Pursuant to Section 11A of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 608 thereunder,² notice is hereby given that on April 24, 2006, the ITS Participants, through the ITS Operating Committee, submitted to the Securities and Exchange Commission ("Commission") a proposed amendment ("Twenty Third Amendment") to the restated ITS Plan.³ The purpose of the Twenty Third Amendment is to recognize the manner in which Chicago Stock Exchange, Inc. ("CHX") will interact with ITS, to allow Participant markets to open trading in a halted security after a shorter period of time after a re-indication, and to reflect the name changes from the New York Stock Exchange, Inc. to New York Stock Exchange LLC and from Pacific Exchange, Inc. to NYSE Arca, Inc. Pursuant to Rule 608(b)(3)(ii) under the Act,⁴ the ITS Participants designated the amendment as concerned solely with the administration of the Plan. As a result, the Twenty Third Amendment has become effective upon filing with the Commission.⁵ At any time within 60 days of the filing of the amendment, the Commission may summarily abrogate the amendment and require that such

amendment be refiled in accordance with paragraph (a)(1) of Rule 608 and reviewed in accordance with paragraph (b)(2) of Rule 608, if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanisms of, a national market system or otherwise in furtherance of the purposes of the Act. The Commission is publishing this notice to solicit comments from interested persons.

I. Description and Purpose of the Proposed Amendment

A. CHX's Interaction With ITS

The ITS Participants propose to amend the restated ITS Plan to eliminate all references to CHX in Section 6(a)(ii)(A) and to add new subparagraph (H) to section 6(a)(ii). Proposed new language is *italicized*:

(H) Description Applicable to CHX

With respect to an ITS transaction that involves a CHX member, the commitment to trade or response thereto destined for or originating with the CHX will leave and enter the System at the CHX. A trade involving the CHX would take place as follows. In the example in section 6(a)(ii)(A) above, assume that the order is for 300 shares. Assume also that when the NYSE member checks the continuously updated quotation display at the appropriate NYSE trading post, he sees that the best offer is one of 40.15 for 300 shares from the CHX. Having learned this information, the NYSE member may decide to attempt to buy the 300 shares for his customer from the 40.15 offer. By using an ITS station located on the NYSE trading floor, the broker would send, or cause to be sent, to the CHX a commitment to buy 300 shares of the stock at 40.15.

When the commitment to buy is entered into the System, the System will route the commitment to the CHX. If the 40.15 offer is still available when the commitment to buy reaches the CHX, or if a better offer is available and if the rules of the CHX permit an execution at that price, then the CHX would generate an acceptance of the commitment on behalf of the one or more CHX members responsible for the 40.15 offer (or the better offer) and route it to the System. The execution would occur at 40.15 (or at the better price) if the applicable time period had not expired. CHX would report the trade to the CTA Plan Processor for dissemination under the CTA Plan at 40.15 (or at the better price)

with the same identifier that is assigned to CHX.

If the example is reversed and a CHX member seeks to purchase 300 shares, the CHX member would send the NYSE a commitment to buy 300 shares of the stock at 40.15.

When the commitment to buy is entered into the CHX, the CHX will route the commitment to the System, which will in turn route the commitment to the NYSE. If the 40.15 offer is still available when the commitment to buy reaches the NYSE, or if a better offer is available, and if the rules of the NYSE permit an execution at that price, then the NYSE offer would accept the commitment during the applicable time period and an execution at 40.15 (or at the better price) would take place. The NYSE would then report the trade to the CTA Plan Processor for dissemination under the CTA Plan at 40.15 (or at the better price) with the identifier assigned to the NYSE.

This description shall take effect upon 10 days' written notice from the CHX to all Participants.

B. Opening of Trading in a Halted Security

The ITS Participants propose to amend the restated ITS Plan to have Section (b)(i)(B) of Exhibit A ("Tape Indications") read as follows. Proposed new language is *italicized*:

* * * * *

In any such situation, the specialist shall not open or reopen the security until not less than three minutes after his transmission of the opening or reopening indication of interest. However, where more than one indication is disseminated, a stock may re-open one minute after the last indication, provided that at least three minutes must have elapsed from the dissemination of the first indication. For the purposes of paragraphs (b)(ii)(A), (b)(ii)(B), (b)(iii) and (c), "pre-opening notification" includes an indication of interest furnished to the consolidated last sale reporting service.

C. Renumbering

The ITS Participants propose to renumber former section 6(a)(ii)(H) as section 6(a)(ii)(I).

D. Name Change

The ITS Participants propose to reflect the name changes from the New York Stock Exchange, Inc. to New York Stock Exchange LLC and from Pacific Exchange, Inc. to NYSE Arca, Inc. to reflect the legal name changes that occurred on March 7, 2006.
