

questions and will be the day-to-day contact for the project. This may be a different individual signing the Non-Federal certification.

C. Item 8. Funding and Partners. Post-construction costs including monitoring do not count as a cost share for projects funded under the Estuary Restoration Act and should not be included in the estimated total project cost. In the table, list the amount of funds being sought from the Estuary Habitat Restoration Program as from the Corps, as in-kind and with the entire amount originating from a Federal funding source.

D. Include the name of the organization as well as the title of the individual signing the Non-Federal Sponsor certification.

E. If submitting a proposal electronically, a hard copy of the Letter of Assurance and Certification may be submitted if its is post-marked by the closing date for this announcement and the electronic submission has the text of the Letter of Assurance and Certification with an indication of the date signed and name/title organization of the individual signing these documents. The Letter of Assurance should be addressed to "Chairman, Estuary Habitat Restoration Council" and sent to the address in Section X for hard copy submittals.

F. In the project description section of the project application form the phrase "Estimated life cycle of the project" refers to the functional life of the project. As an example a wetland may fill with sediment over time and its functionality diminished. The "life-cycle" would be the number of years until the project no longer provided the original benefits.

G. The proposed project should only be described as innovative if the Non-Federal Sponsor is requesting the special cost sharing for the incremental costs of including testing of or a demonstration of an innovative technology as defined in the application form.

Strengthening Institutions, American Indian Tribally Controlled Colleges and Universities and Alaska Native and Native Hawaiian-Serving Institutions Programs

ACTION: Correction.

SUPPLEMENTARY INFORMATION: On May 19, 2006, we published a notice in the *Federal Register* (71 FR 29130) inviting applications for new awards for fiscal year (FY) 2006 for the Strengthening Institutions, American Indian Tribally Controlled Colleges and Universities and Alaska Native and Native Hawaiian-Serving Institutions programs. On page 29131 of that notice, we included charts

listing the maximum award amounts, the estimated number of awards and the estimated average size of awards for the FY 2006 competitions for these programs. The charts incorrectly identified the Catalog of Federal Domestic Assistance (CFDA) number for the Strengthening Institutions program as "83.031A." This notice corrects that error.

The CFDA number listed for the Strengthening Institutions program in the charts on page 29131 is corrected to read "84.031A."
