

development, product testing, manufacturing, packaging, warehousing and distribution of digital wireless telecommunications products. Finished products from the manufacturing and kitting operations could include mobile communication terminal kits, test telephones and antenna control units (all duty-free). Imported parts and components that may initially be imported into the proposed subzone for manufacturing and kitting include: Antenna assemblies; cable assembly kits; keypads; labels; protectors, cap plugs; timing belts; o-rings and gaskets; screws; antenna mountings; aluminum tape; steppers; round nylon standoffs; mounting frames; delrin spacers; battery packs; receivers with adapters; parts of cellular telephony including enhanced display units, keyboards, lens assemblies, radome assemblies and filter saws; SIM cards; directional chip couplers; inductor chips; dual mode amplifiers; GPS mounting cups and cable straps; adhesive rings for GPS cups; self-thread screwlock inserts; motor-mounting nut plates; chip inductors; CPA boot codes; GPS radome patch antennas; PTC resettable poly-switches; input connector receptacles; conn. housing/solder contacts; and, digital ACU cable assemblies. Duty rates on these inputs range from duty-free to 8.6 percent.

The application also requests authority to include a broad range of inputs for other telecommunication products that QUALCOMM may produce under FTZ procedures in the future. (New major activity involving these inputs/products would require review by the FTZ Board.) The duty rates for these inputs and final products range from duty-free to 20 percent.

FTZ procedures would exempt QUALCOMM from Customs duty payments on foreign products that are re-exported. On domestic sales, the company would be able to defer duty payments until merchandise is shipped from the facility and entered for U.S. consumption, and to choose the duty rate that applies to the finished product instead of the rates applicable to the foreign input materials. QUALCOMM would be able to avoid duty on foreign merchandise which becomes scrap/waste, and the company also expects to realize additional savings through the use of weekly entry procedures and zone to zone transfers. The application indicates that the company will realize certain logistical benefits through the simplification and expediting of their import and export activity. QUALCOMM believes that all of the above-cited savings from FTZ

procedures would help improve the facilities' international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been designated examiner to investigate the application and report to the Board.

Public comment is invited from interested parties. Submissions (original and 3 copies) shall be addressed to the Board's Executive Secretary at the address below. The closing period for their receipt is October 20, 2006. Rebuttal comments in response to material submitted during the foregoing period may be submitted during the subsequent 15-day period (to November 6, 2006).

A copy of the application and accompanying exhibits will be available for public inspection at each of the following locations: U.S. Department of Commerce Export Assistance Center, World Trade Center, 1625 Broadway, Suite 680, Denver, Colorado 80202; and, Office of the Executive Secretary, Foreign-Trade Zones Board, Room 1115, U.S. Department of Commerce, 1401 Constitution Avenue, NW., Washington, DC 20230.

Dated: August 15, 2006.

Andrew McGilvray,

Acting Executive Secretary.

Foreign-Trade Zones Board

[Docket 34-2006]

Foreign-Trade Zone 93—Raleigh/Durham, NC; Application for Subzone Status; QUALCOMM Incorporated; (Digital Wireless Telecommunication Products)

An application has been submitted to the Foreign-Trade Zones Board (the Board) by the Triangle J Council of Governments, grantee of FTZ 93, requesting special-purpose subzone status for the manufacturing facilities of QUALCOMM Incorporated, located in Cary, North Carolina. The application was submitted pursuant to the provisions of the Foreign-Trade Zones Act, as amended (19 U.S.C. 81a-81u), and the regulations of the Board (15 CFR part 400). It was formally filed on August 15, 2006.

The QUALCOMM facility (49,442 sq. ft./5 acres/140 employees) is located at 2000 CentreGreen Way, Cary, North Carolina. The facility is used for research and development, product testing, manufacturing, packaging,

warehousing and distribution of digital wireless telecommunications products. Finished products from the manufacturing and kitting operations could include mobile communication terminal kits, test telephones and antenna control units (all duty-free). Imported parts and components that may initially be imported into the proposed subzone for manufacturing and kitting include: Antenna assemblies; cable assembly kits; keypads; labels; protectors, cap plugs; timing belts; o-rings and gaskets; screws; antenna mountings; aluminum tape; steppers; round nylon standoffs; mounting frames; delrin spacers; battery packs; receivers with adapters; parts of cellular telephony including enhanced display units, keyboards, lens assemblies, radome assemblies and filter saws; SIM cards; directional chip couplers; inductor chips; dual mode amplifiers; GPS mounting cups and cable straps; adhesive rings for GPS cups; self-thread screwlock inserts; motor-mounting nut plates; chip inductors; CPA boot codes; GPS radome patch antennas; PTC resettable poly-switches; input connector receptacles; conn. housing/solder contacts; and, digital ACU cable assemblies. Duty rates on these inputs range from duty-free to 8.6 percent.

The application also requests authority to include a broad range of inputs for other telecommunication products that QUALCOMM may produce under FTZ procedures in the future. (New major activity involving these inputs/products would require review by the FTZ Board.) The duty rates for these inputs and final products range from duty-free to 20 percent. FTZ procedures would exempt QUALCOMM from Customs duty payments on foreign products that are re-exported. On domestic sales, the company would be able to defer duty payments until merchandise is shipped from the facility and entered for U.S. consumption, and to choose the duty rate that applies to the finished product instead of the rates applicable to the foreign input materials. QUALCOMM would be able to avoid duty on foreign merchandise which becomes scrap/waste, and the company also expects to realize additional savings through the use of weekly entry procedures and zone to zone transfers. The application indicates that the company will realize certain logistical benefits through the simplification and expediting of their import and export activity. QUALCOMM believes that all of the above-cited savings from FTZ

procedures would help improve the facility's international competitiveness.

In accordance with the Board's regulations, a member of the FTZ staff has been designated examiner to investigate the application and report to the Board.

DEPARTMENT OF COMMERCE

International Trade Administration

International Trade Specialist Counseling Session Survey

ACTION: Proposed collection; comment request.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burdens, invites the general public and other Federal agencies to take this opportunity to comment on the continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13 (44 U.S.C. 3506(2)(A)).

DATES: Written comments must be submitted on or before October 20, 2006.

ADDRESSES: Direct all written comments to Diana Hynek, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6625, 14th & Constitution Avenue, NW., Washington, DC 20230. E-mail: dHynek@doc.gov

FOR FURTHER INFORMATION CONTACT:

Request for additional information or copies of the information collection instrument and instructions should be directed to: Joseph Carter, 14th & Constitution Avenue, NW., Washington, DC 20230; Phone number: (202) 482-3342; E-mail: joseph.carter@mail.doc.gov

SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade Administration's U.S. Commercial Service is mandated by Congress to help U.S. businesses, particularly small and medium-sized companies, export their products and services to global markets. As part of its mission, the U.S. Commercial Service (CS) currently uses "Quality Assurance Surveys" to collect feedback from U.S. business clients that use U.S. Commercial Service pay-for-use products/events provided by the organization's international offices. These surveys ask the client to evaluate the U.S. Commercial Service on its customer service provision. Results from the surveys are used to make improvements to the agency's business processes in order to provide better and more effective export assistance to U.S. companies. In addition to collecting client feedback for pay-for-use products/events provided by the U.S. Commercial Service's international offices, the U.S. Commercial Service would like to institutionalize Counseling Session Surveys to obtain client feedback from U.S. businesses that have engaged in "counseling sessions" with CS International Trade Specialists in the domestic offices (known as U.S. Export Assistance Centers). Counseling sessions occur when an International Trade Specialist from one of the U.S. Commercial Service's domestic offices works with a client to determine their international marketing interests and provide "global trade solutions".

The purpose of the attached survey is to collect feedback from U.S. businesses that receive counseling from domestic International Trade Specialists of the U.S. Commercial Service. This information will be used for program improvement, strategic planning, and allocation of resources. Survey responses will be used to assess client satisfaction, assess priorities, and identify areas where service levels and benefits differ from client expectations. In providing these counseling services, the U.S. Commercial Service promotes the goods and services of small and medium-sized U.S. businesses in foreign markets.

II. Method of Collection

The data collection method chosen for the counseling session quality assurance survey is an e-mail message delivering a hot link to a web enabled survey. If the client does not respond to the survey within two weeks, another e-mail reminder is sent to the client.

III. Data

OMB Number: 0625-0253.

Form Number: ITA-4154P.

Type of Review: Regular Submission.

Affected Public: U.S. companies that are recruited by the U.S. Commercial Service.

Estimated Number of Respondents: 1700.

Estimated Time per Response: 10 minutes.

Estimated Total Annual Burden Hours: 284 hours.

Estimated Total Annual Costs: The estimated annual cost for this collection is \$9596.00.

IV. Request for Comments

Comments are invited on (a) whether the proposed collection of information is necessary for proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and costs) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Dated: August 15, 2006.

Madeleine Clayton,

Management Analyst, Office of the Chief Information Officer.
