

administration of their affairs, respectively.

(B) Self-Regulatory Organization's Statement on Burden on Competition

DTC, FICC, and NSCC do not believe that the proposed rule change will have any impact or impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments relating to the proposed rule change have not yet been solicited or received. DTC, FICC, and NSCC will notify the Commission of any written comments they receive.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The Commission finds that the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder and particularly with the requirements of Section 17A(b)(3)(C).⁶ Section 17A(b)(3)(C) requires that the rules of a clearing agency be designed to assure fair representation in the selection of its directors and in the administration of its affairs. The Commission finds that DTC, FICC, and NSCC's proposed rule changes are consistent with this requirement because the allocation of common share purchase requirements will more accurately represent the actual use of the clearing agencies' services and the risks posed by such uses. Moreover, the removal of non-U.S. CSDs from the definition of Mandatory Purchaser Participant should not result in a significant increase in the burden imposed on the remaining shareholders, because the common shares that would otherwise be purchased by the non-U.S. CSDs represent slightly more than one percent of the total number of DTCC common shares to be purchased by the Mandatory Purchaser Participants.

DTC, FICC, and NSCC have requested that the Commission approve the proposed rules prior to the thirtieth day after publication of the notice of the filing. The Commission finds good cause for approving the proposed rule change prior to the thirtieth day after the publication of notice because such approval will permit DTCC to complete the necessary calculations to determine the number of shares to be purchased by Mandatory Purchaser Participants without including the non-U.S. CSDs, and will permit the clearing agencies' participants to complete their purchases

of such shares prior to DTCC, DTC, FICC, and NSCC's annual shareholders meetings to be held in April 2006.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-53396; File No. SR-FICC-2005-17]

Self-Regulatory Organizations; Fixed Income Clearing Corporation; Notice of Filing of Proposed Rule Change Relating to Assumption of Blind Brokered Fails by Its Government Securities Division

March 2, 2006.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on September 30, 2005, the Fixed Income Clearing Corporation ("FICC") filed with the Securities and Exchange Commission ("Commission") a proposed rule change and on November 28, 2005 amended the proposed rule change that is described in Items I, II, and III below, which items have been prepared primarily by FICC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change would clarify the practice of the Government Securities Division ("GSD") of FICC of assuming certain blind brokered repurchase transaction ("repo") fails and of obtaining financing in connection with such assumption.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, FICC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. FICC has prepared summaries, set forth in sections (A), (B),

⁷ 17 CFR 200.30-3(a)(12).

¹ 15 U.S.C. 78s(b)(1).

⁶ 15 U.S.C. 78q-1(b)(3)(C).

and (C) below, of the most significant aspects of these statements.²

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to clarify the practice of the GSD of FICC of assuming certain blind brokered repo fails and of obtaining financing as necessary in connection with such assumption. The settlement of the start leg of a same-day starting repo has always been and continues to be processed outside of the GSD. In the evening of the day of a same-day starting brokered repo, FICC will assume responsibility from the broker for settlement of such start leg if the repo dealer has not delivered securities to the broker to start the repo (*i.e.*, the start leg has failed). This may involve the receipt of securities from the repo dealer for redelivery to the reverse repo dealer or the settlement of the start leg may be effected by netting or pair-off of the settlement obligations arising from the start leg against the settlement obligations arising from the close leg of the same or another repo.

FICC will also assume a blind brokered repo fail that arises in the close leg of a blind brokered repo transaction. For example, if the start leg of the transaction settles outside of FICC in the normal course but one side of the close leg does not compare (for any reason that would cause a trade to not compare such as erroneous trade data submitted by one or both of the parties), the broker will wind up with a net settlement position rather than netting flat. If that transaction fails to settle, FICC will assume the broker's fail.

FICC assumes the fails in these instances in order to decrease risk.³ By assuming the fail, FICC removes the broker, which acts as an intermediary and which expects to net out of every transaction and not have a settlement position, from the settlement process. FICC is proposing to add a provision to its rules to expressly provide for this practice and therefore to make its rules consistent with its current and longstanding practice.⁴

In the assumption of such broker fails, the need for financing might arise. For example, such as if the repo dealer delivered securities at the close of the securities Fedwire and if the broker was

unable to deliver them to the reverse repo dealer. The GSD's rules already contain a provision, Section 8 of Rule 12, that addresses the GSD's need to obtain financing in general. This provision contemplates the need for financing in order to allow the GSD to facilitate securities settlement generally. It is important to note that such financing is part of the GSD's normal course of business, and the GSD's ability to obtain such financing is necessary for it to be able to complete securities settlement. Section 8 of Rule 12 provides that if FICC deems it appropriate to obtain financing to provide its securities settlement services, FICC may create security interests in eligible netting securities delivered by a netting member in order to obtain such financing. The provision requires that members not take any action to adversely affect this process. The provision also states that such security interests may be created to obtain financing in an amount greater than the obligation of a member to FICC relating to such eligible netting securities. Thus, clearing fund securities may be used to collateralize such financing. Also, Section III.C of the GSD's fee structure provides the formula that the GSD will use to charge members for the cost of any financing obtained by the GSD.

FICC wishes to interpret Section 8 of Rule 12 and Section III.C. to apply to financing that might arise because of FICC's assumption of blind brokered fails. FICC does not believe that actual changes to the rules are necessary for this clarification.

FICC believes that the proposed change is consistent with Section 17A of the Act⁵ and the rules and regulations thereunder applicable to FICC because it clarifies FICC's rules for consistency with current practice and provides an interpretation of an existing rule.

(B) Self-Regulatory Organization's Statement on Burden on Competition

FICC does not believe that the proposed rule change will have any impact or impose any burden on competition.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments relating to the proposed rule change have not yet been solicited or received. FICC will notify the Commission of any written comments received by FICC.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period: (i) As the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding; or (ii) as to which the self-regulatory organization consents, the Commission will:

(A) By order approve such proposed rule change or

(B) institute proceedings to determine whether the proposed rule change should be disapproved.

Rule 7.39 [Reserved] Adjustment of Open Orders

The Archipelago Exchange will automatically adjust the price and/or size of round and odd lot Open Orders, as defined in PCXE Rule 7.31, in all ArcaEx eligible securities (unless instructed otherwise by the entering party) resident in the system in response to issuer corporate actions (i.e., dividend payment or distribution, stock split, mergers and acquisitions), as follows:

(a) *Sell Orders—Sell Orders in the system shall not be adjusted by the Corporate Action Processing ("CAP") System and must be modified, if desired, by the entering party, except for reverse splits where such sell side orders shall be purged from the system.*

(b) *Buy Orders—Buy side orders shall be adjusted by the CAP System based on the particular corporate action impacting the security as set forth below:*

(1) *Cash Dividends: Buy side order prices shall be first reduced by the*

dividend amount and the resulting price will be rounded to the nearest penny.

(2) *Stock Dividends and Stock Splits: Buy side order prices shall be determined by first rounding up the dollar value of the stock dividend or split to the nearest penny. The resulting amount shall then be subtracted from the price of the buy order. (5) *Reverse Splits: All orders (buy and sell) shall be cancelled and returned to the entering party.*

(c) *Stop Orders To Sell—Sell Stop Orders will be handled in the same manner as Buy Orders as mentioned in section (b) in the event of a corporate action.*

(d) *Open Orders that are adjusted by the CAP System pursuant to the above rules, and that thereafter continuously remain in the system, shall retain the time priority of their original entry.*

(e) *In the event a corporate action is identified by the Corporation at a time in which an adjustment to all affected open buy orders and sell stop orders could not be made, the Corporation will cancel all such orders and notify the entering party(ies).*
