek	None	*807	

* National Geodetic Vertical Datum.
Depth in feet above ground.
+ North American Vertical Datum.

ADDRESSES

RIN 0648-AU84

Atlantic Highly Migratory Species; Atlantic Commercial Shark Management Measures

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Proposed rule; extension of comment period.

SUMMARY: This action extends the comment period for 12 days on an October 5, 2006, proposed rule regarding the first 2007 fishing season for Atlantic sharks. Due to late dealer reports that may substantially change landings estimates of large and small coastal sharks during the first trimester of 2006 for the Gulf of Mexico, NMFS is extending the comment deadline on

that proposed rule from November 1, 2006, until November 13, 2006.

DATES: The deadline for written comments on the October 5, 2006 (71 FR 58778) proposed rule has been extended from November 1 to no later than 5 p.m. on November 13, 2006.

ADDRESSES: Written comments on the proposed rule may be submitted to Michael Clark, Highly Migratory Species Management Division via:

- Email: SF1.091106B@noaa.gov.

- Mail: 1315 East-West Highway,

Silver Spring, MD 20910. Please mark on the outside of the envelope "Comments on Proposed Rule for 2007 1st Trimester Season Lengths and Quotas."

- Fax: 301-713-1917.

- Federal e-Rulemaking Portal: <http://www.regulations.gov>. Include in the

subject line the following identifier: "I.D. 091106B".

Copies of the associated draft Environmental Assessment (EA) and other relevant documents are available on the Highly Migratory Species Management Division's website at www.nmfs.noaa.gov/sfa/hms or by contacting Michael Clark (see **FOR FURTHER INFORMATION CONTACT**).

FOR FURTHER INFORMATION CONTACT: Michael Clark or Karyl Brewster-Geisz by phone: 301-713-2347 or by fax: 301-713-1917.

SUPPLEMENTARY INFORMATION: The Atlantic shark fishery is managed under the authority of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act). NMFS recently finalized a Consolidated Highly

Migratory Species Fishery Management Plan (HMS FMP) that consolidated and replaced previous FMPs for Atlantic Billfish and Atlantic Tunas, Swordfish, and Sharks (October 2, 2006; 71 FR 58058). The HMS FMP is implemented by regulations at 50 CFR part 635.

On October 5, 2006 (71 FR 58778), NMFS published a proposed rule that requested comments on the draft EA and scheduled three public hearings throughout October 2006 to receive comments from fishery participants and other members of the public regarding the first 2007 fishing season for Atlantic sharks. Based on late dealer reports that may substantially change landings estimates of large and small coastal sharks in the Gulf of Mexico during the first trimester of 2006, NMFS is extending the comment period on this proposed rule. NMFS is still updating the landings estimates and will release them in a future **Federal Register** notice. At this time, NMFS does not expect the landings estimates or the proposed measures to change substantially in the South Atlantic or North Atlantic regions. In order to incorporate these updated landings and to provide adequate opportunities for public comment by constituents, NMFS is extending the public comment period on the proposed rule and draft EA to 5 p.m., November 13, 2006.
