Federal Energy Regulatory Commission

[Project No. 2213]

Public Utility District No. 1 of Cowlitz County, WA; Notice of Authorization for Continued Project Operation

May 5, 2006.

On April 23, 2004, Public Utility District No. 1 of Cowlitz County, licensee for the Swift No. 2 Hydroelectric Project, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. The Swift No. 2 Project is located on the North Fork Lewis River in Cowlitz and Skamania County, Washington.

The license for Project No. 2213 was issued for a period ending April 30, 2006. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year-to-year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in section 15 or any other applicable Section of the FPA. If the project's prior license waived the applicability of section 15 of the FPA, then, based on section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to

operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to Section 15 of the FPA, notice is hereby given that an annual license for Project No. 2213 is issued to PacifiCorp for a period effective May 1, 2006 through April 30, 2007, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before April 30, 2007, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise. If the project is not subject to section 15 of the FPA, notice is hereby given that Public Utility District No. 1 of Cowlitz County, is authorized to continue operation of the Swift No. 2 Project until such time as the Commission acts on its application for a subsequent license.

FEDERAL COMMUNICATIONS COMMISSION

Public Information Collections Approved by Office of Management and Budget

April 26, 2006.

SUMMARY: The Federal Communications Commission (FCC) has received Office of Management and Budget (OMB) approval for the following public information collections pursuant to the Paperwork Reduction Act of 1995, Public Law 104-13. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid control number.

FOR FURTHER INFORMATION CONTACT:

Jennifer Mock, Federal Communications Commission, 445 12th Street, SW., Washington, DC 20554, (202) 418-7234 or via the Internet at Jennifer.Mock@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1090.

OMB Approval Date: 4/26/2006.

OMB Expiration Date: 4/30/2009.

Title: Order and Implementing Public Notices Requiring BRS Channels 1 and/or 2/2A Licensees to File Data on the Construction Status and/or Operational Parameters of Each System.

Form No.: N/A.

Estimated Annual Burden: 150 respondents; 131 annual burden hours; .50-1.25 hours per respondent.

Needs and Uses: The Commission has received OMB approval for a collection contained in an *Order* (FCC 05-172) which requires licensees of Broadband Radio Services (BRS) Channels 1 and 2/2A to file information on the construction status and/or operation parameters of each system. The Commission is seeking information on non-subscriber locations and operating characteristics of BRS receivers and

other system characteristics of BRS incumbents (including operations by lessees) not currently collected on FCC Form 601 for this service.

This one-time collection is necessary because BRS Channels 1 and/or 2/2A are currently licensed at 2150-2150/62 MHz, which the Commission has designated for Advanced Wireless Services (AWS). The Commission also has announced that it intends to auction AWS licenses for 2150-2155 MHz, among other bands, starting in June 2006. Future AWS licensees will be obligated to relocate incumbent BRS operations in the 2150-2160/62 MHz band to comparable facilities, most likely within the newly restructured 2.5 GHz band.

In the *Order*, the Commission concluded that reliable, public data on each incumbent BRS system that will be subject to relocation is essential in advance of this planned spectrum auction and that neither the Commission nor the public has reliable, up-to-date information on the construction status and/or operational parameters of these BRS systems.

Accordingly, the Commission ordered licensees of BRS Channels 1 and 2/2A to submit information, listed in the *Order*, after the staff issues Public Notice(s) setting forth the specific data required, deadlines, and the procedures for filing this information electronically on the Commission's Universal Licensing System (ULS), where it will be available to the public. To assist in determining the scope of the new AWS entrants' relocation obligations, the Commission ordered BRS licensees in the 2150-2160/62 MHz band to provide the required data within 60 days and 120 days of the effective date of its *Order*, noting that these dates would correspond to OMB approval of the information collection, *i.e.*, PRA requirements for the ULS.

Federal Communications Commission.
