

The values of the properties to be exchanged were established by appraisals of fair market value. Since the appraised value of the 236-acre parcel exceeds the appraised value of the 0.32-acre parcel, TCF will donate the difference in value to the United States.

(2) Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

(1) *Type of Information Collection:* Extension of a currently approved collection.

(2) *Title of the Form/Collection:* Semi-Annual Progress Report for Grantees of the Legal Assistance for Victims Grant Program.

(3) *Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection:* Form Number: 1122-0007. U.S. Department of Justice, Office on Violence Against Women.

(4) *Affected public who will be asked or required to respond, as well as a brief abstract:* The affected public includes

the approximately 200 grantees of the Legal Assistance for Victims Grant Program (LAV Program) whose eligibility is determined by statute. In 1998, Congress appropriated funding to provide civil legal assistance to domestic violence victims through a set-aside under the Grants to Combat Violence Against Women, Public Law 105-277. In the Violence Against Women Act of 2000 and again in 2005, Congress statutorily authorized the LAV Program. 42 U.S.C. 3796gg-6. The LAV Program is intended to increase the availability of legal assistance necessary to provide effective aid to victims of domestic violence, stalking, or sexual assault who are seeking relief in legal matters arising as a consequence of that abuse or violence. The LAV Program awards grants to law school legal clinics, legal aid or legal services programs, domestic violence victims' shelters, bar associations, sexual assault programs, private nonprofit entities, and Indian tribal governments. These grants are for providing direct legal services to victims of domestic violence, sexual assault, and stalking in matters arising from the abuse or violence and for providing enhanced training for lawyers representing these victims. The goal of the Program is to develop innovative, collaborative projects that provide quality representation to victims of domestic violence, sexual assault, and stalking.

(5) An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply: It is estimated that it will take the approximately 200 respondents (LAV Program grantees) approximately one hour to complete a semi-annual progress report. The semi-annual progress report is divided into sections that pertain to the different types of activities that grantees may engage in and the different types of grantees that receive funds. An LAV Program grantee will only be required to complete the sections of the form that pertain to its own specific activities.

(6) An estimate of the total public burden (in hours) associated with the collection: The total annual hour burden to complete the data collection forms is 400 hours, that is 200 grantees completing a form twice a year with an estimated completion time for the form being one hour.

SUPPLEMENTARY INFORMATION:

I. Background

On August 9, 2004, President George W. Bush signed into law the SUTA Dumping Prevention Act of 2004 (Act), which amended Federal unemployment

compensation law by adding section 303(k) to the Social Security Act (SSA). This Act established a minimum standard nationwide for curbing an unemployment compensation tax rate manipulation scheme known as SUTA Dumping. In addition, the Act required the Secretary of Labor (Secretary) to conduct a study of the states' implementation of the provisions of section 303(k) of the SSA, and to submit to the Congress a report on the findings of this study no later than July 15, 2007. Specifically, the law states:

- (1) **STUDY**—The Secretary of Labor shall conduct a study of the implementation of the provisions of section 303(k) of the Social Security Act (as added by subsection (a)) to assess the status and appropriateness of State actions to meet the requirements of such provisions.
- (2) **REPORT**—Not later than July 15, 2007, the Secretary of Labor shall submit to the Congress a report that contains the findings of the study required by paragraph (1) and recommendations for any Congressional action that the Secretary considers necessary to improve the effectiveness of section 303(k) of the Social Security Act.

In order to comply with these provisions, the U.S. Department of Labor, Employment and Training Administration contracted with Coffey Communications, LLC, in collaboration with its subcontractor, the Urban Institute, to conduct the required study. In addition, an element was added to the study requiring that it look into the impact the Act had, if any, on state practice in regard to the Professional Employer Organization (PEO) industry and what impact, if any, the Act had on PEOs.

The goals of the study are to:

- Identify state legislation, policy and procedures intended to mitigate the practice of SUTA dumping;
- Measure the use and effectiveness of state penalties intended to curb SUTA dumping;
- Analyze state law transfer of experience provisions regarding the entry of a client into a PEO relationship and the financial impact of such treatment both on the state UI trust funds and on the PEO industry;
- Compile resultant data and information necessary to allow the Secretary of Labor to report to Congress no later than July 15, 2007, on the effectiveness of section 303(k) of the SSA.

The proposed survey represents the main instrument for collecting state data and experience on the states' implementation of section 303(k) of the SSA.

II. Review Focus

The Department of Labor is particularly interested in comments which:

- evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- enhance the quality, utility, and clarity of the information to be collected; and
- minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. Current Actions

The proposed survey will provide useful, policy relevant data and information required by the Administration, DOL, ETA, and state administrators to make appropriate decisions and judgments regarding the states' implementation of section 303(k) of the SSA. The information, gathered through this survey from all 50 states, the District of Columbia, the Virgin Islands, and Puerto Rico will provide the Secretary of Labor with the necessary information needed to file the required July 15, 2007, report to Congress. In addition, the knowledge gained regarding states' policy on the transfer of experience between client companies and PEO companies as they enter or leave a contractual relationship should prove beneficial in any future state and/or ETA discussions and legislative proposals regarding the PEO industry. ETA will also be able to use this information to determine what future SUTA dumping training, if any, must be provided to personnel within the State Workforce Agencies.

Title: Evaluation of State Implementation of section 303(k) of the Social Security Act, SUTA Study Implementation Survey.
