SUPPLEMENTARY INFORMATION:

Title: Advertised Timber for Sale.
OMB Number: 0596-0066.
Expiration Date of Approval: October 31, 2006.

Type of Request: Extension with Revision.

Abstract: Pursuant to statutory requirements at 16 U.S.C. 472a, unless extraordinary conditions exist as defined by regulation, the Secretary of

Agriculture must (1) advertise sales of all National Forest System timber or forest products exceeding \$10,000 in appraised value, (2) select bidding methods that ensure open and fair competition; (3) select bidding methods that ensure that the Federal Government receives not less than appraised value of the timber or forest product; and (4) monitor bidding patterns for evidence of unlawful bidding practices.

Pursuant to the Forest Service Small Business Timber Sale Set-Aside Program, developed in cooperation with the Small Business Administration, Forest Service regulations at Title 36 of the Code of Federal Regulations, § 223.84 require that the Forest Service bid form used by potential timber sale bidders include provisions for small business concerns. The data collected will be used by the agency to ensure that National Forest System timber will be sold at not less than appraised value, that bidders will meet specific criteria when submitting a bid, and that anti-trust violations will not occur during the bidding process.

The tax identification number of each bidder is entered into an automated bid monitoring system, which is used to determine if speculative bidding or unlawful bidding practices are occurring and is required to process electronic payments to the purchaser.

Respondents will be bidders on National Forest System timber sales. Forest Service sale officers will mail bid forms to potential bidders, and bidders will return the completed forms, dated and signed, to the Forest Service sale officer.

The data gathered in this information collection are not available from other sources.
