II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, NASD included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. NASD has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Pursuant to Section 31 of the Act,⁴ NASD and the national securities exchanges are required to pay transaction fees and assessments to the Commission that are designed to recover the costs related to the government's supervision and regulation of the securities markets and securities professionals. NASD obtains funds to pay its Section 31 fees and assessments from its membership, in accordance

with Section 3. Currently, most of the transactions that are assessable under Section 3 are reported to NASD through automated facilities, because most transactions must be reported to NMC or TRACS pursuant to NASD trade reporting rules. NASD is able to use the transaction data reported to NMC and TRACS for Section 3 billing purposes. Member firms, however, are currently required to manually self-report covered sales of odd-lots, away from the market sales, and exercises of OTC options because these transactions are not otherwise required to be reported to NMC or TRACS.

To improve NASD's programs related to compliance with Section 31 of the Act and Rule 31 thereunder,⁵ NASD is proposing to require NASD member firms to report all covered sales that must be reported to NASD and that are assessed under Section 3 in an automated manner. While the current manual self-reporting process has allowed NASD to meet its obligations under Section 31 of the Act, there have been instances when some members filed their self-reporting form late or amended previous forms in later months to include additional covered sales volume. NASD believes that requiring automated reporting of such covered sales would facilitate efficient, accurate, and timely reporting. Automated reporting would also reduce the burden on members that results from manually reporting certain transactions to NASD. In addition, the mandatory reporting of odd-lots and other transactions would enhance the regulatory audit trail while not providing distortive information to the publicly disseminated tape.

To fully automate NASD's procedures for assessing the regulatory transaction fee, NASD is proposing to amend: (1) Section 3 to create an affirmative obligation to report, in an automated manner, all covered sales that must be reported to NASD for purposes of Section 3; (2) NASD Rules 6130 and 6130A to require that members report all transactions reportable to NASD and subject to the regulatory transaction fee pursuant to Section 3 to NMC or TRACS and to identify certain transactions submitted specifically for a regulatory transaction fee assessment with a special indicator denoting their purpose;⁶ and (3) NASD Rules 4632,

⁵ 17 CFR 240.31.

⁶ NASD proposes to use the following modifiers for purposes of reporting to the NMC or TRACS certain transaction that are subject to the regulatory transaction fee under Section 3: (1) .RO to designate odd-lot transactions; (2) .RA to designate transactions where the buyer and seller have agreed to trade at a price substantially unrelated to the current market for the security; and (3) .RX to

⁴ 15 U.S.C. 78ee.

4642, 4632A, 6420, and 6620 governing trade reporting that currently prohibit member firms from reporting odd-lot transactions, away from the market sales, and OTC options, as well as other identified transactions, to clarify that the prohibition found in the transaction reporting rules is limited to the submission of a transaction for publication purposes.⁷

NASD will announce the effective date of the proposed rule change in a *Notice to Members* to be published no later than 60 days following Commission approval, if the Commission approves this proposal. The effective date would be at least 90 days following publication of the *Notice to Members* announcing Commission approval to allow firms sufficient time to make any necessary systems changes.

2. Statutory Basis

NASD believes that the proposed rule change is consistent with the provisions of Section 15A(b)(6) of the Act,⁸ which requires, among other things, that NASD rules be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest. NASD believes that requiring members to report, in an automated manner, all transactions that must be reported to NASD and are subject to the regulatory transaction fee would ensure more accurate and timely reporting of such transactions and would reduce the burden on members that results from manually reporting certain transactions.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASD does not believe that the proposed rule change would result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

Written comments were neither solicited nor received.

designate transactions effected pursuant to the exercise of an OTC option.

⁷ The proposed amendments to NASD Rules 4632A and 6420 solely amend the headings of NASD Rules 4632A(k) and 6420(e), respectively. The text of these rules does not need to be amended because it already stated that the prohibition on reporting the identified transactions is limited to the submission of a transaction for publication purposes (or in the case of listed securities, for inclusion on the Consolidated Tape).

⁸ 15 U.S.C. 78o-3(b)(6).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 35 days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to 90 days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- A. By order approve such proposed rule change; or
- B. Institute proceedings to determine whether the proposed rule change should be disapproved.
