

pencils, pens, non-cased crayons (wax), pastels, charcoals, chalks, and pencils produced under U.S. patent number 6,217,242, from paper infused with scents by the means covered in the above-referenced patent, thereby having odors distinct from those that may emanate from pencils lacking the scent infusion. Also excluded from the scope of the order are pencils with all of the following physical characteristics: 1) length: 13.5 or more inches; 2) sheath diameter: not less than one-and-one quarter inches at any point (before sharpening); and 3) core length: not more than 15 percent of the length of the pencil.

In addition, pencils with all of the following physical characteristics are excluded from the scope of the order: novelty jumbo pencils that are octagonal in shape, approximately ten inches long, one inch in diameter before sharpening, and three-and-one eighth inches in circumference, composed of turned wood encasing one-and-one half inches of sharpened lead on one end and a rubber eraser on the other end. Although the HTSUS subheading is provided for convenience and customs purposes our written description of the scope of the order is dispositive.

If the final partial revocation occurs, we intend to instruct U.S. Customs and Border Protection (CBP) to liquidate, without regard to applicable antidumping duties, all unliquidated entries of pencils that meet the above-noted exclusion, and to refund any estimated antidumping duties collected on such merchandise entered, or withdrawn from warehouse, for consumption on or after December 1, 2001, the day after the most recent period for which the Department issued assessment instructions to CBP (12/1/2000–11/30/2001), in accordance with section 351.222 of the Department's regulations. We will also instruct CBP to pay interest on such refunds with respect to the subject merchandise entered, or withdrawn from warehouse, for consumption on or after December 1, 2001, in accordance with section 778 of the Act. *See Notice of Initiation and Preliminary Results of Changed Circumstances Antidumping Duty Administrative Review, and Intent to Revoke Order in Part: Certain Cut-To-Length Carbon-Quality Steel Plate Products from Japan*, 68 FR 1436 (January 10, 2003).

The current cash deposit rate will remain in effect for all entries of subject

merchandise until completion of an administrative review.

SUMMARY: As a result of the determinations by the Department of Commerce (“the Department”) and the International Trade Commission (“ITC”) that revocation of the antidumping duty order on certain in-shell pistachios (“in-shell pistachios”) from Iran would likely lead to continuation or recurrence of dumping and material injury to an industry in the United States, the

Department is publishing notice of continuation of this antidumping duty order.

EFFECTIVE DATE: January 3, 2006.

CONTACT INFORMATION: Dana Mermelstein, AD/CVD Operations, Office 6, or John Drury, AD/CVD Operations, Office 7, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW., Washington, DC 20230, telephone: (202) 482–1391 or (202) 482–0195, respectively.

Background

On March 1, 2005, the Department initiated and the ITC instituted a sunset review of the antidumping duty order on in-shell pistachios from Iran, pursuant to section 751(c) of the Tariff Act of 1930, as amended (“the Act”).¹

As a result of its review, the Department found that revocation of the antidumping duty order would likely lead to continuation or recurrence of dumping, and notified the ITC of the magnitude of the margins likely to prevail were the order to be revoked.² On December 22, 2005, the ITC determined, pursuant to section 751(c) of the Act, that revocation of the antidumping duty order on in-shell pistachios from Iran would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.³

Scope of the Order

The product covered by the antidumping duty order is raw, in-shell pistachio nuts from which the hulls have been removed, leaving the inner hard shells, and edible meats from Iran. This merchandise is currently provided for in subheading 0802.50.20.00 of the Harmonized Tariff Schedule of the United States (HTSUS). Although the HTSUS subheading is provided for convenience and customs purposes, the Department's written description of the merchandise under order is dispositive.

U.S. Customs and Border Protection will continue to collect antidumping duty deposits at the rates in effect at the time of entry for all imports of subject merchandise.

FINAL RESULTS OF REVIEW

As stated in the *Preliminary Results*, the Department confirmed that neither NKK nor SMI made sales of subject merchandise during the POR. Additionally, neither JFE nor Nippon participated in this review. We did not receive comments on either our preliminary decision to rescind the review with respect to NKK and SMI, nor on our decision to apply an adverse facts available (AFA) rate to JFE and Nippon.¹ Accordingly, we do not have any reason to reconsider our preliminary decision. Therefore, consistent with the Department's preliminary results of this review, and in accordance with 19 CFR § 351.213(d)(3), we are rescinding the instant review with respect to both NKK and SMI and have made no changes to the weighted-average dumping margins applied to JFE and Nippon in the preliminary results of this administrative review.

We determine that the following dumping margins exist for the period August 1, 2003, through July 31, 2004:

Manufacturer/Exporter	Margin (percent)
JFE Steel Corporation	44.20
Nippon Steel Corporation	44.20

DUTY ASSESSMENT

The Department will determine, and U.S. Customs and Border Protection (CBP) shall assess, antidumping duties on all appropriate entries, pursuant to 19 CFR § 351.212(b). We will direct CBP to assess the dumping rate listed above against all subject merchandise manufactured or exported by JFE or Nippon, and entered or withdrawn from warehouse for consumption during the POR. For all subject merchandise

¹ As AFA, we applied the highest rate from the investigation, 44.20 percent, which is also the only rate determined in the investigation. See *Notice of Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order: Oil Country Tubular Goods from Japan*, 60 FR 155 (August 11, 1995) (*Amended Final Determination*).
