Federal Energy Regulatory Commission

[Docket No. PF06-19-000]

Questar Overthrust Pipeline Company; Notice of Intent To Prepare an Environmental Impact Statement for the Proposed Wamsutter Expansion Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Meeting

April 3, 2006.

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental impact statement (EIS) that discusses the environmental impacts of the proposed Wamsutter Expansion Project (the Project). This project involves the construction and operation of facilities by Questar Overthrust Pipeline Company (Overthrust) in Lincoln and Sweetwater Counties, Wyoming. These facilities would include approximately 77 miles of 36-inch-diameter natural gas pipeline, two new compressor stations,

two new receipt points, and one new delivery point.

The Wamsutter Expansion Project is a necessary and supporting component of the overall Rockies Express Pipeline Project, Western Phase, currently under review in the Commission's Pre-Filing Process in Docket No. PF06-3-000. Therefore, the environmental analysis for the Wamsutter Expansion Project will be incorporated into the EIS being prepared for the Rockies Express Pipeline Project. The EIS will be used by the Commission in its decision-making process to determine whether the proposed facilities are in the public convenience and necessity.

This notice explains the scoping process that will be used to gather input from the public and interested agencies on the Project. Your input will help FERC staff determine which issues/impacts associated with the Project need to be evaluated in the EIS. Please note that the scoping period for the Project will close on May 5, 2006.

Comments may be submitted in written form or verbally. In lieu of or in addition to sending written comments, you are invited to attend the public scoping meeting that has been scheduled in the Project area. One scoping meeting is scheduled for April 24, 2006, in Rock Springs, Wyoming. Further instructions on how to submit written comments and additional details of the public scoping meeting are provided in the public participation section of this notice.

The Wamsutter Expansion Project is currently in the preliminary stages of design, and at this time a formal application has not been filed with the Commission. For this proposal, the Commission is initiating the National Environmental Policy Act (NEPA) review prior to receiving the application. This allows interested stakeholders to become involved early in Project planning and to identify and resolve issues before an application is filed with the FERC. A docket number (PF06-19-000) has been established to place information filed by Overthrust and related documents issued by the Commission into the public record.¹ Once a formal application is filed with the FERC, a new docket number will be established.

The Bureau of Land Management (BLM) is participating as a cooperating agency in the preparation of the EIS because the Project would cross Federal land under the jurisdiction of the Rawlins, Rock Springs, and Kemmerer
