SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-54124; File No. SR-ISE-2005-49]

Self-Regulatory Organizations; International Securities Exchange, Inc.; Order Approving Proposed Rule Change and Amendment Nos. 1 and 2 Relating to Complex Order Execution

July 11, 2006.

I. Introduction

On October 4, 2005, the International Securities Exchange, Inc. ("ISE" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend ISE Rule 722, "Complex Orders," to allow the legs of an options-only complex order to be executed in penny increments. The ISE filed Amendment Nos. 1 and 2 to the proposal on February 1, 2006, and April 20, 2006, respectively.³ The proposed rule change, as amended by Amendment Nos. 1 and 2, was published for comment in the **Federal Register** on June 6, 2006.⁴ The Commission received no comments regarding the proposal, as amended. This order approves the proposed rule change, as amended.

II. Description of the Proposal

ISE Rule 722(b)(1) currently allows the options leg(s) of a stock-option order to be executed in one-cent increments, regardless of the minimum increment otherwise applicable to the individual options leg(s) of the order.⁵ The ISE

proposes to amend ISE Rule 722(b)(1) to allow options-only complex orders, as well as stock-option orders, to be executed in one-cent increments. The proposal retains the existing requirement under the ISE's rules that allows a complex order to take priority over established Public Customer interest in the marketplace only if at least one leg of the complex order trades at a price that is better than the corresponding bid or offer in the marketplace by at least one minimum trading increment, as provided in ISE Rule 710.⁶

III. Discussion

After careful review, the Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange and, in particular, with Section 6(b)(5) of the Act,⁷ which requires, among other things, that the rules of a national securities exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of, a free and open market and a national market system and, in general, to protect investors and the public interest.⁸ Specifically, the Commission believes that by allowing options-only complex orders to be executed in one-cent increments, the proposal may facilitate the execution of options-only complex orders by providing a greater number of price points at which such orders may be executed. As noted above, the ISE's rules will continue to require that at least one leg of a complex order trade at a price that is better than the corresponding bid or offer in the marketplace by at least one minimum trading increment, as provided in ISE Rule 710, when any of the established bids or offers in the marketplace consists of a Public Customer limit order.⁹

IV. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁰ that the proposed rule change (SR-ISE-2005-49), as amended, is approved.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

ACES is a neutral communications service that allows market participants to route orders to one another. ACES does not effect trade executions, and it does not report executed trades to “the tape.” Moreover, market participants receiving orders through ACES may execute them in any manner that they deem consistent with duties of best execution and other applicable industry obligations. As the ACES service can be of value to all market participants, both members and non-members of the NASD have historically been permitted to use it. Thus, today, there are a number of non-members who actually send their orders using the ACES system.

The rule set under which Nasdaq will shortly begin to operate as an exchange has for the first time included a description of ACES.⁶ However, as this description is currently worded, it would require that all ACES users be Nasdaq members, which would be a departure from the existing practice. Nasdaq proposes to adjust the applicable language in order to

eliminate this restriction entirely before Nasdaq begins operating as an exchange and to avoid denying access to ACES to non-members that wish to use it for either routing or receiving orders.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with section 6(b) of the Act⁷ in general and furthers the objectives of section 6(b)(5) of the Act⁸ in particular in that it is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing proposed rule change has become effective pursuant to section 19(b)(3)(A) of the Act⁹ and Rule 19b-4(f)(6)¹⁰ thereunder because it (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) does not become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, provided that the self-regulatory organization has given the Commission written notice of its intent to file the proposed rule change at least five business days prior to the filing date of the proposed rule change.¹¹

The Exchange has requested that the Commission waive the 30-day operative delay of Rule 19b-4(f)(6)(iii) so that the proposed rule change may become

⁷ 15 U.S.C. 78f(b).

⁸ 15 U.S.C. 78f(b)(5).

⁹ 15 U.S.C. 78s(b)(3)(A).

¹⁰ 17 CFR 240.19b-4(f)(6).

¹¹ As required under Rule 19b-4(f)(6)(iii), the Exchange provided the Commission with written notice of its intent to file the proposed rule change at least five days prior to the filing date.
