

rather than state a specific dollar amount for the fee.

3. *Disclosure of dollar amount of fee for POS transactions.* The notice provided to the consumer in connection with a POS transaction under § 205.3(b)(3)(ii) must state the amount of the fee for a returned item if the dollar amount of the fee can be calculated at the time the notice is provided or mailed. For example, if notice is provided to the consumer at the time of the transaction, if the applicable state law sets a maximum fee that may be collected for a returned item based on the amount of the underlying transaction (such as where the amount of the fee is expressed as a percentage of the underlying transaction), the person collecting the fee must state the actual dollar amount of the fee on the notice provided to the consumer. Alternatively, if the amount of the fee to be collected cannot be calculated at the time of the transaction (for example, where the amount of the fee will depend on the number of days a debt continues to be owed), the person collecting the fee may provide a description of how the fee will be determined on both the posted notice as well as on the notice provided at the time of the transaction. However, if the person collecting the fee elects to send the consumer notice after the person has initiated an EFT to collect the fee, that notice must state the amount of the fee to be collected.

4. *Third party providing notice.* The person initiating an EFT to a consumer's account to electronically collect a fee for an item returned unpaid may obtain the authorization and provide the notices required under § 205.3(b)(3) through third parties, such as merchants.
