

deposit of at least 20 percent of the appraised value of the parcel, and within 180 days thereafter submit the balance. Payment must be made in U.S. currency. If the balance of the purchase price is not received within the 180 days, the deposit shall be forfeited to the United States and the parcel will be declared unsold and reoffered on a continuing basis in accordance with the competitive sale procedures described in 43 CFR 2711.3-1.

The purchaser will be required to reimburse the BLM for the cost of publishing this Notice in the **Federal Register** and the newspaper notification. Payment for reimbursement of all publishing costs will be due along with the final payment of the sale parcel. Payments must be by certified check, postal money order, bank draft, or cashier's check payable to the "U.S. Department of the Interior, BLM". Failure to meet conditions established for this sale will void the sale and any monies received will be forfeited.

Acceptance of the direct sale offer constitutes an application for conveyance of the mineral estate in accordance with Section 209 of the Federal Land Policy and Management Act of 1976 (43 U.S.C. 1719). A nonrefundable fee of \$50.00 will be required from the purchaser for purchase of the mineral interests. Those mineral interests, to be conveyed simultaneously with the sale of the land, have been determined to have no known mineral value.

The following rights, reservations, and conditions will be included in the patent conveying the land:

1. A reservation to the United States for a right-of-way for ditches and canals constructed by the authority of the United States, Act of August 30, 1890 (43 U.S.C. 945).

2. The sale is for surface and subsurface estate with the following reservations: The patent will contain a reservation to the United States for all leasable minerals, together with the right to prospect for, mine and remove the same.

3. A covenant running with the land for that the portion of the land lying within the southeast corner of the property containing wetland-riparian habitat must be managed to protect and maintain the wetland-riparian habitat on a continuing basis.

4. The patent will be issued subject to all valid existing rights and reservations of record.

5. The patent would also include a notice and indemnification statement under the Comprehensive Environmental Response, Compensation and Liability Act (42 U.S.C. 9620)

holding the United States harmless from any release of hazardous materials that may have occurred as a result of the unauthorized use of the property by other parties.

6. Reservation OR 36509 to the United States Army Corps of Engineers for roads and dredging range structures.

7. Right-of-way OR 37075 to Coos County for a road, utilities and slope easement.

The above described land is hereby segregated from appropriation under the public land laws, including the mining laws, pending disposition of this action or 270 days from the date of publication of this notice in the **Federal Register**, whichever occurs first.

#### Public Comments

Detailed information concerning the sale, including the reservations, sale procedures and conditions, and planning and environmental documents, is available at the Coos Bay District Office, 1300 Airport Lane, North Bend, OR 97459.

Objections will be reviewed by the Coos Bay District Manager who may sustain, vacate, or modify this realty action. In absence of any objections, this realty action will become the final determination of the Department of the Interior.

Comments, including names, street addresses, and other contact information of respondents, will be available for public review. Individual respondents may request confidentiality. If you wish to request that the BLM consider withholding your name, street address, and other contact information (such as: Internet address, FAX or phone number) from public review or from disclosure under the Freedom of Information Act, you must state this prominently at the beginning of your comment. The BLM will honor requests for confidentiality on a case-by-case basis to the extent allowed by law. Anonymous comments will not be accepted. The BLM will make available for public inspection in their entirety all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses.

### National Park Service

#### Notice of Availability of a Final Environmental Impact Statement for the Fort King Special Resource Study

**SUMMARY:** Pursuant to Section 102(2)(C) of the National Environmental Policy

Act (NEPA) of 1969 the National Park Service (NPS) announces the availability of a Final Environmental Impact Statement (FEIS) for the Fort King Special Resource Study. The document describes ways that the NPS may assist in preserving the Fort King site by outlining four management alternatives for consideration by Congress, including a no-action alternative. The FEIS analyzes the environmental impacts of those alternatives considered for the future protection, interpretation, and management of the site's cultural resources. The 37-acre study area is located in the city of Ocala, Marion County, Florida.

**DATES:** There will be a 30-day waiting period beginning with the Environmental Protection Agency's publication of its Notice of Availability in the **Federal Register**.

**ADDRESSES:** Copies of the FEIS are available by contacting Tim Bemisderfer, Planning and Compliance Division, Southeast Region, National Park Service, 100 Alabama Street, SW., 1924 Building, Atlanta, Georgia 30303. An electronic copy of the FEIS is available on the internet at <http://parkplanning.nps.gov>.

**FOR FURTHER INFORMATION CONTACT:** Tim Bemisderfer, 404-562-3124, extension 693.

**SUPPLEMENTARY INFORMATION:** The official comment period for the Fort King Special Resources Study and Draft Environmental Impact Statement (DEIS) began on November 30, 2005, and ended on January 30, 2006. The public was actively engaged in reviewing the draft document with over 250 copies of the DEIS distributed to stakeholders throughout Florida and beyond. Two well attended public meetings were held in Ocala, Florida on January 18, 2006.

Public comment on the DEIS did not result in substantive changes to the alternatives in the FEIS. Alternative A is the no-action alternative. For the purposes of this study, it is assumed that the Fort King site would continue to be owned and managed cooperatively by the city of Ocala, Marion County, and the Ocala Chapter of the Daughters of the American Revolution. The site would remain predominantly undeveloped, public access would be restricted, and the site's archeological resources would be protected and preserved in an undistributed condition. Under Alternative B, the site's archeological resources would be preserved and interpreted in-situ. Alternative B takes a conservative

approach to site development that favors a simple and low cost implementation strategy. Under Alternative C, existing site infrastructure would be used as a base to quickly and efficiently provide public access and interpretive services. Alternative C favors a development strategy that builds upon a modest initial investment that can be expanded over time as additional funding and resources are secured. Under Alternative D, Fort King would highlight the site's strong association with nationally significant historical events and interpretive themes. Alternative D takes an ambitious approach to site development. Its larger initial investment in cultural landscape rehabilitation and visitor service infrastructure is intended to quickly establish the name recognition and credibility necessary to attract higher profile partners and compete for private and public financing.

**Authority:** The authority for publishing this notice is 40 CFR 1506.6.

The responsible official for the FEIS is Patricia A. Hooks, Regional Director, Southeast Region, National Park Service, 100 Alabama Street, SW., 1924 Building, Atlanta, Georgia 30303.

Dated: May 15, 2006.
