Approval and Promulgation of Air Quality Implementation Plans; Colorado; Revisions to Regulation No. 1; Proposed Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a State Implementation Plan (SIP) revision submitted by the State of Colorado on April 12, 2004. This revision makes a minor change to Colorado Regulation No. 1. The intended effect of this action is to make federally enforceable those provisions that EPA is approving. In the "Rules and Regulations" section of this **Federal Register**, EPA is approving the State's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial SIP revision and anticipates no adverse comments. A detailed rationale for the approval is set forth in the preamble to the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period on this action. Any parties interested in commenting must do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment.

DATES: Written comments must be received on or before April 24, 2006.

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD) portion of the California State Implementation Plan (SIP). These revisions concern volatile organic compound (VOC) emissions from components at petroleum refineries, chemical plants, light crude oil production facilities, and natural gas production and processing facilities. We are proposing to approve local rules to regulate these emission sources under the Clean Air Act as amended in 1990 (CAA or the Act).

DATES: Any comments on this proposal must arrive by April 24, 2006.

ADDRESSES: Submit comments, identified by docket number EPA-R09-OAR-2005-0556b, by one of the following methods:

1. Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the on-line instructions.

3. Mail or deliver: Andrew Steckel (Air-4), U.S. Environmental Protection Agency Region IX, 75 Hawthorne Street, San Francisco, CA 94105-3901.

SUPPLEMENTARY INFORMATION: This proposal addresses SJVUAPCD Rules 4403, 4409, 4451, 4452, and 4455. In the Rules and Regulations section of this **Federal Register**, we are approving these local rules in a direct final action without prior proposal because we believe these SIP revisions are not controversial. However, if we receive adverse comments, we will publish a timely withdrawal of the direct final rule and address the comments in subsequent action based on this proposed rule. Please note that if we receive adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, we may adopt as final those provisions of the rule that are not the subject of an adverse comment.

We do not plan to open a second comment period, so anyone interested in commenting should do so at this time. If we do not receive adverse comments, no further activity is planned. For further information, please see the direct final action.

Approval and Promulgation of Implementation Plans; Mississippi Prevention of Significant Deterioration and New Source Review

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve revisions to the Mississippi State Implementation Plan (SIP) to include changes made to Mississippi regulations entitled, "Permit Regulations for the Construction and Operation of Air Emissions Equipment" and "Regulations for the Prevention of Significant Deterioration of Air Quality." The proposed revisions amend the State permitting rules in order to address changes to the federal New Source Review (NSR) regulations, which were promulgated by EPA on December 31, 2002 (67 FR 80186) and reconsidered with minor changes on November 7, 2003 (68 FR 63021) (collectively, these two final actions are called the "2002 NSR Reform Rules"). EPA's 2002 NSR Reform Rules, proposed for inclusion in the Mississippi SIP, contain provisions for baseline emissions calculations, an actual-to-projected-actual methodology for calculating emissions changes, options for plant-wide applicability limits, and recordkeeping and reporting requirements. The proposed revisions also include changes made to the NSR program for minor stationary sources, including a new provision allowing construction to commence on certain minor sources prior to the applicant receiving a final permit to construct.
