

1. *Be market-based and results driven.* An EDA investment will capitalize on a region's competitive strengths and will positively move a regional economic indicator measured on EDA's Balanced Scorecard, such as: An increased number of higher-skill, higher-wage jobs; increased tax revenue; or increased private sector investment.

2. *Have strong organizational leadership.* An EDA investment will have strong leadership, relevant project management experience, and a significant commitment of human resources talent to ensure a project's successful execution.

3. *Advance productivity, innovation, and entrepreneurship.* An EDA investment will embrace the principles of entrepreneurship, enhance regional clusters, and leverage and link technology innovators and local universities to the private sector to create the conditions for greater productivity, innovation, and job creation.

4. *Look beyond the immediate economic horizon, anticipate economic changes, and diversify the local and regional economy.* An EDA investment will be part of an overarching, long-term comprehensive economic development strategy that enhances a region's success in achieving a rising standard of living by supporting existing industry clusters, developing emerging new clusters, or attracting new regional economic drivers.

5. *Demonstrate a high degree of local commitment by exhibiting:*

- High levels of local government or non-profit matching funds and private sector leverage;
- Clear and unified leadership and support by local elected officials; and
- Strong cooperation between the business sector, relevant regional partners and local, State and Federal governments.

#### Funding Priorities

Successful applications for EDA's investment programs will be regionally-driven initiatives in areas of the Nation that are underperforming and eligible for EDA programs that meet one or more of the following core criteria (investment proposals that meet more than one core criterion will be given more favorable consideration):

1. *Investments in support of long-term, coordinated and collaborative regional economic development approaches:*

- Establish comprehensive regional economic development strategies that identify promising opportunities for long-term economic growth.

• Exhibit demonstrable, committed multi-jurisdictional support from leaders across all sectors:

- i. Public (*e.g.*, mayors, city councils, county executives, senior state leadership);
  - ii. Institutional (*e.g.*, institutions of higher learning);
  - iii. Non-profit (*e.g.*, chambers of commerce, development organizations); and
  - iv. Private (*e.g.*, leading regional businesses, significant regional industry associations).
- Generate quantifiable positive economic outcomes.

2. *Investments that support innovation and competitiveness:*

- Develop and enhance the functioning and competitiveness of leading and emerging industry clusters in an economic region.
- Advance technology transfer from research institutions to the commercial marketplace.
- Bolster critical infrastructure (*e.g.*, transportation, communications, specialized training) to prepare economic regions to compete in the world-wide marketplace.

3. *Investments that encourage entrepreneurship:*

- Cultivate a favorable entrepreneurial environment consistent with regional strategies.
- Enable economic regions to identify innovative opportunities among growth-oriented small and medium-size enterprises.
- Promote community and faith-based entrepreneurship programs aimed at improving economic performance in an economic region.

Additional consideration will be given to investment proposals which also accomplish the following:

- Respond to sudden and severe economic dislocations (*e.g.*, major layoffs and/or plant closures, disasters).
- Enable BRAC-impacted communities to transition from a military to civilian economy.
- Advance the goals of linking historic preservation and economic development as outlined by Executive Order 13287, "Preserve America."

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

Sponsored by NIST, the Manufacturing Extension Partnership (MEP) is a national network of locally based manufacturing extension centers working with small manufacturers to help them improve their productivity, improve profitability and enhance their economic competitiveness.

The information is collected to provide the Manufacturing Extension Partnership (MEP) with information regarding MEP Center performance in the delivery of technology, and business solutions to U.S.-based manufacturers. The information obtained will assist in determining the performance of the MEP Centers at both a local and national level, as well as, the impact on the national economy. Responses to the collection of information are mandatory per the regulations governing the operation of the MEP Program (15 CFR parts 290, 291, 292, and H.R. 1274—section 2). No confidentiality for information submitted is promised or provided.

This collection under the Paperwork Reduction Act received prior Office of Management and Budget clearance in May 2003, and this clearance expires on May 31, 2006.

**II. Method of Collection**

Web forms will be used to collect and analyze a wide range of information from the MEP centers, which includes customer satisfaction, center activities, center staff, quarterly expenses and revenues, partners and affiliates strategic plan, operating plans, and client success stories.

**III. Data**

*OMB Number:* 0693-0032.

**Proposed Information Collection; Comment Request; Vessel Monitoring Program for the Pacific Coast Groundfish Fishery**

**AGENCY:** National Oceanic and Atmospheric Administration (NOAA).

**ACTION:** Notice.

**SUMMARY:** The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

**SUPPLEMENTARY INFORMATION:**

**I. Abstract**

NOAA has established large-scale depth-based management areas, referred to as Groundfish Conservation Areas (GCAs), where groundfish fishing is prohibited or restricted. These areas were specifically designed to reduce the catch of species while allowing healthy fisheries to continue in areas and with gears where little incidental catch of overfished species is likely to occur. Because NOAA needs methods to effectively enforce area restrictions, certain commercial fishing vessels are required to install and use a vessel monitoring system (VMS) that automatically send hourly position reports. Exemptions from the reporting requirement are available for inactive vessels or vessels fishing outside the monitored area. The vessels are also required to declare what gear will be used.

To ensure the integrity of the GCAs and Rockfish Conservation Areas, a pilot VMS program was implemented on January 1, 2004. The pilot program required vessels registered to Pacific Coast groundfish fishery limited entry permits to carry and use VMS transceiver units while fishing off the coasts of Washington, Oregon and California. The VMS program coverage is being expanded on January 1, 2007, to include all open access fisheries in addition to the limited entry fisheries.

A separate notice will be published regarding the proposed rule RIN 0648-AU08.
