#### Dynamic Random Access Memory Semiconductors from the Republic of Korea: Amended Final Results of Countervailing Duty Administrative Review

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**EFFECTIVE DATE:** April 11, 2006.

**FOR FURTHER INFORMATION CONTACT:** Ryan Langan, AD/CVD Operations, Office 1, Import Administration, International Trade Administration, U.S. Department of Commerce, 14th Street and Constitution Avenue, NW, Washington, DC 20230; telephone: (202) 482-2613.

#### SUPPLEMENTARY INFORMATION:

##### Background

On March 14, 2006, the Department of Commerce ("the Department") issued its *Final Results* in the countervailing duty administrative review of dynamic random access memory semiconductors from the Republic of Korea. See *Dynamic Random Access Memory Semiconductors from the Republic of Korea: Final Results of Countervailing Duty Administrative Review*, 71 FR 14174 (March 21, 2006) ("*Final Results*"). On March 21, 2006, Hynix Semiconductor, Inc. ("Hynix") filed timely ministerial error allegations pursuant to 19 CFR 351.224(c)(2). On March 27, 2006, Micron Technology,

Inc. ("the petitioner") responded to Hynix's allegations.

#### Scope of the Order

The products covered by this order are dynamic random access memory semiconductors (DRAMs) from Korea, whether assembled or unassembled. Assembled DRAMs include all package types. Unassembled DRAMs include processed wafers, uncut die, and cut die. Processed wafers fabricated in Korea, but assembled into finished semiconductors (DRAMs) outside Korea are also included in the scope. Processed wafers fabricated outside Korea and assembled into finished semiconductors in Korea are not included in the scope.

The scope of this order additionally includes memory modules containing DRAMs from Korea. A memory module is a collection of DRAMs, the sole function of which is memory. Memory modules include single in-line processing modules, single in-line memory modules, dual in-line memory modules, small outline dual in-line memory modules, Rambus in-line memory modules, and memory cards or other collections of DRAMs, whether unmounted or mounted on a circuit board. Modules that contain other parts that are needed to support the function of memory are covered. Only those modules that contain additional items which alter the function of the module to something other than memory, such as video graphics adapter boards and cards, are not included in the scope. This order also covers future DRAM module types.

The scope of this order additionally includes, but is not limited to, video random access memory, and synchronous graphics ram, as well as various types of DRAMs, including fast page-mode, extended data-out, burst extended data-out, synchronous dynamic RAM, rambus DRAM, and Double Data Rate DRAM. The scope also includes any future density, packaging, or assembling of DRAMs. Also included in the scope of this order are removable memory modules placed on motherboards, with or without a central processing unit, unless the importer of the motherboards certifies with U.S. Customs and Border Protection ("CBP") that neither it, nor a party related to it or under contract to it, will remove the modules from the motherboards after importation or, consistent with the Memorandum from Stephen J. Claeys to David M. Spooner, "*Final Scope Ruling*," dated January 12, 2006, unless the importer of the motherboards certifies with CBP that the motherboard is being imported for repair or
