

Instructions: Direct your comments to docket ID number EPA-HQ-OPP-2006-0662. EPA's policy is that all comments received will be included in the docket without change and may be made available on-line at <http://www.regulations.gov>, including any personal information provided, unless the comment includes information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Do not submit information that you consider to be CBI or otherwise protected through [regulations.gov](http://www.regulations.gov) or e-mail. The Federal [regulations.gov](http://www.regulations.gov) website is an "anonymous access" system, which means EPA will not know your identity or contact information unless you provide it in the body of your comment. If you send an e-mail comment directly to EPA without going through [regulations.gov](http://www.regulations.gov), your e-mail address will be automatically captured and included as part of the comment that is placed in the docket and made available on the Internet. If you submit an electronic comment, EPA recommends that you include your name and other contact information in the body of your comment and with any disk or CD-ROM you submit. If EPA cannot read your comment due to technical difficulties and cannot contact you for clarification, EPA may not be able to consider your comment. Electronic files should avoid the use of special characters, any form of encryption, and be free of any defects or viruses.

Docket: All documents in the docket are listed in the docket index. Although listed in the index, some information is not publicly available, e.g., CBI or other information whose disclosure is restricted by statute. SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are an agricultural producer, food manufacturer, or pesticide manufacturer. Potentially affected entities may include, but are not limited to:

- Crop production (NAICS code 111).
- Animal production (NAICS code 112).
- Food manufacturing (NAICS code 311).
- Pesticide manufacturing (NAICS code 32532).

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. What Should I Consider as I Prepare My Comments for EPA?

1. *Submitting CBI.* Do not submit this information to EPA through [regulations.gov](http://www.regulations.gov) or e-mail. Clearly mark the part or all of the information that you claim to be CBI. For CBI information in a disk or CD ROM that you mail to EPA, mark the outside of the disk or CD ROM as CBI and then identify electronically within the disk or CD ROM the specific information that is claimed as CBI. In addition to one complete version of the comment that includes information claimed as CBI, a copy of the comment that does not contain the information claimed as CBI must be submitted for inclusion in the public docket. Information so marked will not be disclosed except in accordance with procedures set forth in 40 CFR part 2.

2. *Tips for preparing your comments.* When submitting comments, remember to:

- i. Identify the document by docket ID number and other identifying information (subject heading, **Federal Register** date and page number).
- ii. Follow directions. The Agency may ask you to respond to specific questions or organize comments by referencing a

Code of Federal Regulations (CFR) part or section number.

iii. Explain why you agree or disagree; suggest alternatives and substitute language for your requested changes.

iv. Describe any assumptions and provide any technical information and/or data that you used.

v. If you estimate potential costs or burdens, explain how you arrived at your estimate in sufficient detail to allow for it to be reproduced.

vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Registration Applications

EPA received applications as follows to register pesticide products containing active ingredients not included in any previously registered products pursuant to the provision of section 3(c)(4) of FIFRA. Notice of receipt of these applications does not imply a decision by the Agency on the applications.

1. *File Symbol:* 52911-RO. *Applicant:* Bedoukian Research, Inc., 21 Finance Drive, Danbury, CT, 06810. *Product name:* Roctenol. Insect attractant. *Active ingredient:* R(-)-1-Octen-3-ol at 98.0%. *Proposal classification/Use:* Attractant. T. Peterson.

2. *File Symbol:* 69295-E. *Applicant:* Milwaukee Metropolitan Sewerage District, 260 West Seeboth Street, Milwaukee, WI 53204. *Product name:* Milorganite ® 6-2-0 Deer Repellent. vi. Provide specific examples to illustrate your concerns and suggest alternatives.

vii. Explain your views as clearly as possible, avoiding the use of profanity or personal threats.

viii. Make sure to submit your comments by the comment period deadline identified.

II. Did EPA Approve the Application?

The Agency approved the application after considering all required data on risks associated with the proposed use of coyote urine, and information on social, economic, and environmental benefits to be derived from use. Specifically, the Agency has considered the nature of the chemical and its pattern of use, application methods and rates, and level and extent of potential exposure. Based on these reviews, the Agency was able to make basic health and safety determinations which show that use of coyote urine when used in accordance with widespread and commonly recognized practice, will not generally cause unreasonable adverse effects to the environment.

III. Approved Application

The company submitted an application to EPA to register the pesticide product ShakeAway Deer Repellent Granules (EPA File Symbol 80917-1) containing the same chemical at 5 percent. However, since the notice of receipt of the application to register the product as required by section 3(c)(4) of FIFRA, as amended, did not publish in the **Federal Register**, interested parties may submit comments on or before October 6, 2006 for this product only.

Listed below is the application approved on March 28, 2006 for ShakeAway Deer Repellent Granules.

EPA issued a notice, published in the **Federal Register** of December 15, 2004 (69 FR 75063) (FRL-7687-7), which announced that Shake-Away, 2330 Whitney Avenue, Hamden, CT, 06518, had submitted an application to register the pesticide product, Deer Repellent Granules, an animal repellent (File Symbol 80917-R), containing 5% coyote urine. This product was not previously registered.

The application was approved on March 28, 2006, as Shake-Away Deer Repellent Granules (EPA Registration

Number 80917-1) as an animal repellent.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-8217-2]

Sole Source Aquifer Designation of the Troutdale Aquifer System; Clark County, WA

AGENCY: Environmental Protection Agency.

ACTION: Notice of Final Determination.

SUMMARY: Notice is hereby given that pursuant to Section 1424(e) of the Safe Drinking Water Act (42 U.S.C. 300h-3(e), Pub. L. 93-523), and in response to a petition from a group of Clark County residents (two private groups and 8 individuals), the U.S. Environmental Protection Agency (EPA) Region 10 Administrator has determined that the Troutdale aquifer system, in Clark County, Washington, is a sole or principal source of drinking water, and that if contaminated, would create a significant hazard to public health. As a result of this action, all Federal financially-assisted projects proposed over the designated aquifer system will be subject to EPA review to ensure that they do not create a significant hazard to public health.

DATES: This determination shall be promulgated for purposes of judicial review at 1 p.m. eastern time on September 20, 2006.

ADDRESSES: The information upon which this determination is based is available to the public and may be inspected during normal business hours at the EPA Region 10 Library, 1200 Sixth Avenue, Seattle, Washington 98101, or on the EPA Web site at: <http://yosemite.epa.gov/r10/water.nsf/Sole+Source+Aquifers/Program>.

FOR FURTHER INFORMATION CONTACT: Martha Lentz, Hydrogeologist, Office of Environmental Assessment, OEA-095, Environmental Protection Agency, Region 10, 1200 Sixth Avenue, Seattle, Washington 98101, 206-553-1593.

SUPPLEMENTARY INFORMATION:

I. Background

Section 1424(e) of the Safe Drinking Water Act states:

If the Administrator determines, on his own initiative or upon petition that an area has an aquifer which is the sole or principal drinking water source for the area and which, if contaminated, would create a significant hazard to public health, he shall publish notice of that determination in the **Federal Register**. After the publication of any such notice, no commitment for Federal financial assistance (through a grant, contract, loan guarantee, or otherwise) may be entered into for any project which the Administrator determines may contaminate such aquifer through a recharge zone so as to create a significant hazard to public health, but a commitment for Federal assistance may, if authorized under another provision of law, be entered into to plan or design the project to assure that it will not so contaminate the aquifer.

The EPA Region 10 Drinking Water Section received a draft sole source aquifer (SSA) petition in early November 2005 from a group of Clark County residents, who represent both individuals and private public interest groups. The petitioners were:

The Columbia Riverkeeper,
The Rosemere Neighborhood
Association,

Dvija Michael Bertish,
Dennis Dykes,
Thom McConathy,
Nathan Reynolds,
Karen Kingston,
Coleen Broad,
Richard Dyrland,
Dean Swanson.

A final petition was presented to EPA on November 29, 2005. On December 28, 2005, EPA sent a letter to the petitioners acknowledging that the agency considered the petition complete, and that the technical review process would begin.

In January 2006 EPA met with the petitioners to discuss expanding the aquifer system boundary to include more of the geologic formations. There was agreement to extend the boundary, and the petitioners agreed to provide updated values for population and drinking water use data. On January 17, 2006 the petitioners provided the adjusted water use and population data to EPA.

In February of 2006, the Troutdale aquifer system review was completed and the area appeared to meet all criteria for SSA designation. The legal and technical basis for the proposal was outlined in an EPA publication titled: "Draft Support Document for the Sole Source Aquifer Designation of the Troutdale Aquifer System". After a technical peer review and public
