

Enbridge Oil Pipeline under the provisions of 43 U.S.C. 1334(e)-(f) (2004). This would create a mismatch between the capacity for which shippers have contracted on Caesar Oil Pipeline and the capacity to which they have access on Enbridge Oil Pipeline to transport their oil to Caesar Oil Pipeline.

Enbridge is concerned that in the absence of the declaratory order that it seeks, the potential for common-carrier type pro rata allocation on Enbridge Oil Pipeline will (1) result in shippers refusing to transport volumes on Enbridge Oil Pipeline due to such shippers' concern that they will be prevented from tendering their contracted-for volumes to Caesar Oil Pipeline, and (2) encourage shippers to build their own isolated, duplicative pipeline capacity as insurance against having to restrict production from their fields as a result of prorationing on Enbridge Oil Pipeline. Enbridge maintains that such uncertainty and unnecessary expense would discourage development of oil production and construction of efficient large-scale pipelines in the deepwater Gulf of Mexico.

Accordingly, Enbridge seeks the following:

A Commission declaration that Enbridge Oil Pipeline will be authorized to function as a contract carrier, hold on open season, enter into long-term transportation contracts reflecting contract carriage principles, give those contracts precedence in allocating capacity, and contract for capacity that remains available after the open season closes on a first-come, first-served basis, consistent with the Commission's ruling in Caesar Oil Pipeline, 102 FERC ¶ 61,339, at PP 1, 37 (2003).

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed in accordance on or before the date as indicated below. Anyone filing an intervention or protest must serve a copy of that document on the Applicant. Anyone filing an intervention or protest on or before the intervention or protest date need not serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and

interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP05-32-002]

Northwest Pipeline Corporation; Notice of Amendment

March 23, 2006.

Take notice that on March 16, 2006, Northwest Pipeline Corporation (Northwest), 295 Chipeta Way, Salt Lake City, Utah 84158, filed in Docket No. CP05-32-002, an application pursuant to sections 7(b) and (c) of the Natural Gas Act (NGA) to amend the certificate of public convenience and necessity that was issued for its Capacity Replacement Project by Commission order dated September 13, 2005 in Docket Nos. CP05-32-001 and CP05-32-001, all as more fully set forth in the request which is on file with the Commission and open to public inspection.

Specifically, Northwest requests that the Commission authorize minor scope changes for its Capacity Replacement Project, including: (i) Abandonment by removal of three additional segments of 26-inch diameter pipeline, totaling 0.20 miles; (ii) abandonment of related connection facilities at eight additional locations, elimination of such abandonments at seven previously authorized locations, and correction of the abandonment descriptions for two

previously authorized locations; and (iii) the elimination of a previously authorized 30-inch diameter valve on Northwest's existing 30-inch diameter mainline.

Any questions regarding this application should be directed to Gary K. Kotter, Manager, Certificates and Tariffs-3C1, Northwest Pipeline Corporation, P.O. Box 58900, Salt Lake City, Utah 84158-0900, at (801) 584-7117 or fax (801) 584-7764.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be

required to serve copies of filed documents on all other parties. However, the non-party commentors will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Comments, protests and interventions may be filed electronically via the Internet in lieu of paper. See, 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link.

Comment Date: April 13, 2006.

Federal Energy Regulatory Commission

[Docket No. EL06-62-000]

H-P Energy Resources, LLC, Complainant v. PJM Interconnection, LLC, Respondent, Notice of Complaint

March 24, 2006.

Take notice that on March 23, 2006, H-P Energy Resources, LLC (Energy Resources), pursuant to sections 206 and 306 of the Federal Power Act, 16 U.S.C. 824e and 825e, and sections 206 and 212 of the Commission's Rules of Practice and Procedures, 18 CFR 385.206 and 385.212, filed a complaint against PJM Interconnection, LLC (PJM) alleging that, in contravention of PJM's Open Access Transmission Tariff, PJM has failed to provide an appropriate quantity of Incremental Auction Revenue Rights for a merchant transmission project on the Bedington-Black Oak circuit.

Energy Resources certifies that a copy of the complaint has been served on PJM.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date.

The Respondent's answer, motions to intervene, and protests must be served on the Complainant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.
