Federal Emergency Management Agency

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Federal Emergency Management Agency, Department of Homeland Security.

ACTION: Notice and request for comments.

SUMMARY: The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on a continuing information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning the use of the Mapping Needs Update Support System (MNUSS) Data Worksheet to collect data on flood hazard mapping needs.

SUPPLEMENTARY INFORMATION: Public Law 103-325, The Riegle Community Development and Regulatory Improvement Act of 1994, Title V—National Flood Insurance Reform, section 575, Updating of Flood Maps (also known as section 575 of the National Flood Insurance Reform Act (FNIRA) of 1994), mandates that at least once every five years, the Federal Emergency Management Agency (FEMA) will assess the need to revise and update all floodplain areas and flood risk zones identified, delineated, or established under section 1360 of the National Flood Insurance Act of 1968.

Collection of Information

Title: National Flood Insurance Program—Mapping Needs Update Support System (MNUSS) Data Worksheet.

Type of Information Collection: Extension of a Currently Approved Collection.

OMB Number: 1660-0081.

Abstract: To fulfill the mandate specified in section 575 of the NFIRA, FEMA established the Mapping Needs Assessment process and the MNUSS database in order to effectively identify and document data regarding community flood hazard mapping needs. MNUSS is designed to store mapping needs at the community level. The current version of MNUSS is an interactive, web-enabled password protected database. In order to facilitate the identification and collection of communities' current flood hazard mapping needs for input into MNUSS, FEMA developed the MNUSS Data Worksheet.

Flood hazard mapping needs information enables FEMA to be more responsive to ongoing changes affecting flood hazard areas that occur in communities participating in the NFIP. The changes include, but are not limited to, new corporate limit boundaries, changes in the road network, and changes in flood hazard areas, which
