

www.uscg.mil/hq/g-m/nvic/03/NVIC_04-03_CH-1.pdf. SSAS notices can be provided through various media. The Coast Guard recently upgraded some of its internal communication systems, and as part of the upgrade, SSAS notices sent via e-mail will be redundantly routed so that a notice will reach the Coast Guard even if one Coast Guard computer network fails. The upgrade also required the revision of all Coast Guard e-mail addresses. Any vessel owner or operator whose SSAS relies on e-mail must make sure their equipment is updated with the new address, ssas@uscg.mil, and must correct the address ("pen and ink" will suffice) in the vessel's approved vessel security plan or SSAS annex. Include the new e-mail address in your next plan or SSAS annex submission to the Coast Guard's Marine Safety Center; but if this is the only change you are making to an approved plan or annex, you do not need to resubmit the plan or annex for re-approval, solely for that reason.

Notice of Availability of Final Environmental Impact Statement for the Atlantic Rim Natural Gas Development Project; Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of Availability of a Final Environmental Impact Statement (FEIS) for the Atlantic Rim Natural Gas Development Project, Rawlins, Wyoming.

SUMMARY: The Bureau of Land Management (BLM) announces the availability of the Atlantic Rim Natural Gas Development Project FEIS. The FEIS analyzes the environmental consequences of a proposed natural gas development and production operations on the 270,080 acre Atlantic Rim project area. The area is located within the administrative jurisdiction of the BLM Rawlins Field Office, and runs in an arc between Rawlins and Baggs in:

Tps. 12 to 20 N., Rs. 89 to 93 W.,

Sixth Principal Meridian, Carbon County, Wyoming

ADDRESSES: A copy of the FEIS has been sent to affected Federal, State, and local government agencies and to interested parties. The document is available electronically on the following Web site: <http://www.wy.blm.gov/rfo/nepa.htm>. If you are interested in viewing material referenced or posted to the BLM Web site, please contact the Rawlins Field Office.

Copies of the FEIS will be available for public inspection at the following locations:

- Bureau of Land Management, Wyoming State Office, 5353 Yellowstone Road, Cheyenne, Wyoming 82003.
- Bureau of Land Management, Rawlins Field Office, 1300 N. Third Street, Rawlins, Wyoming 82301.

FOR FURTHER INFORMATION CONTACT: Mr. David Simons, Project Lead, BLM Rawlins Field Office, 1300 N. Third Street, Rawlins, WY 82301. Requests for information may be sent electronically

to: atlantic_rim_eis_wymail@blm.gov. Mr. Simons may also be reached at (307) 328-4328.

SUPPLEMENTARY INFORMATION: Anadarko E & P Company, LP, is the lead proponent for a proposal to explore for and develop natural gas resources in the Atlantic Rim project area. Double Eagle Petroleum and Mining Company and Warren Resources, Inc., are also participating in this proposal. The Operators propose to drill up to 2,000 wells—1,800 completed to coal formations and 200 to other geologic targets for natural gas. Drilling would occur within the Atlantic Rim Project Area over the next 20 years with life-of-project expected to be 30 to 50 years. Well density completed in coal formations would be up to eight wells per 640-acre section of land; wells in other geologic formations would be spaced no tighter than four wells per section.

The proposal arises from the results of exploratory drilling under an interim drilling plan. Prior to preparation of the Atlantic Rim EIS, six exploratory plans of development (PODs) of up to 24 wells each were completed in areas believed to have potential for commercial quantities of natural gas within the project area. Approximately 325 oil and gas wells have been drilled or approved for drilling within the Atlantic Rim project area.

On June 26, 2001, the BLM published the Notice of Intent to prepare an EIS for the Atlantic Rim Natural Gas Development Project in the **Federal Register**. Based on issues and concerns identified during scoping and throughout the NEPA process, the Atlantic Rim FEIS focuses on impacts to air quality, biological and physical resources, transportation, socio-economics, and cumulative effects. In compliance with Section 7(c) of the Endangered Species Act, as amended, the FEIS includes a biological assessment for the purpose of identifying endangered or threatened species which may be affected by the Proposed Action.

On December 16, 2005, BLM published its Notice of Availability of the Draft EIS for this project in the **Federal Register**. The 60-day public comment period ended on February 16, 2006. Over 60,000 comments were received on the Draft EIS.

The Atlantic Rim FEIS analyzes four alternatives in detail:

1. The Proposed Action Alternative;
2. Alternative A—The No Action Alternative, which means the project as proposed would be rejected by the BLM;
3. Alternative B—See discussion below;
