*Title:* NPDES Stormwater Program Phase II.

*ICR numbers:* EPA ICR No. 1820.04, OMB Control No. 2040-0211.

*ICR Status:* This ICR is scheduled to expire on September 30, 2006. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* This ICR calculates the burden and costs associated with the

regulation of stormwater discharges under Phase II of the NPDES stormwater program. Specifically, it calculates the burden associated with small MS4 stormwater permits, small construction (1-5 acres) permits and waivers, and the no-exposure certification (EPA form 3510-11) available to industrial facilities. The ICR also specifies the burden on authorized NPDES States to process and administer the Phase II program.

*Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 14 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

*Respondents/Affected Entities:* Entities potentially affected by this action are NPDES permittees, including operators of small municipal separate storm sewer systems, small construction activity, and industrial facilities identified in 40 CFR 122.26(b)(14)(i)-(ix) and (xi) that qualify for a no exposure exemption.

*Estimated Number of Respondents:* 135,908.

*Frequency of Response:* Varies.

*Estimated Total Annual Hour Burden:* 3,696,276 hours.

*Estimated Total Annual Cost:* \$157,922,968, includes \$0 annualized capital or O&M costs.

*Changes in the Estimates:* The estimated decrease in burden is 1,262,076 hours compared to the total estimated burden hours currently identified in the OMB Inventory of Approved ICR Burdens. This change is primarily the result of the decrease in the estimated size of the regulated universe (based on EPA's estimate of the number of construction sites affected by this information collection).

**What Information Is EPA Particularly Interested in?**

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

- (i) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- (iii) enhance the quality, utility, and clarity of the information to be collected; and
- (iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

**What Should I Consider When I Prepare My Comments for EPA?**

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Offer alternative ways to improve the collection activity.
6. Make sure to submit your comments by the deadline identified under **DATES**.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

**What Information Collection Activity or ICR Does This Apply to?**

*Affected entities:* Entities potentially affected by this action are businesses or other for-profit entities.

*Title:* Confidentiality Rules (Renewal).

*ICR numbers:* EPA ICR No. 1665.07, OMB Control No. 2020-0003.

*ICR status:* This ICR is currently scheduled to expire on November 30, 2006. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

*Abstract:* In the course of administering environmental protection statutes, EPA collects data from thousands of facilities in many sectors of the U.S. economy. In many cases, industry marks the data it submits to EPA as CBI. In addition, businesses submit information to EPA without the Agency requesting the information. EPA established the procedures described in 40 CFR part 2, subparts A and B, to protect the confidentiality of information as well as the rights of the public to obtain access to information under the Freedom of Information Act (FOIA). In accordance with these regulations, when EPA finds it necessary to make a final confidentiality determination (e.g., in response to a FOIA request or in the course of rulemaking or litigation), or in advance confidentiality determination, it shall notify the effected business and provides an opportunity to comment (i.e., to submit a substantiation of confidentiality claim). This ICR relates to the collection of information that will assist EPA in determining whether previously submitted information is entitled to confidential treatment.

*Current Burden Statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 14 hours to prepare and submit each substantiation or 6,302 hours. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire,

install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjusting the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; training personnel to be able to respond to a collection of information; searching data sources; completing and reviewing the collection of information; and transmitting or otherwise disclosing the information.

In addition, EPA utilizes the services of contractors/subcontractors under the authority of 40 CFR part 2, subpart B, all contractors/subcontractors who may be given access to confidential business information must first sign confidentiality agreements state that they will honor the terms of the contract/subcontract which requires the protection of CBI. The annual total burden for signing and maintaining the agreements would be 130.3 hours.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

*Estimated total number of potential respondents:* 1,330.

*Frequency of response:* On occasion.

*Estimated total average number of responses for each respondent:* 1.

*Estimated total annual burden hours:* 6,432.3 hours.

*Estimated total annual costs:*

\$212,185.24. This includes an estimated burden cost of \$0 for capital investment or maintenance and operational costs.

#### Are There Changes in the Estimates From the Last Approval?

No.

#### What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: July 8, 2006.
