Golden Pass Pipeline LP; Notice of Application

August 21, 2006.

Take notice that on August 11, 2006, Golden Pass Pipeline LP (GPPL) filed in Docket No. CP04-400-002 an application seeking to amend the certificate of public convenience and necessity issued July 6, 2005, in Docket No. CP04-400-000, as amended in Docket No. CP04-400-001. That certificate issued pursuant to section 7(c) of the NGA and Part 157, Subpart A of the Commission's Regulations, authorized construction and operation of facilities to transport natural gas

originating from liquefied natural gas (LNG) receiving terminal to be located approximately 10 miles south of Port Arthur, Texas, and two miles northeast of the town of Sabine Pass, Texas. The previous amendment application, still under review by the Commission, seeks authorization to alter the size and route of the southern 43 miles of pipeline.

GPPL now requests authorization to make certain variations in the design of the proposed pipeline. The new design component would replace the approximately 35-mile northern segment of 36-inch diameter pipeline with a 42-inch diameter pipeline from the AEP Texoma interconnect site to the terminus of the pipeline at an interconnect with Transcontinental Gas Pipe Line Corporation near Starks, LA.

This application is on file with the Commission and open to public inspection.
