[Docket No. FAA–2005–23184; Airspace Docket No. 05–AWP–14]

Modification of Class E Airspace; Palm Springs, CA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action modifies the Class E airspace area at Palm Springs, CA. The establishment of an Area Navigation (RNAV) Required Navigation Performance (RNP) Y Instrument Approach Procedures (IAP) to Runway

(RWY) 13R and 31L to Palm Springs International Airport, Palm Springs, CA has made this action necessary. Additional controlled airspace extending upward from 700 feet or more above the surface of the earth is needed to contain aircraft executing this RNAV (RNP) Y IAP RWY 13R to Palm Springs International Airport. The intended effect of this action is to provide adequate controlled airspace for Instrument Flight Rules operations at Palm Springs International Airport, Palm Springs, CA.

EFFECTIVE DATE: 0901 UTC June 8, 2006.

FOR FURTHER INFORMATION CONTACT: The Office of the Regional Western Terminal Operations, Federal Aviation Administration, at 15000 Aviation Boulevard, Lawndale, California 90261, telephone (310) 725–6613.

SUPPLEMENTARY INFORMATION:

History

On January 6, 2006, the FAA proposed to amend 14 CFR part 71 by modifying the Class E airspace area at Palm Springs, CA (06 FR 889). Additional controlled airspace extending upward from 700 feet or more above the surface is needed to contain aircraft executing the RNAV (RNP) Y IAP RWY 13R to Palm Springs International Airport. This action will provide adequate controlled airspace for aircraft executing the RNAV (RNP) Y IAP RWY 13R to Palm Springs International Airport, Palm Springs, CA.

Interested parties were invited to participate in this rulemaking, proceeding by submitting written comments on the proposal to the FAA. No comments to the proposal were received. Class E airspace designations for airspace extending from 700 feet or more above the surface of the earth are published in paragraph 6005 of FAA Order 7400.9N, dated September 1, 2005, and effective September 16, 2005, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

The Rule

This amendment to 14 CFR part 71 modifies the Class E airspace area at Palm Springs, CA. The establishment of a RNAV (RNP) Y IAP RWY 13R to Palm Springs International Airport has made this action necessary. The effect of this action will provide adequate airspace for aircraft executing the RNAV (RNP) Y IAP RWY 13R to Palm Springs International Airport, Palm Springs, CA.

The FAA has determined that this regulation only involves an established body of technical regulations for which

frequent and routine amendments are necessary to keep them operationally current. Therefore, this regulation—(1) is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Eligibility Determination for Donors of Human Cells, Tissues, and Cellular and Tissue-Based Products; Correction

AGENCY: Food and Drug Administration, HHS.

ACTION: Correcting amendment.

SUMMARY: The Food and Drug Administration (FDA) is correcting a final rule that published in the *Federal Register* of May 25, 2004 (69 FR 29786). The final rule required human cell, tissue, and cellular and tissue-based product (HCT/P) establishments to screen and test cell and tissue donors for risk factors for, and clinical evidence of, relevant communicable disease agents and diseases. The document was published with an error in the codified section. This document corrects that error.

DATES: Effective on March 24, 2006.

FOR FURTHER INFORMATION CONTACT: Paula S. McKeever, Center for Biologics Evaluation and Research (HFM–17), Food and Drug Administration, 1401 Rockville Pike, suite 200N, Rockville, MD 20852–1448, 301–827–6210.

SUPPLEMENTARY INFORMATION: The final regulations that are the subject of this correction require HCT/P establishments to screen and test cell and tissue donors for risk factors for, and clinical evidence of, relevant communicable disease agents and diseases. The final regulations incorrectly list a cross-reference in 21 CFR 1271.75(d)(1). This error may prove to be misleading because it inaccurately limits a referenced provision. Therefore, the error needs to be corrected.

■ Accordingly, 21 CFR part 1271 is corrected by making the following correcting amendment:
