

trail tread does not hold up well to excessive use resulting in un-natural erosion. At the trailheads and along the first three to five miles into the backcountry and designated Wilderness, trail crowding from multiple users including commercial horse and hiking tours is diminishing the experience of solitude in Wilderness. The mixed use also leads to conflicts and off-trail damage as hikers seek to move away from dust, manure, and smell of horses. Current permits allow for limited sizes of groups but do not regulate numbers of trips per day or per week.

Presently commercial use activities in the Kipahulu area includes guided and unguided hikes along the park's existing visitor trails and horse tour guided trips on a separate trail designated for horses only. Commercial tours typically leave from the same pick-up points and arrive at generally the same time at Kipahulu; this combined with tour vans and buses of various sizes crowd into the parking area causing traffic congestion and crowded hiking (which in turn prompts trampling of vegetation and unsafe off-trail use). Visitor injuries and deaths have occurred in these stream areas and the park discourages visitors from entering these pools and narrow areas.

Privately guided hiking activities in the Kipahulu area may also be contributing to formation of social (unauthorized) trails that follow the stream corridor and lead to upstream pools. All park visitors and service providers should be using NPS authorized and maintained trail to minimize resource; the deep trail substrate combined with very high average rainfall causes erosion, deep trenching, and very slippery and dangerous conditions.

Scoping Process: At this time, the NPS invites the public, other Federal agencies, Native Hawaiian groups, state and local governments, and all other interested parties to participate in the initial scoping and in the alternative development process. For initial scoping and alternatives development, the most useful comments are those that provide the NPS with assistance in identifying environmental issues, suitable range of alternatives, and other concerns that should be considered early in the commercial services and environmental planning process for these projects. At this time it has not been determined if an Environmental Assessment or an Environmental Impact Statement will be prepared. Although it is anticipated that an Environmental Assessment will be the appropriate level of environmental compliance, this scoping process will aid in the preparation of either document (and

responses during this scoping period will be helpful in making this determination).

All respondents to this Notice will be included in a mailing list to be used to invite review and comment on the subsequent environmental document. The public scoping period for the commercial services plan has been initiated—all written comments must be postmarked or transmitted not later than 60 days from the date of publication of this Notice (as soon as this date can be confirmed it will be announced on the park's Web site). Interested individuals, organizations, and agencies wishing to provide written comments may respond by regular mail to Commercial Services Plan, c/o Superintendent, Haleakala National Park, P.O. Box 369, Makawao, Maui, HI 96768 (or via e-mail c/o HALE_CSP@nps.gov).

Our practice is to make comments, including names, home addresses, home phone numbers, and e-mail addresses of respondents, available for public review. Individual respondents may request that we withhold their names and/or home addresses, etc., but if you wish us to consider withholding this information you must state this prominently at the beginning of your comments. In addition, you must present a rationale for withholding this information. This rationale must demonstrate that disclosure would constitute a clearly unwarranted invasion of privacy. Unsupported assertions will not meet this burden. In the absence of exceptional, documentable circumstances, this information will be released. We will always make submissions from organizations or businesses, and from individuals identifying themselves as representatives of or officials of organizations or businesses, available for public inspection in their entirety.

Public Meetings: The NPS will also conduct a public scoping meeting and open house to provide information about this project, to discuss issues and concerns informally with NPS representatives and to receive written comments. These scoping activities will be conducted on October 17 and 18, 2006. The October 17th meeting will be at 6 p.m. at Helene Hall in Hana. The October 18th meeting will be at 6 p.m. at the Mayor Hanibal Tavares Community Center in Pukulani.

Future Information and Decision Process: Future information about this conservation planning and environmental impact analysis process for the proposed commercial services plan will be distributed via direct mailings and announcements in regional and local news media, and

updates will be regularly posted on the park's Web site (<http://www.nps.gov/hale>). Availability of the forthcoming environmental document for review and written comment will be announced by local and regional news media, the above listed Web site, direct mailing (or in the case of an EIS, also by formal Notice of Availability of a Draft EIS published in the **Federal Register**). At this time the document is anticipated to be available for public review and comment in late summer, 2007. Comments on the document will be fully considered in the environmental decision-making process and responded to as appropriate. The official responsible for the decision is the Regional Director, Pacific West Region, National Park Service; subsequently the official responsible for implementation would be the Superintendent, Haleakala National Park.

Dated: August 31, 2006.

Patricia L. Neubacher,

Acting Regional Director, Pacific West Region.

BILLING CODE 4312-50-M

INTERNATIONAL TRADE COMMISSION

Notification of Distribution of Administrative Protective Order Documents in Electronic Format

AGENCY: U.S. International Trade Commission.

ACTION: Notification of Distribution of Administrative Protective Order Documents in Electronic Format via CD or DVD.

EFFECTIVE DATE: January 9, 2007.

SUMMARY: The U.S. International Trade Commission (ITC, or Commission) has determined that, beginning January 9, 2007, it will distribute Administrative Protective Order (APO) Release documents in electronic format on either a compact disc (CD) or digital versatile disc (DVD) to parties on the APO service list for Title VII and Safeguard investigations. Parties requiring paper copies will be accommodated based on receipt of a request made to the Secretary to the Commission. The request may be made at the time the party files its application for disclosure of business proprietary information (BPI) or confidential business information (CBI) under APO. It may also be made subsequent to filing of the application at which point it will be accommodated within three (3) business days of receipt of the request.

Each CD/DVD will include APO Release documents in PDF format. In addition, it will include an ASCII text file with a table of contents listing all document files included on the CD/DVD, as well as the investigation number and phase of the investigation for which the documents were submitted. Each CD/DVD will be color coded and clearly marked as containing BPI or CBI. It will also be labeled with the investigation number, phase of the investigation, and date of release. Multiple CDs or DVDs will be used when the cumulative size of all document files exceeds the amount of space available on an individual CD or DVD.

The ITC is instituting this practice as a means of addressing several cost and resource issues with paper distribution, including increasing paper costs, greater storage and handling requirements, and higher postal costs for mailing the documents. In addition, feedback from the Service List community also indicated a preference for receiving APO Release documents in electronic form via CD/DVD.

All obligations imposed on recipients of APO releases by Commission rules and APOs continue in force with respect to the releases made on CD and DVD.

ADDRESSES: Correspondence on this matter should be directed to Marilyn R. Abbott, Secretary to the Commission, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436.

FOR FURTHER INFORMATION CONTACT: Technical questions or comments regarding this change may be directed to Joel Moeller, E-Business Division Manager, Office of Information Technology Services, U.S. International Trade Commission, 500 E Street, SW., Washington, DC 20436 (telephone 202-205-2220; e-mail joel.moeller@usitc.gov). Hearing-impaired individuals are advised that information on this matter can be obtained by contacting our TTD terminal at 202-205-1810. General information concerning the Commission may also be obtained by accessing its Internet server (<http://www.usitc.gov>).

By order of the Commission.

Issued: November 27, 2006.

Marilyn R. Abbott,

Secretary to the Commission.

BILLING CODE 7020-02-P

DEPARTMENT OF LABOR

Office of the Secretary

Combating Exploitive Child Labor Trough Education in Angola

AGENCY: Bureau of International Labor Affairs, U.S. Department of Labor

Announcement Type: New. Notice of Availability of Funds and Intent for Solicitation of Limited Competition for Cooperative Agreement Applications.

SUMMARY: The U.S. Department of Labor (USDOL), Bureau of International Labor Affairs (ILAB), intends to obligate up to approximately U.S. \$3.5 million through a Cooperative Agreement to organization(s) to improve access to and quality of education programs as a means to combat exploitive child labor in Angola. The project(s) funded under this award should address gaps and challenges to basic education found in Angola.

ILAB intends to solicit cooperative agreement applications through a limited competition of organizations qualified to implement a project that focuses on innovative ways to provide educational services to children engaged, or at risk of engaging, in exploitive labor in Angola. Qualified organizations include any commercial, international, educational, or non-profit organization that is capable of successfully developing and implementing education projects in Angola and that meets the following criteria—qualified organizations must have (1) an established presence in Angola (i.e., one or more offices and employees) and be legally recognized and permitted to operate by the Government of Angola, and (2) direct and current experience implementing technical cooperation programs for children-in-need in Angola that aim to combat exploitive child labor and/or promote educational and training opportunities for children-in-need who are under the age of 18 years. Among the organizations deemed eligible based on this criteria are the Christian Children's Fund, Save the Children—UK, and World Vision.

Other organizations wishing to be considered under this limited competition must submit to USDOL, at the contact address provided below and within 10 working days of this announcement, a formal request for funding consideration, providing verifiable evidence that the aforementioned criteria are met. Such requests will be evaluated by USDOL, which will add any additional organizations found eligible to the list of

those organizations to be considered under this limited competition.

This limited competition involves the re-granting of funds remaining from SGA 05-05 for "Combating Exploitive Child Labor through Education in Angola," published in the **Federal Register** on May 27, 2005. Please refer to <http://www.dol.gov/ILAB/grants/main.htm> for examples of previous notices of availability of funds and solicitations for cooperative agreement applications. Further information on the specific sectors, geographical regions, and funding levels for the potential project(s) in Angola, as well as the selection criteria to be used, will be addressed in the solicitation for cooperative agreement applications that will be made available to those organizations found to be eligible for consideration under the limited competition. For a list of frequently asked questions on Child Labor Education Initiative Solicitations for Cooperative Agreement Applications, please visit <http://www.dol.gov/ILAB/faq/faq36.htm>.

Key Dates: Organizations—other than those specifically referenced by name in this Notice of Intent—wishing to be considered under this limited competition must submit to USDOL, at the contact address provided below, a formal request within 10 working days of the date of this announcement.

A specific solicitation for cooperative agreement applications will be provided to those organizations deemed eligible for the limited competition within 20 working days of this announcement. The solicitation will remain open for at least 30 calendar days.

To Request Consideration Under This Limited Competition or For Further Information Contact: Ms. Lisa Harvey. E-mail address: harvey.lisa@dol.gov. All formal requests for consideration and other inquiries should make reference to the USDOL Child Labor Education Initiative—Solicitations for Cooperative Agreement Applications.

Background Information: Since 1995, USDOL has supported a worldwide technical assistance program implemented by the International Labor Organization's International Program on the Elimination of Child Labor (ILO-IPEC). ILAB has also supported the efforts of other organizations involved in efforts to combat child labor internationally through the promotion of educational opportunities for children-in-need. In total, ILAB has provided over U.S. \$530 million to ILO-IPEC and other organizations for international technical assistance to combat abusive child labor around the world.
