II. Background

The Office of Pesticide Programs (OPP) is entrusted with the responsibility to help ensure the safety of the American food supply, the education and protection from unreasonable risk of those who apply or are exposed to pesticides occupationally or through use of products, and general protection of the environment and special ecosystems from potential risks posed by pesticides.

The Charter for the Environmental Protection Agency's Pesticide Program Dialogue Committee (PPDC) was established under the Federal Advisory Committee Act (FACA), Public Law 92-463, in September 1995, and has been renewed every 2 years since that time. PPDC's Charter was renewed November 5, 2005, for another 2-year period. The purpose of PPDC is to provide advice and recommendations to the EPA Administrator on issues associated with pesticide regulatory development and reform initiatives, evolving public policy and program implementation issues, and science issues associated with evaluating and reducing risks from use of pesticides. It is determined that PPDC is in the public interest in connection with the performance of duties imposed on the Agency by law. The following sectors are represented on the PPDC: Pesticide industry and trade associations; environmental/public interest, consumer, and animal rights groups; farm worker organizations; pesticide user, grower, and commodity groups; Federal and State/local/Tribal governments; the general public; academia; and public health organizations.

Copies of the PPDC Charter are filed with appropriate committees of Congress and the Library of Congress and are available upon request.

III. How Can I Request to Participate in this Meeting?

FEDERAL COMMUNICATIONS COMMISSION

[DA 06-1748]

LPTV and TV Translator Digital Companion Channel Applications Non-Mutually Exclusive Proposals

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: In this document, the Media Bureau and Wireless Telecommunications Bureau (Bureaus) announce processing procedures for singleton proposals for digital companion channels. The parties listed in the Attachment A to the Public Notice must submit a complete FCC Form 346 following the procedures set forth in the Public Notice.

DATES: The deadline for submitting FCC Form 346 is October 30, 2006.

FOR FURTHER INFORMATION CONTACT: Shaun Maher of the Video Division, Media Bureau, at (202) 418-1600.

SUPPLEMENTARY INFORMATION: On April 20, 2006, the Media Bureau and Wireless Telecommunications Bureau (Bureaus) announced a filing window for certain low power television (LPTV) and television translator stations to submit proposals for digital companion channels. In the Public Notice, the Video Division of the Media Bureau provided a list of all proposals received during the filing window that are not mutually exclusive with any other proposal submitted in the filing window. Since these proposals are not mutually exclusive with any other proposal (and are therefore deemed "singletons"), they will not be subject to the Commission's auction procedures. In the Public Notice, the Video Division announced processing procedures for these singleton proposals. The parties listed in the Attachment A to the Public Notice must submit an FCC Form 346 by October 30, 2006. Applications must be filed electronically and paper-filed applications will not be accepted. Complete instructions for filing the FCC Form 346 were included in the Public Notice.

In addition, the Public Notice reminded applicants proposing digital companion channels on channels 52-59 that they must certify in their long form application the unavailability of any suitable in-core channel. "Suitable in-core channel" is defined as one that would enable the station to produce a digital service area comparable to its analog service area.

In addition, § 74.786(d) of the Commission's rules provides that applicants proposing digital companion channels on channels 52-59 must notify all potentially affected 700 MHz band wireless licensees of the spectrum comprising the proposed TV channel and the spectrum in the first adjacent channels thereto not later than 30 days prior to the submission of their long form application. Specifically, notification is required to wireless
