BILLING CODE 4410–11–M

DEPARTMENT OF JUSTICE

Federal Bureau of Prisons

Notice of the Availability of the Record of Decision for Proposed Federal Correctional Institution—Berlin, NH

AGENCY: U.S. Department of Justice, Federal Bureau of Prisons.

ACTION: Notice of a Record of Decision.

SUMMARY: The U.S. Department of Justice, Federal Bureau of Prisons (BOP) announces the availability of the Record of Decision (ROD) concerning the Environmental Impact Statement (EIS) for the proposed development of a Federal Correctional Institution to be located in Berlin, Coos County, New Hampshire.

Background Information: Pursuant to Section 102(2)(c) of the National Environmental Policy Act of 1969 and the Council of Environmental Quality Regulations (40 CFR Parts 1500–1508), BOP has prepared Draft and Final EISs for the development of a medium-security Federal Correctional Institution to house approximately 1,230 adult male inmates, a satellite work camp to house approximately 128 minimum-security inmates, staff training facilities, and ancillary facilities in Berlin, New Hampshire.

Project Information: The BOP is responsible for carrying out judgements of the Federal courts whenever a period of confinement is ordered. Subsequently, the mission of the BOP is to protect society by confining offenders in the controlled environments of prisons and community-based facilities that are safe, humane, cost-efficient, and appropriately secure, and that provide work and other self-improvement opportunities to assist offenders in becoming law-abiding citizens. Approximately 162,200 inmates are currently housed within the 114 federal correctional institutions that have levels of security ranging from minimum to maximum; a number exceeding the combined rated capacities of all federal correctional facilities. Measures being taken to manage the growth of the federal inmate population include construction of new institutions, acquisition and adaptation of facilities originally intended for other purposes, expansion and improvement of existing correctional facilities, and expanded use of contract beds. Adding capacity through these various means allows the BOP to work toward the long-term goal of reduced system-wide crowding.

The proposed action in Berlin, New Hampshire, is part of the BOP’s comprehensive expansion effort and

would consist of construction and operation of a medium-security Federal Correctional Institution, a satellite work camp to house minimum-security inmates, staff training facilities, along with ancillary facilities. The principal function of the correctional facility would be to provide a safe, secure and humane environment for the care and custody of federal inmates, primarily from the Northeast region of the country. Upon activation, the facility would have a staff of approximately 300 to 350 full-time employees who would provide 24-hour supervision. Development of the proposed facility will necessitate the acquisition of approximately 700 acres of land by the BOP exclusive of lands which may be acquired for mitigation purposes.

The BOP evaluated alternatives as part of the EIS including the No Action Alternative, development of the proposed project at alternative locations nationwide, development of the proposed project at alternative locations within the Northeast United States, and development of the proposed project at one of four alternative sites located in Berlin, New Hampshire. Each of the four alternative sites located in Berlin, New Hampshire, is examined in detail in the Draft and Final EISs with development of the proposed project at Site A1 located northeast of downtown Berlin identified by the Draft and Final EISs as the Preferred Alternative.

The BOP issued a Draft EIS in March 2006 with publication of the Notice of Availability (NOA) in the **Federal Register** on March 24, 2006. The NOA provided for a 45-day public comment period which began on March 24, 2006, and ended on May 8, 2006. During the public comment period, the BOP held a public hearing concerning the proposed action and the Draft EIS on April 19, 2006. Approximately 200 individuals attended the public hearing which was held in Berlin, New Hampshire.

The Final EIS addressed comments received on the Draft EIS and publication of the NOA in the **Federal Register** concerning the Final EIS occurred on August 11, 2006. The 30-day review period for receipt of public comments concerning the Final EIS ended on September 11, 2006. Approximately 500 comment letters, post cards, and other forms of communication were received by the BOP during the Final EIS public review period. The comment letters received on the Final EIS are similar to comments received by the BOP on the Draft EIS and were considered in the decision presented in the ROD.

BOP provided written notices of the availability of the Draft EIS and Final

EIS in the **Federal Register**, two newspapers with local and regional circulations, and through three local public libraries. The BOP also distributed approximately 175 copies (each) of the Draft EIS and Final EIS to federal and state agencies, state and local governments, elected officials, interested organizations, and individuals.

Employment and Training Administration

Proposed Collection of the ETA 9048, Worker Profiling and Reemployment Services Activity and the ETA 9049, Worker Profiling and Reemployment Services Outcomes; Comment Request

ACTION: Notice.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a preclearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA95) [44 U.S.C. 3506(c)(2)(A)]. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. Currently, the Employment and Training Administration is soliciting comments

concerning the proposed extension of the collection of the ETA 9048, Worker Profiling and Reemployment Services Activity, and the ETA 9049, Worker Profiling and Reemployment Services Outcomes. A copy of the proposed information collection request (ICR) can be obtained by contacting the office listed below in the **ADDRESSES** section of this notice or by accessing: <http://www.doleta.gov/OMBCN/OMBControlNumber.cfm>.

SUPPLEMENTARY INFORMATION:

I. *Background:* The Worker Profiling and Reemployment Services (WPRS) program allows for the targeting of reemployment services to those most in need of services. The ETA 9048 and ETA 9049 are the only means of tracking the activities in the WPRS program. The ETA 9048 reports on the numbers and flows of claimants at the various stages of the WPRS system from initial profiling through the completion of specific reemployment services. This allows for evaluation and monitoring of the program. The ETA 9049 gives a limited, but inexpensive, look at the reemployment experience of profiled claimants who were referred to services by examining the state's existing wage record files to see in which quarter the referred individuals became employed, what wages they earned and whether they have changed industries.

II. *Desired Focus of Comments:* The Department of Labor is particularly interested in comments which:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

III. *Current Actions:* This collection continues to be needed to evaluate and monitor the WPRS program.
