already filed their required Electric Quarterly Reports in compliance with the Commission's requirements, its inclusion herein is inadvertent. Any such market-based rate seller is directed, within 15 days of the date of issuance of this order, to identify itself and provide details about its prior filings that establish that it complied with the Commission's Electric Quarterly Report filing requirements.

10. If any of the above-captioned market-based rate sellers does not wish to continue having market-based rate authority and does not foresee entering into any contracts to sell power at market-based rates, it may file a notice of cancellation with the Commission pursuant to section 205 of the FPA to cancel its market-based rate tariff and relieve it of its obligation to submit further Electric Quarterly Reports.

The Commission Orders

(A) Within 15 days of the date of issuance of this order, each public utility listed in the caption of this order shall file all delinquent Electric Quarterly Reports. If a public utility fails to make this filing, the Commission will revoke that public utility's authority to sell power at market-based rates and terminate its electric marketbased rate tariff. Upon expiration of the filing deadline in this order, the Secretary shall promptly issue a notice, effective on the date of issuance, listing the public utilities whose tariffs have been revoked.

(B) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Energy Regulatory Commission by section 402(a) of the Department of Energy Organization Act and by the Federal Power Act, particularly section 206 thereof, and pursuant to the Commission's Rules of Practice and Procedure and the regulations under the Federal Power Act (18 CFR Chapter I), the Commission hereby institutes a proceeding to determine whether the above-captioned companies may continue to make wholesale power sales at market-based rates and whether any refunds would be appropriate, as discussed in the body of this order.

(C) The Secretary is hereby directed to publish this order in the **Federal Register**.

By the Commission.

Secretary.

SUPPLEMENTARY INFORMATION:

Background

On August 2, 2005, the President signed into law the Department of Interior, Environment, and Related Agencies Appropriations Act, 2006, Public Law 109–54 (Appropriations Act), which provides appropriated funds for the Environmental Protection Agency and other Federal departments and agencies. Section 201 of the Appropriations Act includes the following provision:

None of the funds made available by this Act may be used by the Administrator of the Environmental Protection Agency to accept, consider or rely on third-party intentional dosing human toxicity studies for pesticides, or to conduct intentional dosing human toxicity studies for pesticides until the Administrator issues a final rulemaking on this subject. The Administrator shall allow for a period of not less than 90 days for public comment on the Agency's proposed rule before issuing a final rule. Such rule shall not permit the use of pregnant women, infants or children as subjects; shall be consistent with the principles proposed in the 2004 report of the National Academy of Sciences on intentional human dosing and the principles of the Nuremberg Code with respect to human experimentation; and shall establish an independent Human Subjects Review Board. The final rule shall be issued no later than 180 days after enactment of this Act.

Consistent with the express Congressional directive, on September 12, 2005 (70 FR 53838), EPA published a Notice of Proposed Rulemaking (NPRM) regarding protections for subjects in human research and the establishment of the Human Studies Review Board (HSRB or Board).

Concurrent with this rulemaking process, EPA is reevaluating older registered pesticides with a goal of meeting the August 2006 deadline for completing the reregistration of pesticide active ingredients with food uses and the reassessment of tolerances mandated by section 408(q) of the FFDCA, as amended by the 1996 Food Quality Protection Act (FQPA) [Pub. L. 104–70]. In addition, EPA has received applications for registration or amended registration of pesticide products. Under the provisions of the Pesticide Registration Improvement Act (PRIA), EPA has deadlines by which it must make a decision whether to approve new applications for pesticide registrations or amendments to registrations.

EPA expects to issue the final rule in early 2006 after considering all public comments provided to the Agency. However, once the rule is finalized, there will be limited time between the establishment of the HSRB and the mandatory completion dates for tolerance reassessment and PRIA deadlines. Therefore, the Agency is initiating the actions necessary to enable a HSRB to begin reviewing completed human research that would be relevant to pending reregistration, tolerance reassessment and new registration decisions, and in accordance with the provisions of the final rule. The first step toward establishing a HSRB is to solicit nominations for qualified individuals to serve on the HSRB for a review of intentional dosing human studies.

Process and Deadline for Submitting Nominations

Any interested person or organization may nominate qualified individuals to be considered as prospective candidates for the HSRB. Additional avenues and resources may be utilized in the solicitation of nominees to encourage a broad pool of expertise. Nominees should be experts who have sufficient professional qualifications, including training and experience, to be capable of providing expert comments on the ethical and/or scientific issues that may be considered by the HSRB. Nominees are requested who are nationally recognized experts in one or more of the following areas:

Biostatistics: expertise in statistical design and analysis of human subjects research studies.

Human toxicology: Expertise in pharmacokinetic and toxicokinetic studies, clinical trials, toxicology of cholinesterase inhibitors, and other classes of environmental substances.

Bioethics: Expertise in the ethics of research on human subjects; research ethics.

Human health risk assessment

To be considered, all nominations should include: a current curriculum vitae (C.V.) which provides the nominee's background, qualifications, relevant research experience and publications; and a brief biographical sketch ("biosketch"). The biosketch should be no longer than one page and should contain the following information for the nominee:

(a) Current professional affiliations and positions held;

(b) Area(s) of expertise, and research activities and publications relevant to the HSRB;

(c) Leadership positions in national associations or professional publications or other significant distinctions;

(d) Educational background, especially advanced degrees, including when and from which institutions these were granted.

The credentials of nominees received in reply to this notice will be compared to the specific expertise sought for the HSRB. Qualified nominees who agree to be further considered will be included in a smaller subset (known as the "Short List"). This subset will be posted on the OSA Web site http://www.epa.gov/osa/ index.htm and will include, for each candidate, the nominee's name and their biosketch. Public comments will be accepted for 14 calendar days on the Short List. During this comment period, the public will be requested to provide relevant information or other documentation on nominees that OSA should consider in evaluating the candidates. Board members will be selected from the Short List.

The selection of experts to serve on the HSRB will be based on the function of the Board and the expertise needed. No interested candidates shall be ineligible to serve by reason of their membership on any other advisory committee to a Federal department or agency or their employment by a Federal department or agency (except the EPA). Other factors that will be considered during the selection process include availability of the potential Board member to fully participate in the Board's reviews, absence of any conflicts of interest, impartiality, independence with respect to the matters under review, and public comments to the Short List. Though financial conflicts of interest, the appearance of lack of impartiality, lack of independence, and bias may result in disgualification, the absence of such concerns does not assure that a candidate will be selected to serve on the HSRB. Numerous qualified candidates may be identified. Therefore, selection decisions involve carefully weighing a number of factors including, but not limited to, the candidates' areas of expertise and professional qualifications, and responses to the Short List in achieving an overall balance of different perspectives on the Board.

If a prospective candidate for service on the HSRB is considered, the candidate is subject to the provisions of 5 CFR part 2634, Executive Branch Financial Disclosure, as supplemented by the EPA in 5 CFR part 6401. As such, the HSRB candidate is required to submit a Confidential Financial **Disclosure Form for Special** Government Employees Serving on Federal Advisory Committees at the U.S. Environmental Protection Agency (EPA Form 3110-48 [5-02]) which shall fully disclose, among other financial interests, the candidate's employment, stocks, and bonds, and where applicable, sources of research support. The EPA will evaluate the candidate's financial disclosure form to assess that there are no financial conflicts of interest, no appearance of lack of impartiality, and no prior involvement

with the development of the documents under consideration (including previous scientific peer review) before the candidate is considered further for service on the HSRB.

Those who are selected from the pool of prospective candidates will be asked to attend public meetings and to participate in the discussion of key issues and assumptions at these meetings. In addition, they will be asked to review and to help finalize the meeting minutes. The Agency will consider all nominations of prospective candidates for this meeting that are received on or before February 2, 2006. However, final selection of members is a discretionary function of the Agency. Nominations should be submitted by one of the methods listed under ADDRESSES.

Dated: December 22, 2005.
