OMB Number: 0596-0010.

Expiration Date of Approval: October 31, 2006.

Type of Request: Extension with Revision.

Abstract: The Forest and Range Renewable Resources Planning Act of 1974 and the Forest and Rangeland Renewable Resources Research Act of 1978 require the Forest Service to evaluate trends in the use of logs and wood chips, to forecast anticipated levels of logs and wood chips, and to analyze changes in the harvest of these resources from National Forest System lands. To collect this information, Forest Service personnel use two questionnaires, which respondents return in self-addressed, postage-paid envelopes.

Pulpwood Received Questionnaire: Forest Service personnel use this questionnaire to collect and evaluate information from pulp mills in order to monitor the volume, types, species, sources, and prices of timber products harvested throughout the Nation. The data collected will be used to provide essential information about the current use of the Nation's timber resources for pulpwood industrial products and is not available from other sources.

Logs and Other Roundwood Received: This questionnaire is used by Forest Service personnel to collect and evaluate information from primary wood-using mills, including small, part-time mills, as well as large corporate entities. Primary wood-using mills are facilities that use harvested wood in log or chip form, such as sawlogs, veneer logs, pulpwood, and pulp chips, to manufacture a secondary product, such as lumber or paper. Forest Service

personnel evaluate the information collected and use it to monitor the volume, types, species, sources, and

prices of timber products harvested throughout the Nation.

Item	Pulpwood received questionnaire	Logs and other roundwood received questionnaire
Estimate of Annual Burden	0.5 hours	0.84 hours.
Type of Respondents	Primary users of industrial pulpwood.	Primary users of industrial roundwood products.
Estimated Annual Number of Respondents	188	1628.
Estimated Number of Responses per Respondent	1	1.

This information is to be collected by Forest Service personnel at the following Forest Service research stations: Northeast Research Station (Radnor, Pa), North Central Research Station (St. Paul, MN), Southern Research Station (Asheville, NC), Rocky Mountain Research Station (Ogden, UT), and Pacific Northwest Research Station (Portland, OR).

SUPPLEMENTARY INFORMATION:
Title: Advertised Timber for Sale.
OMB Number: 0596-0066.
Expiration Date of Approval: October 31, 2006.

Type of Request: Extension with Revision.

Abstract: Pursuant to statutory requirements at 16 U.S.C. 472a, unless extraordinary conditions exist as defined by regulation, the Secretary of

Agriculture must (1) advertise sales of all National Forest System timber or forest products exceeding \$10,000 in appraised value, (2) select bidding methods that ensure open and fair competition; (3) select bidding methods that ensure that the Federal Government receives not less than appraised value of the timber or forest product; and (4) monitor bidding patterns for evidence of unlawful bidding practices.

Pursuant to the Forest Service Small Business Timber Sale Set-Aside Program, developed in cooperation with the Small Business Administration, Forest Service regulations at Title 36 of the Code of Federal Regulations, § 223.84 require that the Forest Service bid form used by potential timber sale bidders include provisions for small business concerns. The data collected will be used by the agency to ensure that National Forest System timber will be sold at not less than appraised value, that bidders will meet specific criteria when submitting a bid, and that anti-trust violations will not occur during the bidding process.

The tax identification number of each bidder is entered into an automated bid monitoring system, which is used to determine if speculative bidding or unlawful bidding practices are occurring and is required to process electronic payments to the purchaser.

Respondents will be bidders on National Forest System timber sales. Forest Service sale officers will mail bid forms to potential bidders, and bidders will return the completed forms, dated and signed, to the Forest Service sale officer.

The data gathered in this information collection are not available from other sources.
