

install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjusting the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; training personnel to be able to respond to a collection of information; searching data sources; completing and reviewing the collection of information; and transmitting or otherwise disclosing the information.

In addition, EPA utilizes the services of contractors/subcontractors under the authority of 40 CFR part 2, subpart B, all contractors/subcontractors who may be given access to confidential business information must first sign confidentiality agreements state that they will honor the terms of the contract/subcontract which requires the protection of CBI. The annual total burden for signing and maintaining the agreements would be 130.3 hours.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:

Estimated total number of potential respondents: 1,330.

Frequency of response: On occasion.

Estimated total average number of responses for each respondent: 1.

Estimated total annual burden hours: 6,432.3 hours.

Estimated total annual costs:

\$212,185.24. This includes an estimated burden cost of \$0 for capital investment or maintenance and operational costs.

Are There Changes in the Estimates From the Last Approval?

No.

What Is the Next Step in the Process for This ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in FDMS as EPA receives them without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in FDMS. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, see EPA's **Federal Register** notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to <http://www.regulations.gov>.

Title: NSPS for Electric Utility Steam Generating Units (Renewal).

EPA ICR Number: 1053.08; OMB Control Number 2060-0023.

This is a request to renew an existing approved collection that is scheduled to expire on July 31, 2006. Under the OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: Owners or operators of electric utility steam generating units subject to the New Source Performance Standards (NSPS) subpart Da must make one-time notification of construction/reconstruction, anticipated and actual startup, initial performance test, physical or operational changes, and demonstration of a continuous monitoring system. They also must submit a report on initial performance test results, monitoring results, and excess emissions. Records must be maintained of startups, shutdowns, malfunctions, periods when the continuous monitoring system is inoperative, and of various fuel combustion and pollutant emission parameters.

The required notifications are used to inform the Agency or delegated authority when a source becomes subject to the standard. Performance test reports are needed, as these are the Agency's records of a source's initial capability to comply with the emission standard, and serve as a record of the operating conditions under which compliance was achieved. The monitoring and excess emissions reports are used for problem identification, as a check on source operation and maintenance, and for compliance determination. The information collected from recordkeeping and reporting requirements are used for targeting inspections and for other uses in compliance and enforcement programs.

Responses to these information collections are deemed mandatory by section 114(a) of the Clean Air Act. The required information consists of emissions data and other information that have been determined not to be private. However, any information submitted to the Agency for which a claim of confidentiality is made will be safeguarded according to the Agency policies set forth in Title 40, Chapter 1, Part 2, Subpart B—Confidentiality of Business Information (see 40 CFR 2; 41 FR 36902, September 1, 1976; amended by 43 FR 4000, September 8, 1978; 43 FR 42251, September 20, 1978; 44 FR 17674, March 23, 1979).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB

control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR chapter 15, and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 85 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to respond to a collection of information; search data sources; complete and review the collection of information; and transmit, or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of electric utility steam generating units subject to subpart Da.

Estimated Number of Respondents: 655.

Frequency of Response: Semiannually, quarterly.

Estimated Total Annual Hour Burden: 133,553.

Estimated Total Annual Cost: \$19,490,000, includes \$2,200,000 annualized capital and \$9,660,000 O&M costs.

Dated: July 8, 2006.

Oscar Morales,

Director, Collection Strategies Division.
