National Highway Traffic Safety Administration

Title: National Survey of the Use of Booster Seats.

OMB Number: 2127-0644.

Type of Request: 3-year extension of approval for information collection.

Abstract: The National Survey of the Use of Booster Seats is being conducted to respond to the Section 14(i) of the Transportation Recall Enhancement, Accountability, and Documentation (TREAD) Act of 2000. The Act directs the Department of Transportation to reduce the deaths and injuries among children in the 4-to-8 year old age group that are caused by failure to use a

booster seat by 25 percent. Conducting the National Survey of the Use of Booster Seats will provide the Department with invaluable information on who is and is not using booster seats, helping the Department better direct its outreach programs to ensure that children are protected to the greatest degree possible when they ride in motor vehicles. The OMB approval for this survey is scheduled to expire on March 31, 2006. NHTSA seeks an extension to this approval in order to continue to obtain this important survey data, saving more children and helping to comply with the TREAD Act requirement.

Affected Public: Motorists in passenger vehicles at gas stations, fast food restaurants, and other types of sites frequented by children during the time in which the survey is conducted.

Estimated Total Annual Burden: 320 hours.

Number of Respondents: Approximately 4,800 adult motorists will respond to survey questions about the children in their vehicle.

ADDRESSES: Send comments within 30 days to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention: NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. A comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, February 2006.

Associate Administrator for the National Center for Statistics and Analysis, NHTSA.

This petition is granted because the agency has determined that the antitheft device to be placed on the line as standard equipment is likely to be as effective in reducing and deterring motor vehicle theft as compliance with the parts-marking requirements of the Theft Prevention Standard.

DATES: The exemption granted by this notice is effective beginning with model year (MY) 2006.

FOR FURTHER INFORMATION CONTACT: Ms. Carlita Ballard, Office of International Policy, Fuel Economy and Consumer Programs, NHTSA, 400 Seventh Street, SW., Washington, DC 20590. Ms. Ballard's telephone number is (202) 366-0846. Her fax number is (202) 493-2290.

SUPPLEMENTARY INFORMATION: In a petition dated October 7, 2005, Ford requested exemption from the parts-marking requirements of the theft prevention standard (49 CFR Part 541) for the MY 2006 Focus vehicle line. Under § 543.5(a), a manufacturer may petition NHTSA to grant exemptions for one line of its vehicle lines per year. In its petition, Ford provided a detailed description and diagram of the identity, design, and location of the components of the antitheft device for the Focus vehicle line.
