Regulated Entities. Entities potentially affected by this proposed action are generators of unwanted materials, as defined in this proposal, from college and university laboratories. College and university laboratories, as defined under this proposal, include laboratories associated with a private or public, post-secondary, degree-granting, academic institution that is accredited by an accrediting agency listed annually by the U.S. Department of Education. Only those colleges and universities which have laboratories on their campuses would be covered by this alternate approach; laboratories not located at colleges or universities would not be covered. This proposed action is optional in that colleges and universities may elect to have their laboratories remain regulated under current RCRA generator regulations as set forth in 40 CFR 262.11 and 262.34(c), or may choose to manage their hazardous wastes according to this alternative regulatory approach. (In RCRA authorized states, today's proposed action would be an option once it has been adopted by the state in which the college or university resides.) To determine whether a college or university laboratory is covered by this action, interested parties should examine 40 CFR part 262, subpart K carefully. If there are questions regarding the applicability of the proposed rule to a particular entity, consult the person listed in the section of this preamble entitled **FOR FURTHER INFORMATION CONTACT**.

Submitting CBI. Do not submit this information to EPA through <http://www.regulations.gov> or e-mail. Send or deliver information identified as CBI only to the address listed in the **ADDRESSES** section of this document. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

LEGAL SERVICES CORPORATION

45 CFR Part 1621

Client Grievance Procedure

AGENCY: Legal Services Corporation.

ACTION: Notice of proposed rulemaking.

SUMMARY: This Notice of Proposed Rulemaking (NPRM) proposes to amend the Legal Services Corporation's regulation on client grievance procedures. These proposed changes are intended to improve the utility of the regulation for grantees and their clients and applicants for service in the current operating environment. In particular, LSC is proposing changes to clarify what procedures are available to clients and applicants, to emphasize the importance of the grievance procedure for clients and applicants and to add clarity and flexibility in the application of the requirements for hotline and other programs serving large and widely dispersed geographic areas.

DATES: Comments on this NPRM are due on September 20, 2006.

ADDRESSES: Written comments may be submitted by mail, fax or e-mail to Mattie Cohan, Senior Assistant General

Counsel, Office of Legal Affairs, Legal Services Corporation, 3333 K Street, NW., Washington, DC 20007; 202-295-1624 (ph); 202-337-6519 (fax); mcohan@lsc.gov.

SUPPLEMENTARY INFORMATION:

Background

The Legal Services Corporation's (LSC) regulation on client grievance procedures, 45 CFR part 1621, adopted in 1977 and not amended since that time, requires that LSC grant recipients establish grievance procedures pursuant to which clients and applicants for service can pursue complaints with recipients related to the denial of legal assistance or dissatisfaction with the legal assistance provided. The regulation is intended to help "insure that legal services programs are accountable to those whom they are expected to serve." 42 FR 37551 (July 22, 1977).

As noted above, part 1621 has not been amended since its original adoption nearly 30 years ago. A Notice of Proposed Rulemaking (NPRM) was published in 1994 which would have instituted some more specific requirements for the grievance process and clarified the situations in which access to the grievance process is appropriate. However, due to the significant legislative activity in 1995 and 1996, no final action was ever taken on the 1994 NPRM and the original regulation has remained in effect.

As part of a staff effort in 2001 and 2002 to conduct a general review of LSC's regulations, the Regulations Review Task Force found that a number of the issues identified in the 1994 NPRM remained extant. The Task Force recommended in its Final Report (January 2002) that part 1621 be considered a higher priority item for rulemaking. Representatives of the grantee community agreed at that time that rulemaking to revise and update part 1621 was appropriate. The then-Board of Directors accepted the report and placed part 1621 on its priority rulemaking list. No action was taken on this item prior to the appointment of the current Board of Directors.

After the appointment of the current Board of Directors, LSC Management recommended to the Board that a rulemaking to consider revision of part 1621 was still appropriate. The Board of Directors agreed and on October 29, 2005, the Board of Directors directed that LSC initiate a rulemaking to
