DEPARTMENT OF DEFENSE

Department of the Army

Notice of Availability for the Record of Decision (ROD) for the Supplemental Final Environmental Impact Statement (SFEIS) for the Proposed Addition of Maneuver Training Land at Fort Irwin, California

AGENCY: U.S. National Training Center and Fort Irwin, Department of the Army, DoD.

ACTION: Notice of availability.

SUMMARY: The Department of the Army announces the availability of its ROD for the Proposed Addition of Maneuver Training Land at Fort Irwin, California. On 20 January 2006, the Army published a notice of availability of its SFEIS. The SFEIS reviewed the environmental, cultural, and socioeconomic impacts of five action alternatives associated with the addition of maneuver training land at Fort Irwin, as well as a No Action (status quo) alternative. Based on the SFEIS, the Army has demised to implement Alternative I, the East/West Alternative. Under this alternative, additional lands totaling approximately 150,510 acres would be added to the available training lands. The decision includes training in new areas to the east and west of the existing Fort Irwin, and in a portion of southern Fort Irwin previously off-limits to training. Expansion of the maneuver area of the National Training Center (FTC) provides an extended battle space (land and air) for training Army brigade-sized units according to the Army's training and combat operations. Today's Army can drive faster, shoot farther, and operate over wider ranges than the Army of 1981, when the FTC opened.
