**INTERNATIONAL TRADE
COMMISSION**

[Investigation No. 332-475]

**Probable Effect of Proposed
Definitions for Certain Baby Socks**

AGENCY: United States International
Trade Commission.

ACTION: Institution of investigation and
request for public comments.

DATES: *Effective Date:* June 5, 2006.

SUMMARY: Following receipt of a request
from the United States Trade
Representative (USTR) on May 26, 2006,
the Commission instituted investigation
No. 332-475, Probable Effect of
Proposed Definitions for Certain Baby
Socks, under section 332(g) of the Tariff
Act of 1930 (19 U.S.C. 1332(g)).

FOR FURTHER INFORMATION CONTACT:
Project Leader, Mrs. Jackie Jones, Office
of Industries (202-205-3466;
jackie.jones@usitc.gov). For information
on legal aspects, contact William
Gearhart of the Office of the General
Counsel (202-205-3091;
william.gearhart@usitc.gov). The media
should contact Margaret O'Laughlin,
Office of External Relations (202-205-
1819; margaret.olaughlin@usitc.gov).

Background: In his letter, the USTR
requested that the Commission provide
advice as to the probable effect of each
of two proposed definitions for babies'
booties on U.S. imports from China, on
total U.S. imports, and on domestic
producers of the affected articles. In an
attachment to the request letter, the
USTR provided two proposed
definitions for babies' booties
classifiable in heading 6111 of the

Harmonized Tariff Schedule of the
United States (HTS), as follows:

Proposed Definition Number One

For purposes of heading 6111, babies'
booties are knitted or crocheted foot
coverings without an applied sole glued,
sewn or otherwise affixed to the upper.
These articles have bulky
embellishments, such as rattles or other
attachments, which preclude wearing
inside of footwear.

Proposed Definition Number Two

For purposes of heading 6111, babies'
booties are knitted or crocheted foot
coverings without an applied sole glued,
sewn or otherwise affixed to the uppers.
These articles have embellishments,
such as rattles, lace, appliqués, skid-
proofing or kick-proofing properties.

As requested, the Commission will
submit its advice to the USTR at the
earliest possible date, but not later than
3 months following receipt of the letter,
or by August 25, 2006. Also as
requested, the Commission will issue, as
soon as possible thereafter, a public
version of the report with any business
confidential information deleted.

In the request letter, the USTR
referred to the *Memorandum of
Understanding Between the
Governments of the United States of
America and the People's Republic of
China Concerning Trade in Textile and
Apparel Products* ("MOU"), which
entered into force on January 1, 2006,
and established annual quantitative
restraints on U.S. imports of certain
textile and apparel products originating
in China through 2008. In the request
letter, the USTR stated that one such
quantitative restraint covers category
332/432/632 (hosiery of cotton wool,
and manmade fibers), and includes a
sublimit on category 332/432/632—part.
According to the request letter and the
MOU, the quantitative restraint and
sublimit on hosiery from China also
cover the babies' socks and booties of
heading 6111 (category 239).

Written Submissions: No public
hearing is planned. However, interested
parties are invited to submit written
statements concerning the matters to be
addressed by the Commission in its
report on this investigation.
