Volet, Inc., Power Cord Products Division, Clinton, AR; Notice of Negative Determination Regarding Application for Reconsideration

By application of September 14, 2006, a company official requested administrative reconsideration of the Department's negative determination regarding eligibility to apply for Trade Adjustment Assistance (TAA), applicable to workers and former workers of the subject firm. The denial notice was signed on August 22, 2006, and published in the **Federal Register** on October 2, 2006 (71 FR 58012).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) if it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) if it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) if in the opinion of the Certifying Officer, a mis-interpretation of facts or of the law justified reconsideration of the decision.

The petition for the workers of Volet, Inc., Power Cord Products Division, Clinton, Arkansas engaged in production of insulated flexible wire and cable for power cords was denied because the "contributed importantly" group eligibility requirement of Section 222 of the Trade Act of 1974, as amended, was not met, nor was there a shift in production from that firm to a foreign country. The "contributed importantly" test is generally demonstrated through a survey of the workers' firm's declining domestic customers. The survey was not conducted, because the investigation revealed that the subject firm produced insulated flexible wire and cable primarily for the export market and no domestic customers were available. The subject firm did not import insulated flexible wire and cable in the relevant period, nor did it shift production to a foreign country.

The petitioner provided additional information in the request for reconsideration and supplied a name of

a domestic customer which is allegedly purchasing imported products.

The Department conducted a survey of this customer regarding purchases of insulated flexible wire and cable in 2004, 2005 and January through August of 2006. The survey revealed no purchases of imports of insulated flexible wire and cable during the relevant time period.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or misinterpretation of the law or of the facts which would justify reconsideration of the Department of Labor's prior decision. Accordingly, the application is denied.

Signed at Washington, DC, this 2nd of November, 2006.

Elliott S. Kushner,

*Certifying Officer, Division of Trade
Adjustment Assistance.*

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

Negative Determinations for Alternative Trade Adjustment Assistance

In the following cases, it has been determined that the requirements of 246(a)(3)(A)(ii) have not been met for the reasons specified.

The Department has determined that criterion (1) of Section 246 has not been met. Workers at the firm are 50 years of age or older.

TA-W-60,164; ZF Boge Elastometall, Rubber-Metal Technology Division, Paris, IL.

The Department has determined that criterion (2) of Section 246 has not been met. Workers at the firm possess skills that are easily transferable.

The Department has determined that criterion (3) of Section 246 has not been met. Competition conditions within the workers' industry are not adverse.

None.

Negative Determinations for Worker Adjustment Assistance and Alternative Trade Adjustment Assistance

In the following cases, the investigation revealed that the eligibility criteria for worker adjustment assistance have not been met for the reasons specified.

Because the workers of the firm are not eligible to apply for TAA, the workers cannot be certified eligible for ATAA.

The investigation revealed that criteria (a)(2)(A)(I.A.) and (a)(2)(B)(II.A.) (employment decline) have not been met.

TA-W-60,049; Energy and Automation, Norwood, OH.

None.

The investigation revealed that criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.B.) (shift in production to a foreign country) have not been met.

TA-W-60,135; Rothtec Engraving Corp., Charlotte, NC.

The investigation revealed that the predominate cause of worker separations is unrelated to criteria (a)(2)(A)(I.C.) (increased imports) and (a)(2)(B)(II.C.) (shift in production to a foreign country under a free trade agreement or a beneficiary country under a preferential trade agreement, or there has been or is likely to be an increase in imports).

TA-W-60,137; Mudd (USA), LLC, New York, NY.

The workers' firm does not produce an article as required for certification under Section 222 of the Trade Act of 1974.

None.

The investigation revealed that criteria of Section 222(b)(2) has not been met. The workers' firm (or subdivision) is not a supplier to or a downstream producer for a firm whose workers were certified eligible to apply for TAA.

None.

Eligibility is defined in sections 101, 134 and 173 of the Workforce Investment Act (WIA) (Pub. L. 105-220): sections 113, 114 and 203 of the Trade Adjustment Assistance Reform Act of 2002 (Pub. WIA and the Regulations define four NEG project types:

- **REGULAR**, which encompasses plant closures, mass layoffs, and multiple layoffs in a single community.
- **DISASTER**, which includes all eligible FEMA-declared natural and manmade disaster events.
- **TRADE-WIA DUAL ENROLLMENT**, which provides supplemental funding to ensure that a full range of services is available to trade-impacted individuals eligible under the Trade Adjustment Assistance program provisions of the Trade Act of 2002.
- **TRADE HEALTH INSURANCE COVERAGE ASSISTANCE**, which provides specialized health coverage, support services, and income assistance
