**Lease Terms and Conditions:** Initial periods, minimum bonus bid amounts, rental rates, royalty rates, minimum royalty, and royalty suspension areas are shown on the map "Lease Terms and Economic Conditions, Lease Sale 200, Final" for leases resulting from this lease sale:

**Initial Periods:** 5 years for blocks in water depths of less than 400 meters; 8 years for blocks in water depths of 400 to less than 800 meters (pursuant to 30 CFR 256.37, commencement of an exploratory well is required within the first 5 years of the initial 8-year term to avoid lease cancellation); and 10 years for blocks in water depths of 800 meters or deeper.

**Minimum Bonus Bid Amounts:** A bonus bid will not be considered for acceptance unless it provides for a cash bonus in the amount of \$25 or more per acre or fraction thereof for blocks in water depths of less than 400 meters or \$37.50 or more per acre or fraction thereof for blocks in water depths of 400 meters or deeper; to confirm the exact calculation of the minimum bonus bid amount for each block, see "List of Blocks Available for Leasing" contained in the FNOS 200 Package. Please note that bonus bids must be in whole dollar amounts (i.e., any cents will be disregarded by the MMS).

**Rental Rates:** \$6.25 per acre or fraction thereof for blocks in water depths of less than 200 meters and \$9.50 per acre or fraction thereof for blocks in water depths of 200 meters or deeper, to be paid on or before the first day of each lease year until a discovery in paying quantities of oil or gas, then at the expiration of each lease year until the start of royalty-bearing production.

**Royalty Rates:** 16 $\frac{2}{3}$  percent royalty rate for blocks in water depths of less than 400 meters and a 12 $\frac{1}{2}$  percent royalty rate for blocks in water depths of 400 meters or deeper, except during periods of royalty suspension, to be paid monthly on the last day of the month next following the month during which the production is obtained.

**Minimum Royalty:** After the start of royalty-bearing production: \$6.25 per acre or fraction thereof per year for blocks in water depths of less than 200 meters and \$9.50 per acre or fraction thereof per year for blocks in water depths of 200 meters or deeper, to be paid at the expiration of each lease year with credit applied for actual royalty paid during the lease year. If actual royalty paid exceeds the minimum royalty requirement, then no minimum royalty payment is due.

**Royalty Suspension Areas: (Leases With Royalty Suspension Volumes Are Authorized Under Existing MMS Rules at 30 CFR Part 260)**

*Deep Gas Royalty Suspensions*

Royalty suspension volumes, subject to price thresholds, will apply to certain gas production from wells completed to depths of at least 15,000 feet true vertical depth subsea (TVD SS) on leases located in water depths less than 400 meters, in accordance with regulations in effect at the time of production. Currently, the regulations are at 30 CFR 203.41-203.47, but these will be revised pursuant to section 344 of the Energy Policy Act of 2005, 42 U.S.C. 15904.

*Deep Water Royalty Suspensions*

Royalty suspension volumes, subject to price thresholds for both oil and gas, will apply to leases located in water depths of at least 400 meters, as prescribed in section 345 of the Energy Policy Act of 2005, 42 U.S.C. 15905, and applicable MMS rules.

See the map "Lease Terms and Economic Conditions, Lease Sale 200, Final" for specific areas and the "Royalty Suspension Provisions, Lease Sale 200, Final" document contained in the FNOS 200 Package for specific details regarding royalty suspension eligibility, applicable price thresholds and implementation.

**Lease Stipulations:** The map "Stipulations and Deferred Blocks, Lease Sale 200, Final" depicts the blocks on which one or more of five lease stipulations apply: (1) Topographic Features; (2) Military Areas; (3) Operations in the Naval Mine Warfare Area; (4) Law of the Sea Convention Royalty Payment; and (5) Protected Species. The texts of the stipulations are contained in the document "Lease Stipulations for Oil and Gas Lease Sale 200, Final" included in the FNOS 200 Package. In addition, the "List of Blocks Available for Leasing" contained in the FNOS 200 Package identifies for each block listed

the lease stipulations applicable to that block.

**Information to Lessees:** The FNOS 200 Package contains an "Information To Lessees" document which provides detailed information on certain specific issues pertaining to this oil and gas lease sale.

**Method of Bidding:** For each block bid upon, a bidder must submit a separate signed bid in a sealed envelope labeled "Sealed Bid for Oil and Gas Lease Sale 200, not to be opened until 9 a.m., Wednesday, August 16, 2006." The submitting company's name, its GOM Company number, the map name, map number, and block number should be clearly identified on the outside of the envelope. Please refer to the sample bid envelope included within the FNOS 200 Package. Please also refer to the Telephone Numbers/Addresses of Bidders Form included within the FNOS 200 Package. We are requesting that you provide this information in the format suggested for each lease sale. Please provide this information prior to or at the time of bid submission. Do not enclose this form inside the sealed bid envelope. The total amount of the bid must be in a whole dollar amount; any cent amount above the whole dollar will be ignored by the MMS. Details of the information required on the bid(s) and the bid envelope(s) are specified in the document "Bid Form and Envelope" contained in the FNOS 200 Package. A blank bid form has been provided for your convenience which may be copied and filled in.

The MMS published in the **Federal Register** a list of restricted joint bidders, which applies to this lease sale, at 71 FR 25227 on April 28, 2006. Please also refer to joint bidding provisions at 30 CFR 256.41 for additional information. Bidders must execute all documents in conformance with signatory authorizations on file in the MMS Gulf of Mexico Region Adjudication Unit. Partnerships also must submit or have on file a list of signatories authorized to bind the partnership. Bidders submitting joint bids must include on the bid form the proportionate interest of each participating bidder, stated as a percentage, using a maximum of five decimal places, e.g., 33.33333 percent. The MMS may require bidders to submit other documents in accordance with 30 CFR 256.46. The MMS warns bidders against violation of 18 U.S.C. 1860 prohibiting unlawful combination or intimidation of bidders. Bidders are advised that the MMS considers the signed bid to be a legally binding obligation on the part of the bidder(s) to comply with all applicable regulations, including payment of the one-fifth

bonus bid amount on all high bids. A statement to this effect must be included on each bid (see the document "Bid Form and Envelope" contained in the FNOS 200 Package).

**Rounding:** The following procedure must be used to calculate the minimum bonus bid, annual rental, and minimum royalty: Round up to the next whole acreage amount if the tract acreage contains a decimal figure prior to calculating the minimum bonus bid, annual rental, and minimum royalty amounts. The appropriate rate per acre is applied to the whole non-decimal (rounded up) acreage figure, and the resultant calculation is rounded up to the next whole dollar amount if the calculation results in a decimal figure (see next paragraph).

**Please note:** The minimum bonus bid calculation, including all rounding, is shown in the document "List of Blocks Available for Leasing in Lease Sale 200" included in the FNOS 200 Package.

**Bonus Bid Deposit:** Each bidder submitting an apparent high bid must submit a bonus bid deposit to the MMS equal to one-fifth of the bonus bid amount for each such bid. Under the authority granted by 30 CFR 256.46(b), the MMS requires bidders to use electronic funds transfer procedures for payment of one-fifth bonus bid deposits for Lease Sale 200, following the detailed instructions contained in the document "Instructions for Making EFT Bonus Payments" which can be found on the MMS Web site at <http://www.gomr.mms.gov/homepg/lseale/200/wgom200.html>. All payments must be electronically deposited into an interest-bearing account in the U.S. Treasury (account specified in the EFT instructions) by 11 a.m. Eastern Time the day following bid reading. Such a deposit does not constitute and shall not be construed as acceptance of any bid on behalf of the United States. If a lease is awarded, however, MMS requests that only one transaction be used for payment of the four-fifths bonus bid amount and the first year's rental.

**Please note:** Certain bid submitters (i.e., those that are NOT currently an OCS mineral lease record title holder or designated operator OR those that have ever defaulted on a one-fifth bonus bid payment (EFT or otherwise)) are required to guarantee (secure) their one-fifth bonus bid payment prior to the submission of bids. For those who must secure the EFT one-fifth bonus bid payment, one of the following options may be used: (1) Provide a third-party guarantee; (2) Provide development bond coverage; (3) Provide a letter of credit; or (4) Provide a lump sum payment in advance via EFT. The EFT instructions specify the requirements for each option.

**Withdrawal of Blocks:** The United States reserves the right to withdraw any block from this lease sale prior to issuance of a written acceptance of a bid for the block.

**Acceptance, Rejection, or Return of Bids:** The United States reserves the right to reject any and all bids. In any case, no bid will be accepted, and no lease for any block will be awarded to any bidder, unless the bidder has complied with all requirements of this Notice, including the documents contained in the associated FNOS 200 Package and applicable regulations; the bid is the highest valid bid; and the amount of the bid has been determined to be adequate by the authorized officer. Any bid submitted which does not conform to the requirements of this Notice, the Act, and other applicable regulations may be returned to the person submitting that bid by the RD and not considered for acceptance. The Attorney General may also review the results of the lease sale prior to the acceptance of bids and issuance of leases. To ensure that the Government receives a fair return for the conveyance of lease rights for this lease sale, high bids will be evaluated in accordance with MMS bid adequacy procedures. A copy of current procedures, "Modifications to the Bid Adequacy Procedures" at 64 FR 37560 on July 12, 1999, can be obtained from the MMS Gulf of Mexico Region Public Information Unit or via the MMS Internet Web site at <http://www.gomr.mms.gov/homepg/lseale/bidadeq.html>.

**Successful Bidders:** As required by the MMS, each company that has been awarded a lease must execute all copies of the lease (Form MMS-2005 (March 1986) as amended), pay by EFT the balance of the bonus bid amount and the first year's rental for each lease issued in accordance with the requirements of 30 CFR 218.155, and satisfy the bonding requirements of 30 CFR part 256, subpart I, as amended.

Also, in accordance with regulations at 43 CFR, part 42, subpart C, the lessee shall comply with the U.S. Department of the Interior's nonprocurement debarment and suspension requirements and agrees to communicate this requirement to comply with these regulations to persons with whom the lessee does business as it relates to this lease by including this term as a condition to enter into their contracts and other transactions.

**Affirmative Action:** The MMS requests that, prior to bidding, Equal Opportunity Affirmative Action Representation Form MMS 2032 (June 1985) and Equal Opportunity

Compliance Report Certification Form MMS 2033 (June 1985) be on file in the MMS Gulf of Mexico Region Adjudication Unit. This certification is required by 41 CFR part 60 and Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375 of October 13, 1967. In any event, prior to the execution of any lease contract, both forms are required to be on file in the MMS Gulf of Mexico Region Adjudication Unit.

*Geophysical Data and Information Statement:* Pursuant to 30 CFR 251.12, the MMS has a right to access geophysical data and information collected under a permit in the OCS. Every bidder submitting a bid on a block in Sale 200, or participating as a joint bidder in such a bid, must submit a Geophysical Data and Information Statement identifying any processed or reprocessed pre- and post-stack depth migrated geophysical data and information in its possession or control and used in the evaluation of that block. The existence, extent (*i.e.*, number of line miles for 2D or number of blocks for 3D) and type of such data and information must be clearly identified. The statement must include the name and phone number of a contact person, and an alternate, knowledgeable about the depth data sets (that were processed or reprocessed to correct for depth) used in evaluating the block. In the event such data and information includes data sets from different timeframes, you should identify only the most recent data set used for block evaluations.

The statement must also identify each block upon which a bidder participated in a bid but for which it does not possess or control such depth data and information.

Every bidder must submit a separate Geophysical Data and Information Statement in a sealed envelope. The envelope should be labeled "Geophysical Data and Information Statement for Oil and Gas Lease Sale 200" and the bidder's name and qualification number must be clearly identified on the outside of the envelope. This statement must be submitted to the MMS at the Gulf of Mexico Regional Office, Attention: Resource Evaluation (1201 Elmwood Park Boulevard, New Orleans, Louisiana 70123-2394) by 10 a.m. on Tuesday, August 15, 2006. The statement may be submitted in conjunction with the bids or separately. Do not include this statement in the same envelope containing a bid. These statements will not be opened until after the public bid reading at Lease Sale 200 and will be kept confidential. An Example of

Preferred Format for the Geophysical Data and Information Statement is included in the FNOS 200 Package. Please also refer to a sample of the Geophysical Envelope—Preferred Format included within the FNOS 200 Package.

Please refer to NTL No. 2003-G05 for more detail concerning submission of the Geophysical Data and Information Statement, making the data available to the MMS following the lease sale, preferred format, reimbursement for costs, and confidentiality.

Dated: July 11, 2006.

*Title:* Diversions, Return Flows, and Consumptive Use of Colorado River Water in the Lower Colorado River Basin.

*OMB No.:* 1006-0015.

*Abstract:* Reclamation delivers Colorado River water to water users for diversion and beneficial consumptive use in the States of Arizona, California, and Nevada. Under Supreme Court order, the United States is required, at least annually, to prepare and maintain complete, detailed, and accurate records of diversions of water, return flow, and consumptive use. This information is needed to ensure that a State or a water user within a State does not exceed its authorized use of Colorado River water. Water users are obligated by provisions in their water delivery contracts to provide Reclamation information on diversions and return flows. Reclamation determines the consumptive use by subtracting return flow from diversions or by other engineering means. Without the information collected, Reclamation could not comply with the order of the United States Supreme Court to prepare and maintain detailed and accurate records of diversions, return flow, and consumptive use.

*Description of respondents:* The Lower Basin States (Arizona, California,
