

Affordable Local and Long Distance Service (CALLS) Proposal: tariff filing, quarterly and annual data filings and cost support information.

OMB Control Number: 3060-1044.

Title: Review of the Section 251 Unbundling Obligations of Incumbent Local Exchange Carriers, CC Docket No. 01-338 and WC Docket No. 04-313, Order on Remand.

Form No.: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit.

Number of Respondents: 645 respondents; 645 responses.

Estimated Time Per Response: 8 hours.

Frequency of Response: On occasion reporting requirement.

Total Annual Burden: 5,160 hours.

Obligation to Respond: Required to obtain or retain benefits.

Total Annual Cost: \$103,200.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: The Commission is not requesting respondents to submit confidential information to the Commission. However, in certain circumstances, respondents may voluntarily choose to submit confidential information pursuant to applicable confidentiality rules.

Needs and Uses: The Commission will submit this information collection to OMB as a revision after this 60 day comment period to obtain the full three-year clearance from them.

In FCC 03-36 (*Order*) the Commission adopted rules and regulations designed to eliminate operational barriers to competition in the telecommunications services market and implement certain provisions of Section 251, including the unbundled network elements (UNE) obligations of incumbent local exchange carriers (LECs). In the *Order on Remand* (FCC 04-290) the Commission responded to a decision by the United States Court of Appeals for the District of Columbia that vacated the "sub-delegation" of authority to state commissions and vacated and remanded certain nationwide impairment findings, including mass market switching and dedicated transport. This resulted in the removal of the "State Commission UNE Proceeding" section of this collection.

Federal Communications Commission.

Marlene H. Dortch,
Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

[Report No. AUC-06-71-A (Auction No. 71); DA 06-2298; AU Docket No. 06-206]

Auction of Broadband PCS Spectrum Scheduled for May 16, 2007; Comments Sought on Competitive Bidding Procedures for Auction No. 71

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: This document announces the auction of certain broadband Personal Communications Services (PCS) licenses scheduled to commence on May 16, 2007 (Auction No. 71). This document also seeks comments on competitive bidding procedures for Auction No. 71.

DATES: Comments are due on or before December 4, 2006, and reply comments are due on or before December 11, 2006.

ADDRESSES: Comments and reply comments must be identified by AU Docket No. 06-206; DA 06-2298. The Bureau request that a copy of all comments and reply comments be submitted electronically to the following address: auction71@fcc.gov. In addition, comment and reply comments may be submitted by any of the following methods:

- *Federal Communications Commission's Web Site:* <http://www.fcc.gov/cgb/ecfs/>. Follow the instructions for submitting comments.
- *People with Disabilities:* Contact the FCC to request reasonable accommodations (accessible format documents, sign language interpreters, CART, etc.) by e-mail: FCC504@fcc.gov or phone: 202-418-0530 or TTY: 202-418-0432.

- *Paper Filers:* Parties who choose to file by paper must file an original and four copies of each filing. Filings can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight U.S. Postal Service mail (although the Bureau continues to experience delays in receiving U.S. Postal Service mail). All filings must be addressed to the Commission's Secretary, Attn: WTB/ASAD, Office of the Secretary, Federal Communications Commission.

- The Commission's contractor will receive hand-delivered or messenger-delivered paper filings for the Commission's Secretary at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002. The filing hours at this location are 8 a.m. to 7 p.m. Eastern Time (ET). All hand deliveries must be held together with rubber bands

or fasteners. Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743.

- U.S. Postal Service first-class, Express, and Priority mail should be addressed to 445 12th Street, SW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Wireless Telecommunications Bureau, Auctions and Spectrum Access Division, for auctions legal questions: Stephen Johnson at (202) 418-0660. For general auction questions: Roy Knowles or Linda Sanderson at (717) 338-2888. Mobility Division, for service rules questions: Erin McGrath or Michael Connelly (legal) or Dwain Livingston (technical) at (202) 418-0620.

SUPPLEMENTARY INFORMATION: This is a summary of the Auction No. 71 Comment Public Notice released on November 17, 2006. The complete text of the Auction No. 71 Comment Public Notice, including attachments and related Commission documents, is available for public inspection and copying from 8 a.m. to 4:30 p.m. ET Monday through Thursday or from 8:00 a.m. to 11:30 a.m. ET on Fridays in the FCC Reference Information Center, Portals II, 445 12th Street, SW., Room CY-A257, Washington, DC 20554. The Auction No. 71 Comment Public Notice, including attachments and related Commission documents also may be purchased from the Commission's duplicating contractor, Best Copy and Printing, Inc. (BCPI), Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone 202-488-5300, facsimile 202-488-5563, or you may contact BCPI at its Web site: <http://www.BCPIWEB.com>. When ordering documents from BCPI, please provide the appropriate FCC document number for example, DA 06-2298. The Auction No. 71 Comment Public Notice and related documents also are available on the Internet at the Commission's Web site: <http://wireless.fcc.gov/auctions/71/>.

I. Introduction

1. The Wireless Telecommunications Bureau (Bureau) announces an auction of 38 broadband PCS licenses. This auction, which is designated Auction No. 71, is scheduled to commence on May 16, 2007.

II. Licenses To Be Offered in Auction No. 71

2. The spectrum to be auctioned has been offered previously in other auctions but was unsold and/or returned to the Commission as a result

of license cancellation or termination. A complete list of licenses available for Auction No. 71 is included as Attachment A of the *Auction No. 71 Comment Public Notice*.

3. Auction No. 71 includes licenses for A, C, D, E, and F blocks of broadband PCS spectrum. The table referenced in the *Auction No. 71 Comment Public Notice* cross-references the general rules regarding block/eligibility status/frequencies of broadband PCS licenses in these blocks. That table indicates that the C and F block licenses are divided into two tiers according to the population size, with Tier 1 comprising markets with population at or above 2.5 million, based on 2000 decennial census figures, and Tier 2 comprising the remaining markets. No Tier 1 licenses will be offered in Auction No. 71. C1, C2, C3, and C4 licenses in Tier 2 are generally available only to entrepreneurs in closed bidding. This eligibility restriction no longer applies, however, to licenses that have been made available on that basis, but not won, in any auction beginning on or after March 23, 1999. Thus, certain licenses that were formerly subject to closed bidding and available only to entrepreneurs are now offered in open bidding in Auction No. 71.

4. Attachment A of the *Auction No. 71 Comment Public Notice* list C block licenses being offered that are available to all bidders in open bidding, while others are available only to entrepreneurs in closed bidding. The A, B, E, and F block licenses, as well as certain C block licenses, are available in open bidding. Size-based bidding credits will be available for C and F block licenses won in open bidding. In order to qualify as an entrepreneur for closed bidding, an applicant, including attributable investors and affiliates, must have had gross revenues of less than \$125 million in each of the last two years and must have less than \$500 million in total assets. Size-based bidding credits are not available for C block licenses won in closed bidding or for licenses in the A, D, or E blocks.

5. Because of the previous history of licenses for broadband PCS spectrum, certain of the licenses available in Auction No. 71 cover less bandwidth and fewer frequencies than noted in the table referenced in the *Auction No. 71 Comment Public Notice*. In addition, in some cases, licenses are available for only part of a market.

6. *Incumbency Issues*. While much of the private and common carrier fixed microwave services (FMS) operating in the 1850–1990 MHz band (and other bands) have been relocated to available

frequencies in higher bands or to other media, some FMS licensees may still be operating in the band. Applicants should become familiar with the status of FMS operation and relocation, and applicable Commission rules and orders.

III. Bureau Seeks Comment on Auction Procedures

7. The Bureau seeks comment on the following issues relating to Auction No. 71.

A. Auction Structure

i. Simultaneous Multiple-Round Auction Design

8. The Bureau proposes to auction all licenses included in Auction No. 71 using the Commission's standard simultaneous multiple-round (SMR) auction format. This type of auction offers every license for bid at the same time and consists of successive bidding rounds in which eligible bidders may place bids on individual licenses. Typically, bidding remains open on all licenses until bidding stops on every license. The Bureau seeks comment on this proposal.

9. *Auction Format*. The Bureau has considered the possibility of using a simultaneous multiple-round auction format with package bidding (SMR–PB), but does not believe that an SMR–PB format is likely to offer significant advantages to bidders in Auction No. 71, given the nature of the auction inventory. Under the Commission's SMR–PB rules, bidders can place bids on any groups of licenses they wish to win together, with the result that they win either all the licenses in a group or none of them. The Bureau's standard SMR auction format offers all licenses for bid at the same time, and allows bidders to bid on and win multiple licenses on a license-by-license basis, thereby facilitating aggregations. The Bureau believes use of the SMR format for Auction No. 71 will be the simplest and most efficient means of auctioning the licenses in this inventory, and therefore, the Bureau proposes to conduct the auction using its standard SMR auction format. However, if commenters believe that the SMR–PB design would offer significant benefits, the Bureau invites their comments and request that they describe what specific factors lead them to that conclusion.

10. *Information Available to Bidders Before and During an Auction*. The Bureau also seeks comment on whether to implement procedures that would limit the disclosure of information on bidder interests and identities relative to the information procedures that have

typically been used for Commission auctions. Commenters should indicate what factors support the position they take on this issue and specifically, how these factors apply to an auction of this nature, with a limited number of localized, mostly geographically non-contiguous licenses. Commenters should address whether technological considerations, equipment availability, or competitive concerns weigh in favor of or against limiting the disclosure of information on bidder interests and identities relative to most past Commission spectrum auctions, or whether the Commission should condition the implementation of such limits on a measure of the competitiveness of the auction, such as the eligibility ratio or a modified version of the eligibility ratio.

ii. Round Structure

11. The Commission will conduct Auction No. 71 over the Internet. Alternatively, telephonic bidding will also be available via the Auction Bidder Line. The toll-free telephone number for telephonic bidding will be provided to qualified bidders.

12. The auction will consist of sequential bidding rounds. The initial bidding schedule will be announced in a public notice to be released at least one week before the start of the auction.

13. The Bureau proposes to retain the discretion to change the bidding schedule in order to foster an auction pace that reasonably balances speed with the bidders' need to study round results and adjust their bidding strategies. Under this proposal, the Bureau may increase or decrease the amount of time for the bidding rounds and review periods, or the number of rounds per day, depending upon bidding activity levels and other factors. The Bureau seeks comment on this proposal.

iii. Stopping Rule

14. The Bureau has discretion to establish stopping rules before or during multiple round auctions in order to terminate the auction within a reasonable time. For Auction No. 71, the Bureau proposes to employ a simultaneous stopping rule approach. A simultaneous stopping rule means that all licenses remain available for bidding until bidding closes simultaneously on all licenses. More specifically, bidding will close simultaneously on all licenses after the first round in which no bidder submits any new bids, applies a proactive waiver, or submits a withdrawal. Thus, unless circumstances dictate otherwise, bidding will remain

open on all licenses until bidding stops on every license.

15. Further, the Bureau proposes to retain the discretion to exercise any of the following options during Auction No. 71: (a) Use a modified version of the simultaneous stopping rule. The modified stopping rule would close the auction for all licenses after the first round in which no bidder applies a waiver, places a withdrawal, or submits any new bids on any license for which it is not the provisionally winning bidder. Thus, absent any other bidding activity, a bidder placing a new bid on a license for which it is the provisionally winning bidder would not keep the auction open under this modified stopping rule; (b) keep the auction open even if no bidder submits any new bids, applies a waiver, or submits a withdrawal. In this event, the effect will be the same as if a bidder had applied a waiver. The activity rule, therefore, will apply as usual and a bidder with insufficient activity will either lose bidding eligibility or use a remaining waiver; and (c) declare that the auction will end after a specified number of additional rounds (special stopping rule). If the Bureau invokes this special stopping rule, it will accept bids in the specified final round(s) after which the auction will close.

16. The Bureau proposes to exercise these options only in certain circumstances, for example, where the auction is proceeding very slowly, there is minimal overall bidding activity, or it appears likely that the auction will not close within a reasonable period of time. Before exercising these options, the Bureau is likely to attempt to increase the pace of the auction by, for example, increasing the number of bidding rounds per day and/or changing the minimum acceptable bid percentage. The Bureau proposes to retain the discretion to use such stopping rule with or without prior announcement during the auction. The Bureau seeks comment on these proposals.

iv. Information Relating to Auction Delay, Suspension, or Cancellation

17. For Auction No. 71, the Bureau proposes that, by public notice or by announcement during the auction, the Bureau may delay, suspend, or cancel the auction in the event of natural disaster, technical obstacle, evidence of an auction security breach, unlawful bidding activity, administrative or weather necessity, or for any other reason that affects the fair and efficient conduct of competitive bidding. The Bureau may elect to resume the auction starting from the beginning of the current round, resume the auction

starting from some previous round, or cancel the auction in its entirety. Network interruption may cause the Bureau to delay or suspend the auction. The Bureau emphasizes that exercise of this authority is solely within the discretion of the Bureau, and its use is not intended to be a substitute for situations in which bidders may wish to apply their activity rule waivers. The Bureau seeks comment on this proposal.

B. Auction Procedures

i. Upfront Payments and Bidding Eligibility

18. The Bureau has delegated authority and discretion to determine an appropriate upfront payment for each license being auctioned. The upfront payment is a refundable deposit made by each bidder to establish eligibility to bid on licenses. Upfront payments related to the licenses for specific spectrum subject to auction protect against frivolous or insincere bidding and provide the Commission with a source of funds from which to collect payments owed at the close of the auction. With these factors in mind, the Bureau proposes to calculate upfront payments on a license-by-license basis using a formula based on bandwidth and license area population: $\$0.05 * \text{MHz} * \text{License Area Population}$ with a minimum of \$500 per license.

19. The Bureau further proposes that the amount of the upfront payment submitted by a bidder will determine the bidder's initial bidding eligibility in bidding units. The Bureau proposes that each license be assigned a specific number of bidding units equal to the upfront payment listed in Attachment A of the *Auction No. 71 Comment Public Notice*, on a bidding unit per dollar basis. The number of bidding units for a given license is fixed and does not change during the auction as prices rise. A bidder's upfront payment is not attributed to specific licenses. Rather, a bidder may place bids on any combination of licenses it selected on its FCC Form 175 as long as the total number of bidding units associated with those licenses does not exceed its current eligibility. Eligibility cannot be increased during the auction; it can only remain the same or decrease. Thus, in calculating its upfront payment amount and hence its initial bidding eligibility, an applicant must determine the maximum number of bidding units it may wish to bid on (or hold provisionally winning bids on) in any single round, and submit an upfront payment amount covering that total number of bidding units. Provisionally winning bids are bids that would

become final winning bids if the auction were to close in that given round.

20. The proposed number of bidding units for each license and associated upfront payment amounts are listed in Attachment A of the *Auction No. 71 Comment Public Notice*. The Bureau seeks comment on these proposals.

ii. Activity Rule

21. In order to ensure that the auction closes within a reasonable period of time, an activity rule requires bidders to bid actively throughout the auction, rather than wait until late in the auction before participating. A bidder's activity in a round will be the sum of the bidding units associated with any licenses upon which it places bids during the current round and the bidding units associated with any licenses for which it holds provisionally winning bids. Bidders are required to be active on a specific percentage of their current bidding eligibility during each round of the auction. Failure to maintain the requisite activity level will result in the use of an activity rule waiver, if any remain, or a reduction in the bidder's eligibility, possibly curtailing or eliminating the bidder's ability to place bids in the auction.

22. The Bureau proposes to divide the auction into two stages, each characterized by a different activity requirement. The auction will start in Stage One. The Bureau proposes that the auction generally will advance from Stage One to Stage Two when the auction activity level, as measured by the percentage of bidding units receiving new provisionally winning bids, is approximately twenty percent or below for three consecutive rounds of bidding. However, the Bureau further proposes that the Bureau retains the discretion to change stages unilaterally by announcement during the auction. In exercising this discretion, the Bureau will consider a variety of measures of bidder activity, including, but not limited to, the auction activity level, the percentage of licenses (as measured in bidding units) on which there are new bids, the number of new bids, and the percentage of increase in revenue. The Bureau seeks comment on these proposals.

23. For Auction No. 71, the Bureau proposes the following activity requirements:

Stage One: In each round of the first stage of the auction, a bidder desiring to maintain its current bidding eligibility is required to be active on licenses representing at least 80 percent of its current bidding eligibility. Failure to maintain the required activity level will result in a reduction in the bidder's

bidding eligibility in the next round of bidding (unless an activity rule waiver is used). During Stage One, a bidder's reduced eligibility for the next round will be calculated by multiplying the bidder's current round activity by five-fourths ($5/4$).

Stage Two: In each round of the second stage, a bidder desiring to maintain its current bidding eligibility is required to be active on 95 percent of its current bidding eligibility. Failure to maintain the required activity level will result in a reduction in the bidder's bidding eligibility in the next round of bidding (unless an activity rule waiver is used). During Stage Two, a bidder's reduced eligibility for the next round will be calculated by multiplying the bidder's current round activity by twenty-nineteenths ($20/19$).

24. The Bureau seeks comment on this proposal. Commenters that believe this activity rule should be modified should explain their reasoning and comment on the desirability of an alternative approach. Commenters are advised to support their claims with analyses and suggested alternative activity rules.

iii. Activity Rule Waivers and Reducing Eligibility

25. Use of an activity rule waiver preserves the bidder's eligibility despite the bidder's activity in the current round being below the required minimum level. An activity rule waiver applies to an entire round of bidding, not to particular licenses. Activity rule waivers can be either proactive or automatic and are principally a mechanism for auction participants to avoid the loss of bidding eligibility in the event that exigent circumstances prevent them from placing a bid in a particular round.

26. The FCC Auction System assumes that a bidder that does not meet the activity requirement would prefer to apply an activity rule waiver (if available) rather than lose bidding eligibility. Therefore, the system will automatically apply a waiver at the end of any bidding round in which a bidder's activity level is below the minimum required unless: (1) The bidder has no activity rule waivers remaining; or (2) the bidder overrides the automatic application of a waiver by reducing eligibility, thereby meeting the minimum requirement. If a bidder has no waivers remaining and does not satisfy the required activity level, its eligibility will be permanently reduced, possibly curtailing or eliminating the bidder's ability to place additional bids in the auction.

27. A bidder with insufficient activity may wish to reduce its bidding eligibility rather than use an activity rule waiver. If so, the bidder must affirmatively override the automatic waiver mechanism during the bidding round by using the reduce eligibility function in the FCC Auction System. In this case, the bidder's eligibility is permanently reduced to bring the bidder into compliance with the activity rule as described above. Reducing eligibility is an irreversible action. Once eligibility has been reduced, a bidder will not be permitted to regain its lost bidding eligibility, even if the round has not yet closed.

28. A bidder may apply an activity rule waiver proactively as a means to keep the auction open without placing a bid. If a bidder proactively applies an activity rule waiver (using the apply waiver function in the FCC Auction System) during a bidding round in which no bids or withdrawals are submitted, the auction will remain open and the bidder's eligibility will be preserved. An automatic waiver applied by the FCC Auction System in a round in which there are no new bids, withdrawals, or proactive waivers will not keep the auction open. A bidder cannot submit a proactive waiver after submitting a bid in a round, and submitting a proactive waiver will preclude a bidder from placing any bids in that round. Applying a waiver is irreversible; once a proactive waiver is submitted, that waiver cannot be unsubmitted, even if the round has not yet closed.

29. The Bureau proposes that each bidder in Auction No. 71 be provided with three activity rule waivers that may be used at the bidder's discretion during the course of the auction as set forth above. The Bureau seeks comment on this proposal.

iv. Reserve Price or Minimum Opening Bids

30. The Bureau proposes to establish minimum opening bid amounts for Auction No. 71. The Bureau believes a minimum opening bid amount, which has been used in other auctions, is an effective bidding tool for accelerating the competitive bidding process. The Bureau does not propose a separate reserve price for the licenses to be offered in Auction No. 71.

31. Specifically, for Auction No. 71, the Bureau proposes to calculate minimum opening bid amounts on a license-by-license basis using a formula based on bandwidth and license area population as follows: $\$0.05 * \text{MHz} * \text{License Area Population}$ with a minimum of \$500 per license. This

proposed minimum opening bid amount for each license available in Auction No. 71 is set forth in Attachment A of the *Auction No. 71 Comment Public Notice*. The Bureau seeks comment on this proposal.

32. If commenters believe that this minimum opening bid amount will result in unsold licenses, or is not a reasonable amount, or should instead operate as a reserve price, they should explain why this is so, and comment on the desirability of an alternative approach. Commenters are advised to support their claims with valuation analyses and suggested reserve prices or minimum opening bid amount levels or formulas. In establishing minimum opening bid amounts, the Bureau particularly seeks comment on such factors as the amount of spectrum being auctioned, levels of incumbency, the availability of technology to provide service, the size of the service areas, issues of interference with other spectrum bands and any other relevant factors that could reasonably have an impact on valuation of the licenses being auctioned. The Bureau seeks comment on whether, consistent with Section 309(j) of the Communications Act, the public interest would be served by having no minimum opening bid amount or reserve price.

v. Bid Amounts

33. The Bureau proposes that, in each round, eligible bidders be able to place a bid on a given license in any of nine different amounts. Under this proposal, the FCC Auction System interface will list the nine acceptable bid amounts for each license.

34. The first of the nine acceptable bid amounts is called the minimum acceptable bid amount. The minimum acceptable bid amount for a license will be equal to its minimum opening bid amount until there is a provisionally winning bid for the license. After there is a provisionally winning bid for a license, the minimum acceptable bid amount for that license will be equal to the amount of the provisionally winning bid plus a percentage of that bid amount calculated using the formula. In general, the percentage will be higher for a license receiving many bids than for a license receiving few bids. In the case of a license for which the provisionally winning bid has been withdrawn, the minimum acceptable bid amount will equal the second highest bid received for the license.

35. The percentage of the provisionally winning bid used to establish the minimum acceptable bid amount (the additional percentage) is calculated at the end of each round,

based on an activity index which is a weighted average of the number of bids in that round and the activity index from the prior round. Specifically, the activity index is equal to a weighting factor times the number of bids on the license in the most recent bidding round plus one minus the weighting factor times the activity index from the prior round. The additional percentage is determined as one plus the activity index times a minimum percentage amount, with the result not to exceed a given maximum. The additional percentage is then multiplied by the provisionally winning bid amount to obtain the minimum acceptable bid for the next round. The Commission will initially set the weighting factor at 0.5, the minimum percentage at 0.1 (10%), and the maximum percentage at 0.2 (20%). Hence, at these initial settings, the minimum acceptable bid for a license will be between ten percent and twenty percent higher than the provisionally winning bid, depending upon the bidding activity for the license. Equations and examples are shown in Attachment B of the *Auction No. 71 Comment Public Notice*.

36. The eight additional bid amounts are calculated using the minimum acceptable bid amount and a bid increment percentage. The first additional acceptable bid amount equals the minimum acceptable bid amount times one plus the bid increment percentage, rounded. If, for example, the bid increment percentage is ten percent, the calculation is (minimum acceptable bid amount) * (1 + 0.1), rounded, or (minimum acceptable bid amount) * 1.1, rounded; the second additional acceptable bid amount equals the minimum acceptable bid amount times one plus two times the bid increment percentage, rounded, or (minimum acceptable bid amount) * 1.2, rounded; the third additional acceptable bid amount equals the minimum acceptable bid amount times one plus three times the bid increment percentage, rounded, or (minimum acceptable bid amount) * 1.3, rounded; etc. The Bureau will round the results of these calculations, as well as the calculations to determine the minimum acceptable bid amounts, using its standard rounding procedures. For Auction No. 71, the Bureau proposes to use a bid increment percentage of ten percent to calculate the eight additional acceptable bid amounts.

37. The Bureau retains the discretion to change the minimum acceptable bid amounts, the parameters of the formula to determine the percentage of the provisionally winning bid used to determine the minimum acceptable bid,

and the bid increment percentage if it determines that circumstances so dictate. The Bureau will do so by announcement in the FCC Auction System during the auction. The Bureau seeks comment on its proposals for minimum acceptable bids amount and additional percentages as described in the *Auction No. 71 Comment Public Notice*.

vi. Provisionally Winning Bids

38. Provisionally winning bids are bids that would become final winning bids if the auction were to close in that given round. At the end of a bidding round, a provisionally winning bid for each license will be determined based on the highest bid amount received for the license. In the event of identical high bid amounts being submitted on a license in a given round (*i.e.*, tied bids), the Bureau will use a random number generator to select a single provisionally winning bid from among the tied bids. The remaining bidders, as well as the provisionally winning bidder, can submit higher bids in subsequent rounds. However, if the auction were to end with no other bids being placed, the winning bidder would be the one that placed the provisionally winning bid. If any bids are received on the license in a subsequent round, the provisionally winning bid again will be determined by the highest bid amount received for the license.

39. A provisionally winning bid will remain the provisionally winning bid until there is a higher bid on the license at the close of a subsequent round, unless the provisionally winning bid is withdrawn. Bidders are reminded that provisionally winning bids count toward activity for purposes of the activity rule.

vii. Bid Removal and Bid Withdrawal

40. For Auction No. 71, the Bureau proposes the following bid removal procedures. Before the close of a bidding round, a bidder has the option of removing any bid placed in that round. By removing selected bids in the FCC Auction System, a bidder may effectively unsubmit any bid placed within that round. In contrast to the bid withdrawal provisions, a bidder removing a bid placed in the same round is not subject to a withdrawal payment. Once a round closes, a bidder may no longer remove a bid.

41. A bidder may withdraw its provisionally winning bids using the withdraw bids function in the FCC Auction System. A bidder that withdraws its provisionally winning bid(s) is subject to the bid withdrawal payment provisions of the Commission

rules. The Bureau seeks comment on these bid removal and bid withdrawal procedures.

42. The Bureau proposes to limit each bidder to withdrawing provisionally winning bids in no more than two rounds during the course of the auction. The two rounds in which withdrawals may be used will be at the bidder's discretion; withdrawals otherwise must be in accordance with the Commission's rules. There is no limit on the number of provisionally winning bids that may be withdrawn in either of the rounds in which withdrawals are used. Withdrawals will remain subject to the bid withdrawal payment provisions specified in the Commission's rules.

C. Post-Auction Procedures

i. Establishing the Interim Withdrawal Payment Percentage

43. The Bureau seeks comment on the appropriate percentage of a withdrawn bid that should be assessed as an interim withdrawal payment, in the event that a final withdrawal payment cannot be determined at the close of the auction. In general, the Commission's rules provide that a bidder that withdraws a bid during an auction is subject to a withdrawal payment equal to the difference between the amount of the withdrawn bid and the amount of the winning bid in the same or subsequent auction(s). However, if a license for which there has been a withdrawn bid is neither subject to a subsequent higher bid nor won in the same auction, the final withdrawal payment cannot be calculated until a corresponding license is subject to a higher bid or won in a subsequent auction. When that final payment cannot yet be calculated, the bidder responsible for the withdrawn bid is assessed an interim bid withdrawal payment, which will be applied toward any final bid withdrawal payment that is ultimately assessed. The Commission recently amended its rules to provide that in advance of the auction, the Commission shall establish the percentage of the withdrawn bid to be assessed as an interim bid withdrawal payment between three percent and twenty percent.

44. The Commission has indicated that the level of the interim withdrawal payment in a particular auction will be based on the nature of the service and the inventory of the licenses being offered. Balancing the potential need for bidders to use withdrawals to avoid winning incomplete combinations of licenses with interest in deterring abuses of its bidding, the Bureau proposes a percentage below the

maximum twenty percent permitted under the current rules but above the three percent previously provided by the Commission's rules. Specifically, the Bureau proposes to establish the percentage of the withdrawn bid to be assessed as an interim bid withdrawal payment at fifteen percent for this auction. The Bureau seeks comment on this proposal.

ii. Establishing the Additional Default Payment Percentage

45. Any winning bidder that defaults or is disqualified after the close of an auction (*i.e.*, fails to remit the required down payment within the prescribed period of time, fails to submit a timely long-form application, fails to make full payment, or is otherwise disqualified) is liable for a default payment under 47 CFR 1.2104(g)(2). This payment consists of a deficiency payment, equal to the difference between the amount of the bidder's bid and the amount of the winning bid the next time a license covering the same spectrum is won in an auction, plus an additional payment equal to a percentage of the defaulter's bid or of the subsequent winning bid, whichever is less. Until recently this additional payment for non-combinatorial auctions has been set at three percent of the defaulter's bid or of the subsequent winning bid, whichever is less.

46. The *CSEA/Part 1 Report and Order*, 71 FR 6214, February 7, 2006, modified § 1.2104(g)(2) by, *inter alia*, increasing the three percent limit on the additional default payment for non-combinatorial auctions to twenty percent. Under the modified rule, the Commission will, in advance of each non-combinatorial auction, establish an additional default payment for that auction of three percent up to a maximum of twenty percent. As the Commission has indicated, the level of this payment in each case will be based on the nature of the service and the inventory of the licenses being offered.

47. For Auction No. 71, the Bureau proposes to establish an additional default payment of ten percent. Balancing these considerations, the Bureau proposes an additional default payment of ten percent of the relevant bid. The Bureau seeks comment on this proposal.

IV. Conclusion

48. This proceeding has been designated as a permit-but-disclose proceeding in accordance with the Commission's *ex parte* rules. Persons making oral *ex parte* presentations are reminded that memoranda summarizing the presentations must contain

summaries of the substance of the presentations and not merely a listing of the subjects discussed. More than a one or two sentence description of the views and arguments presented is generally required. Other rules pertaining to oral and written *ex parte* presentations in permit-but-disclose proceedings are set forth in § 1.1206(b) of the Commission's rules.

Federal Communications Commission.

Gary D. Michaels,

Deputy Chief, Auctions and Spectrum Access Division, WTB.

FEDERAL MEDIATION AND CONCILIATION SERVICE

Proposed Agency Information Collection Activities; Comment Request

AGENCY: Federal Mediation and Conciliation Service

ACTION: Notice of Forms R-22, R-19, R-43 and F-7 to be submitted for extension to the Office of Management and Budget.

SUMMARY: This notice announces that four information collection requests contained among the Federal Mediation and Conciliation Service (FMCS) agency forms have come up for renewal. FMCS will submit to the Office of Management and Budget (OMB) a request for review of these four FMCS forms: Arbitrator's Report and Fee Statement (Agency Form R-19), Arbitrator's Personal Data Questionnaire (Agency Form R-22), Request for Arbitration Services (Agency Form R-43) and Notice to Mediation Agencies (Agency Form F-7). The request will seek OMB approval for a three-year extension with an expiration date of January 31, 2010, for Forms R-19, R-22, R-43 and F-7. FMCS is soliciting comments on specific aspects of the collections as described below.

DATES: Comments must be submitted on or before January 29, 2007.

ADDRESSES: Submit written comments by mail to the Office of Arbitration Services, Federal Mediation and Conciliation Service, 2100 K Street, NW., Washington, DC 20427 or by contacting the person whose name appears under the section headed **FOR FURTHER INFORMATION CONTACT**.

Comments may be submitted also by fax at (202) 606-3749 or electronic mail (e-mail) to arbitration@fmcs.gov. All comments must be identified by the appropriate agency form number.

No confidential business information (CBI) should be submitted through e-mail. Information submitted as a comment concerning this document may be claimed confidential by marking any part or all of the information as "CBI". Information so marked will not be disclosed but a copy of the comment that does contain CBI must be submitted for inclusion in the public record. FMCS may disclose information not marked confidential publicly without prior notice. All written comments will be available for inspection in Room 704 at the Washington, DC address above from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays.

FOR FURTHER INFORMATION CONTACT:

Vella M. Traynham, Director of Arbitration Services, FMCS, 2100 K Street, NW., Washington, DC 20427. Telephone (202) 606-5111; Fax (202) 606-3749.

SUPPLEMENTARY INFORMATION: Copies of each of the agency forms are available from the Office of Arbitration Services by calling, faxing or writing Vella M. Traynham at the address above. Please ask for the form by title and agency form number.

I. Information Collection Requests

FMCS is seeking comments on the following Information Collection Requests (ICRs).

Title: Arbitrator's Personal Data Questionnaire; Form R-22; OMB No. 3076-0001; Expiration date: January 31, 2006.

Type of Request: Extension of a previously approved collection with no change in the substance or method of collection.

Affected Entities: Parties affected by this information collection are individuals who apply for admission to the FMCS Roster of Arbitrators.

Frequency: Individuals complete this form once, which is at the time of application to the FMCS Roster of Arbitrators.

Abstract: Title II of the Labor Management Relations Act of 1947 (Pub. L. 90-101) as amended in 1959 (Pub. L. 86-257) and 1974 (Pub. L. 93-360), states that it is the labor policy of the United States that "the settlement of issues between employers and employees through collective bargaining may be advanced by making available full and adequate governmental facilities for conciliation, mediation, and voluntary arbitration to aid and encourage employers and representatives of their employees to reach and maintain agreements concerning rates of pay, hours, and working conditions, and to make all
