**Change in Bank Control Notices;  
Acquisition of Shares of Bank or Bank  
Holding Companies**

The notification listed below have  
applied under the Change in Bank  
Control Act (12 U.S.C. 1817(j)) and  
§ 225.41 of the Board's Regulation Y (12  
CFR 225.41) to acquire a bank or bank  
holding company. The factors that are  
considered in acting on the notices are  
set forth in paragraph 7 of the Act (12  
U.S.C. 1817(j)(7)).

The notices are available for  
immediate inspection at the Federal  
Reserve Bank indicated. The notices  
also will be available for inspection at  
the office of the Board of Governors.  
Interested persons may express their  
views in writing to the Reserve Bank

indicated for that notice or to the offices  
of the Board of Governors. Comments  
must be received not later than  
September 29, 2006.

**A. Federal Reserve Bank of Kansas  
City** (Donna J. Ward, Assistant Vice  
President) 925 Grand Avenue, Kansas  
City, Missouri 64198-0001:

1. *Steve Burrage*, Antlers, Oklahoma;  
as co-trustee of the John L. Massey 2003  
Family Trusts, to acquire voting shares  
of Durant Bancorp, Inc., and thereby  
indirectly acquire voting shares of First  
United Bank & Trust Company, both in  
Durant, Oklahoma.

Board of Governors of the Federal Reserve  
System, September 11, 2006.

**Robert deV. Frierson,**

*Deputy Secretary of the Board.*

**DEPARTMENT OF HEALTH AND  
HUMAN SERVICES**

**Office of the National Coordinator for  
Health Information Technology;  
American Health Information  
Community Confidentiality, Privacy,  
and Security Workgroup Meeting**

**ACTION:** Announcement of meeting.

**SUMMARY:** This notice announces the  
second meeting of the American Health  
Information Community ("the  
Community") Confidentiality, Privacy,  
and Security Workgroup in accordance  
with the Federal Advisory Committee  
Act (Pub. L. No. 92-463, 5 U.S.C., App.)  
**DATES:** September 29, 2006 from 10 a.m.  
to 4:30 p.m.

*Place:* Hubert H. Humphrey Building  
(200 Independence Avenue, SW.,  
Washington, DC 20201), Conference  
room 800 (you will need a photo ID to  
enter a Federal building).

*Status:* Open.

*Purpose:* At this meeting, the  
Community Confidentiality, Privacy,  
and Security Workgroup will receive  
information on identity proofing and  
user authentication as it relates to the  
breakthroughs currently being discussed  
by the Community's Consumer  
Empowerment, Chronic Care, and  
Electronic Health Record Workgroups.

The meeting will be conducted in  
hearing format, and the Workgroup will  
invite representatives who can provide  
information relevant to identity proofing  
and user authentication as it relates to  
the breakthroughs currently being  
discussed by the Community's  
Consumer Empowerment, Chronic Care,  
and Electronic Health Record  
Workgroups. The format for the meeting

will include multiple invited panels and  
time for questions and discussion. The  
meeting will include a time period  
during which members of the public  
may deliver brief (3 minutes or less) oral  
public comment. Slots for oral  
comments by the public will be filled on  
the day of the meeting as time permits.  
To submit comments via e-mail, please  
send them to *Michele.Rollins@hhs.gov*  
(to ensure that your e-mail is received  
and appropriately filed, we ask that  
your explicitly put "*CPS Public  
Comment*" in the subject line of your  
e-mail) or mail your comments to  
Michele Rollins, Office of the National  
Coordinator (ONC), 330 C Street, SW.,  
Suite 4090, Washington, DC 20201.

**SUPPLEMENTARY INFORMATION:** The  
Community's Confidentiality, Privacy,  
and Security (CPS) Workgroup will  
undertake steps to evaluate instances  
where health information technology  
(health IT) has shifted the CPS  
paradigm, as well as where policy (due  
to evolving technology) have become  
unclear or allow for varied  
interpretation.

The first two issues before the CPS  
workgroup (identity proofing and user  
authentication) were chosen because of  
their foundational importance to any  
security initiative. Inextricably linked,  
both issues need discussion in order to  
determine how authorized entry is  
governed to a new technology product,  
service, or infrastructure. In typical  
workflows, identity proofing and user  
authentication are the first of many  
processes completed in health care  
environments, followed shortly  
thereafter by other more complex  
activities such as access control, data  
management, information matching and  
transmission, and information assurance  
(data integrity, business continuity,  
etc.).

There is no one solution for identity  
proofing and user authentication. As  
health IT evolves, we expect that  
methods for identity proofing and user  
authentication will evolve as well.  
Certain types of health IT products may  
require more stringent methods while  
others may not, and understanding  
these tradeoffs will be critical to  
determining CPS policies. Deciding how  
to prove (with some degree of  
confidence) that someone is who they  
claim to be, followed by a repeatable  
authentication process, are necessary  
steps to ensure that an authorized  
person or entity can access a health IT  
product or service in a private and  
secure manner.

In an effort to inform members of the  
public responding to the questions  
posed for testimony, we are defining
